Mental Capacity Act 2005 code of practice - Great Britain:

Department for Constitutional Affairs 2007-08-16

The Mental capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

[Using Science to Improve the BLM Wild Horse and Burro Program](#) -

National Research Council 2013-09-04

Using Science to Improve the BLM Wild Horse and Burro Program: A Way Forward reviews the science that underpins the Bureau of Land Management's oversight of free-ranging horses and burros on federal public lands in the western United States, concluding that constructive changes could be implemented. The Wild Horse and Burro Program has not used scientifically rigorous methods to estimate the population sizes of horses and burros, to model the effects of management actions on the animals, or to assess the availability and use of forage on rangelands. Evidence suggests that horse populations are growing by 15 to 20 percent each year, a level that is unsustainable for maintaining healthy horse populations as well as healthy ecosystems. Promising fertility-control methods are available to help limit this population growth, however. In addition, science-based methods exist for improving population estimates, predicting the effects of management practices in order to maintain genetically diverse, healthy populations, and estimating the productivity of rangelands. Greater transparency in how science-based methods are used to inform management decisions may help increase public confidence in the Wild Horse and Burro Program.

Safe Abortion - Organisation mondiale de la santé 2003-05-13

At a UN General Assembly Special Session in 1999, governments recognised unsafe abortion as a major public health concern, and pledged their commitment to reduce the need for abortion through expanded and improved family planning services, as well as ensure abortion services should be safe and accessible. This technical and policy

guidance provides a comprehensive overview of the many actions that can be taken in health systems to ensure that women have access to good quality abortion services as allowed by law.

Contraceptive Methods Women Have Ever Used: United States, 1982-2010 - Kimberly Daniels 2013

Clinical Management of Male Infertility - Giorgio Cavallini

2014-10-20

This book provides andrologists and other practitioners with reliable, up-to-date information on all aspects of male infertility and is designed to assist in the clinical management of patients. Clear guidance is offered on classification of infertility, sperm analysis interpretation and diagnosis. The full range of types and causes of male infertility are then discussed in depth. Particular attention is devoted to poorly understood conditions such as unexplained couple infertility and idiopathic male infertility, but the roles of diverse disorders, health and lifestyle factors and environmental pollution are also fully explored. Research considered stimulating for the reader is highlighted, reflecting the fascinating and controversial nature of the field. International treatment guidelines are presented and the role of diet and dietary supplements is discussed in view of their increasing importance. Clinicians will find that the book's straightforward approach ensures that it can be easily and rapidly consulted.

Mercy Street - Jennifer Haigh 2022-02-01

NATIONAL BESTSELLER “Ms. Haigh is an expertly nuanced storyteller long overdue for major attention. Her work is gripping, real, and totally immersive, akin to that of writers as different as Richard Price, Richard Ford, and Richard Russo.”—Janet Maslin, *New York Times* The highly praised, “extraordinary” (*New York Times Book Review*) novel about the disparate lives that intersect at a women’s clinic in Boston, by *New York Times* bestselling author Jennifer Haigh For almost a decade, Claudia has counseled patients at Mercy Street, a clinic in the heart of the city. The work is consuming, the unending dramas of women in crisis. For its patients, Mercy Street offers more than health care; for many, it is a second chance. But outside the clinic, the reality is different. Anonymous threats are frequent. A small, determined group of anti-abortion demonstrators appears each morning at its door. As the protests intensify, fear creeps into Claudia’s days, a humming anxiety she manages with frequent visits to Timmy, an affable pot dealer in the midst of his own existential crisis. At Timmy’s, she encounters a random assortment of customers, including Anthony, a lost soul who spends most of his life online, chatting with the mysterious Excelsior11—the screenname of Victor Prine, an anti-abortion crusader who has set his sights on Mercy Street and is ready to risk it all for his beliefs. *Mercy Street* is a novel for right now, a story of the polarized American present. Jennifer Haigh, “an expert natural storyteller with a keen sense of her characters’ humanity” (*New York Times*), has written a groundbreaking novel, a fearless examination of one of the most divisive issues of our time.

Consent - 2008

My Life Next Door - Huntley Fitzpatrick 2012-06-14

A gorgeous debut about family, friendship, first romance, and how to be true to one person you love without betraying another "One thing my mother never knew, and would disapprove of most of all, was that I watched the Garretts. All the time." The Garretts are everything the Reeds are not. Loud, numerous, messy, affectionate. And every day from her balcony perch, seventeen-year-old Samantha Reed wishes she was one of them . . . until one summer evening, Jase Garrett climbs her terrace and changes everything. As the two fall fiercely in love, Jase's family makes Samantha one of their own. Then in an instant, the bottom drops out of her world and she is suddenly faced with an impossible decision. Which perfect family will save her? Or is it time she saved herself? A dreamy summer read, full of characters who stay with you long after the story is over.

Pregnancy After Preeclampsia - Madison Lee 2017-04-26

For years, I dreamed about having a baby. I always envisioned myself as a mother but never knew it would take so much sacrifice to get there. After the dream finally became a reality, and the stick turned pink, I had no idea I would almost lose my life trying to bring one into the world. Preeclampsia stole something from me, and I spent years trying to understand the reasons why. After the hardest nine months of my life, I swore I would never put my body through that risk ever again. Well, as

time passed, the wounds healed and the memories began to fade. Even though the fear was still very much alive, the desire was greater. I searched for statistics, and doctor's advice, but nothing was what I needed to hear. No one could give us the answers to our questions, because Preeclampsia still isn't well understood. With such uncertainty we could've quit--could've given up the dream--but I wasn't ready. My body had something to prove to me, and I knew I needed to give it that chance. After countless hours of research, and finding a doctor who was my advocate, we decided to venture forward with our dream. Five years after the scariest day of my life, I became pregnant with my second child. This book showcases every step of my pregnancies with raw and uncut detail. This is my true story of Pregnancy After Preeclampsia.

Infertility in the Male - Larry I. Lipshultz 2009-09-24

The new edition of this canonical text on male reproductive medicine will cement the book's market-leading position. Practitioners across many specialties - including urologists, gynecologists, reproductive endocrinologists, medical endocrinologists and many in internal medicine and family practice - will see men with suboptimal fertility and reproductive problems. The book provides an excellent source of timely, well-considered information for those training in this young and rapidly evolving field. While several recent books provide targeted 'cookbooks' for those in a male reproductive laboratory, or quick reference for practising generalists, the modern, comprehensive reference providing both a background for male reproductive medicine as well as clinical practice information based on that foundation has been lacking until now. The book has been extensively revised with a particular focus on modern molecular medicine. Appropriate therapeutic interventions are highlighted throughout.
