[No Cure for Being Human](#) - Kate Bowler 2021-09-30

***A SUNDAY TIMES AND INDEPENDENT BOOK OF THE YEAR AND INSTANT NEW YORK TIMES

BESTSELLER*** The bestselling author of *Everything Happens for a Reason (And Other Lies I've Loved)*

asks, how do you move forward with a life you didn't choose? Hailed by Glennon Doyle as 'the Christian Joan Didion', Kate Bowler used to accept the modern idea that life is an endless horizon of possibilities, a series of choices which if made correctly, would lead us to a place just out of our reach. A beach body by summer. A trip to Disneyland around the corner. A promotion on the horizon. But then at thirty-five she was

diagnosed with stage IV colon cancer, and now she has to ask one of the most fundamental questions of all: How do we create meaning in our lives when the life we hoped for is put on hold indefinitely? In *No Cure for Being Human*, Kate searches for a way forward as she mines the wisdom (and absurdity) of our modern 'best life now' advice industry, which offers us exhausting positivity, trying to convince us that we can out-

eat, out-learn and out-perform our humanness. With dry wit and unflinching honesty she grapples with her cancer diagnosis, her ambition and her faith and searches for some kind of peace with her limitations in a culture that says that anything is possible. Frank and funny, dark and wise, Kate's irreverent, hard-won observations in *No Cure For Being Human* chart a bold path towards learning new ways to live.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

[Between Two Kingdoms](#) - Suleika Jaouad 2021-02-09

NEW YORK TIMES BESTSELLER • A searing, deeply moving memoir of illness and recovery that traces one young woman's journey from diagnosis to remission to re-entry into "normal" life—from the author of the *Life, Interrupted* column in The New York Times ONE OF THE BEST BOOKS OF THE YEAR: The New York Times Book Review, The Washington Post, Bloomberg, The Rumpus, She Reads, Library Journal, Booklist • "I was immersed for the whole ride and would follow Jaouad anywhere. . . . Her writing restores the moon, lights the way as we learn to endure the unknown."—Chanel Miller, The New York Times Book Review "Beautifully crafted . . . affecting . . . a transformative read . . . Jaouad's insights about the self, connectedness, uncertainty and time speak to all of us."—The Washington Post In the summer after graduating from college, Suleika Jaouad was preparing, as they say in commencement speeches, to enter "the real world." She had fallen in love and moved to Paris to pursue her dream of becoming a war correspondent. The real world she found, however, would take her into a very different kind of conflict zone. It started with an itch—first on her feet, then up her legs, like a thousand invisible mosquito bites. Next came the exhaustion, and the six-hour naps that only deepened her fatigue. Then a trip to the doctor and, a few weeks shy of her twenty-third birthday, a diagnosis: leukemia, with a 35 percent chance of survival. Just like that, the life she had imagined for herself had gone up in flames. By the time Jaouad flew home to New York, she had lost her job, her apartment, and her independence. She would spend much of the next four years in a hospital bed, fighting for her life and chronicling the saga in a column for The New York Times. When Jaouad finally walked out of the cancer ward—after countless rounds of chemo, a clinical trial, and a bone marrow transplant—she was, according to the doctors, cured. But as she would soon learn, a cure is not where the work of healing ends; it's where it begins. She had spent the past 1,500 days in desperate pursuit of one goal—to survive. And now that she'd done so, she realized that she had no idea how to live. How would she reenter the world and live again? How could she reclaim what had been lost? Jaouad embarked—with her new best friend, Oscar, a scruffy terrier mutt—on a 100-day, 15,000-mile road trip across the country. She set out to meet some of the strangers who had written to her during her years in the hospital: a teenage girl in Florida also recovering from cancer; a teacher in California grieving the death of her son; a death-row inmate in Texas who'd spent his own years confined to a room. What she learned on this trip is that the divide between sick and well is porous, that the vast majority of us will travel back and forth between these realms throughout our lives. *Between Two Kingdoms* is a profound chronicle of survivorship and a fierce, tender, and inspiring exploration of what it means to begin again.

[The School of Greatness](#) - Lewis Howes 2017-10-31

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In the New York Times bestseller *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

[Learn to Love](#) - Thomas Jordan 2019-12-08

Learn to Love: Guide to Healing Your Disappointing Love Life is a book about learning to improve your love life. After 30 years of clinical research and treatment of patients with unhealthy love lives, I now recognize that most people are not in control of their love lives. Why? Because most people don't know what they've learned about and from the love relationships in the course of their lives. Love relationships that started in their families of origin the moment they were born. If you don't know what you've learned about love relationships, then what you've learned is in control of your love life, healthy or unhealthy. If what you've learned was healthy, no problem. Chances are you'll simply replicate what you've learned about love relationships. If what you've learned was unhealthy, you could be unwittingly making the same love life mistakes over and over again because of what you've learned. *Learn to Love* will show you how to identify what you've learned about love relationships, how to unlearn what is unhealthy, and practice something new, healthy, and the opposite of what you've learned, now as a corrective in your adult love life. This simple learning formula has helped many of my patients begin taking control of their own love lives, as well as helping me improve my own love life. *Learn to Love* will help you learn how to take control of your love life. Dr. Thomas Jordan
