*The Evil Clergyman* - H.P. Lovecraft 2020-01-14

The story begins in the attic of an ancient house. The narrator's companion refers to the former owner of the house and the presumably violent end that befell him. He advises the narrator not to stay after dark or touch anything, especially the small object on a table, which the companion seems to fear considerably. The narrator is then left alone in the attic; he notes the many theological and classical books, and one bookshelf in particular containing books on magic. He feels a considerable curiosity for the forbidden object on the table. The narrator finds a strange flashlight-like device in his pocket that produces a peculiar violet glow. He attempts to illuminate the object on the table with this strange light, which he describes as being

composed of particles. The object makes a crackling sound like a sparking vacuum tube, and takes on a pinkish glow with a vague white shape taking form from its center. The narrator, feeling that his surroundings are taking on strange new properties, realizes that he is not alone; the sinister newcomer is described as wearing clerical garb typical of the Anglican Church. The newcomer begins throwing magical books into a fireplace...

*At the Mountains of Madness* - H.P. Lovecraft

*Stephen King's Box* - Claudio Hernández  
2017-09-24

The master of terror, Stephen King, found a box full of stories and manuscripts that belonged to his father. Since then, no one found out what was inside that box or if all of this influenced King's work. This is an homage to Stephen King and his stories. In the story, "The stories' box", Steve tells about a box and as he grows up, he has recurrent dreams and predictions of stories that would become a successful book. In the story "The gravedigger", an old gravedigger about to retire, after 40 years of burying people in Boad Hill, never wondered when his time to die would come or who would bury him. Because it does no good to think about death. In the story "The A girl", a married man has several affairs with different women, until one day the A girl presents herself. A gorgeous beauty of long legs and big green eyes. But after going to a hotel, he finds out the truth. In the story "Rotten apples", Tom loved his fruit trees, especially his apple trees when they were a color festival in the spring. He loved apples and he would eat two every day. Until one day, he feels very tired and he sees roots growing instead of fingernails. His joints start to become rigid. In the story "In the maggot's mouth", a shylock from the eighteenth century counts his money every night... And many, many more.

**'Salem's Lot** - Stephen King 2008-12-11

With a stunning new cover look, King's chilling classic of a small new England town about to be engulfed in terror. Turn off the television - in fact, why don't you turn off all the lights except for the one over your favourite chair? - and we'll talk about vampires here in the dim. I think I can

make you believe in them. Stephen King, from the Introduction. 'Salem's Lot is a small New England town with the usual quota of gossips, drinkers, weirdos and respectable folk. Of course there are tales of strange happenings - but not more than in any other town its size. Ben Mears, a moderately successful writer, returns to the Lot to write a novel based on his early years, and to exorcise the terrors that have haunted him since childhood. The event he witnessed in the house now rented by a new resident. A newcomer with a strange allure. A man who causes Ben some unease as things start to happen: a child disappears, a dog is brutally killed - nothing unusual, except the list starts to grow. Soon surprise will turn to bewilderment, bewilderment to confusion and finally to terror . . .

**The Mysterious Ship** - H. P. Lovecraft  
2014-12-13

"The Mysterious Ship" is a story story by American horror fiction writer H. P. Lovecraft. Howard Phillips Lovecraft (August 20, 1890 - March 15, 1937) - known as H.P. Lovecraft - was an American author who achieved posthumous fame through his influential works of horror

fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. Lovecraft was born in Providence, Rhode Island, where he spent most of his life. His father was confined to a mental institution when Lovecraft was three years old. His grandfather, a wealthy businessman, enjoyed storytelling and was an early influence. Intellectually precocious but sensitive, Lovecraft began composing rudimentary horror tales by the age of eight, but suffered from overwhelming feelings of anxiety. He encountered problems with classmates in school, and was kept at home by his highly strung and overbearing mother for illnesses that may have been psychosomatic. In high school, Lovecraft was able to better connect with his peers and form friendships. He also involved neighborhood children in elaborate make-believe projects, only regretfully ceasing the activity at seventeen years old. Despite leaving school in 1908 without graduating - he found mathematics particularly difficult - Lovecraft had developed a formidable knowledge of his favored subjects, such as history, linguistics, chemistry, and astronomy. Although he seems to have had some social life, attending meetings of a club for local young men, Lovecraft, in early adulthood, was established in a reclusive 'nightbird' lifestyle without occupation or pursuit of romantic adventures. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine. Lovecraft contracted a marriage to an older woman he had met at an association conference. By age 34, he was a regular contributor to newly founded *Weird Tales* magazine; he turned down an offer of the editorship. Lovecraft returned to Providence from New York in 1926, and over the next nine months he produced some of his most celebrated tales including "The Call of Cthulhu," canonical to the Cthulhu Mythos. Never able to support himself from earnings as author and editor, Lovecraft saw commercial success increasingly elude him in this latter period, partly because he lacked the confidence and drive to promote

himself. He subsisted in progressively straitened circumstances in his last years; an inheritance was completely spent by the time he died at the age of 46.
