## **EU Foreign Policy and Post-Soviet Conflicts** - Nicu Popescu 2010-12-10

The European Union is still emerging as a fully fledged foreign policy actor. The vagaries of this process are clearly visible, yet insufficiently explained in the EU policies towards the post-Soviet space. EU Foreign Policy and Post-Soviet Conflicts examines EU intervention and non-intervention in conflict resolution, with a specific focus on the EU's role in the post-soviet conflicts in the South Caucasus and Moldova: Abkhazia, South Ossetia, Nagorno-Karabakh and Transnistria. It explains how EU foreign policy affected these conflicts, but more importantly what EU intervention in these conflicts reveal about the EU itself. Based on extensive field research, the author argues that the reluctant EU intervention in post-Soviet conflicts results from a dichotomous relationship between EU institutions and some EU member states. Popescu argues this demonstrates that EU institutions use policies of 'stealth intervention' where they seek to play a greater role in the post-Soviet space, but they do so through relatively low-profile, uncontroversial and depoliticised actions in order to avoid visible Russian opposition. Exploring an array of questions related to the EU as a foreign policy actor, this book traces the politics of conflict intervention by EU institutions using original empirical data related to the EU decision making process and will be of interest to students and scholars of European politics, conflict resolution, foreign policy and Post-Soviet politics.

## **EU Influence Beyond Conditionality** - Mario Zucconi 2019-09-03

This book presents an in-depth analysis of the role played by the EU accession process in Turkey's democratic evolution and in the empowerment of the Justice and Development Party (AKP) in the early 2000s. Often moving against the grain of consolidated analytical positions, the author finds that the accession process can have a critical impact on the political evolution and institutional setting of an aspiring member state that goes well beyond the simple Europeanization process (or EU accession conditionality). In the case of Turkey, that process created the essential conditions and environment for the country's political modernization by helping the emergence of a "periphery" (including Kurds,

"conservative" Muslims and non-Muslims) that secularism had pushed into a marginal, secondary status in Turkish society. Turkey's gradual evolution in an authoritarian direction, following the stalling of the EU accession process, offers further proof of the decisive role that the EU accession can play in a country's democratic advancement. The book additionally indicates how Turkey's EU-driven democratic evolution for a number of years had important implications in terms of regional and global order.

## **Turkey and the European Union** - Firat Cengiz 2013-12-04

In recent years, Turkey has become an ever more important actor on the international stage. However, Turkey-EU relations still remain in a state of flux. The EU and Turkey seem to have moved apart in their political aspirations after Turkey's EU accession talks faced a stalemate over the Republic of Cyprus' EU accession as a divided island. Likewise, both Turkey and the EU have recently faced new socio-political realities, such as the Eurozone crisis, the Arab Spring and the Turkish government's shifting foreign policy towards the Middle East region. Such developments have rendered EU membership potentially a less desirable prospect for an increasingly self-confident Turkey. In light of these recent events, this book explores the evolving challenges and opportunities facing the more than 50-year old Turkey-EU relationship. This volume focuses particularly on the role of the Cyprus issue, the potential for closer Turkey-EU cooperation in the aftermath of the Arab Spring, the impact on Turkish citizens and politics, as well as the concept of Europeanization, especially in relation to Turkey's democratic reform process. In drawing together perspectives from the disciplines of international relations, political science and law, this book offers a unique, interdisciplinary outlook towards the changing role of Europe in Turkey's political discourse. This book will be of interest to researchers and students of Turkey-EU relations, EU external relations Law, Europeanization and Turkish and Middle Eastern politics.

## Securitization and Desecuritization Processes in Protracted Conflicts - Constantinos Adamides 2019-11-01

Using the Cyprus conflict as a case study, this book examines how the securitization process in protracted conflict environments changes, as it becomes routinized and potentially even institutionalized.

Furthermore, the process is not limited to the mainstream top-down path, as it also follows a horizontal and even bottom-up direction, which inevitably has an impact on the goals and securitization options of both the mainstream securitizing actors and the audience(s). Lastly, on a theoretical level it examines how the multi-directional securitization forces have an impact on the elite and audience-driven desecuritization efforts and ultimately on the prospects for conflict resolution. The book's case study, the Cyprus question, offers an alternative reading of the forces dominating the specific conflict, while concurrently offers a useful framework for the study of similar protracted and deeply securitized conflicts.

## Nationalism, Militarism and Masculinity in Post-Conflict Cyprus - Stratis Andreas Efthymiou 2019-06-25

This book uses empirical research to introduce the relationship between nationalism, militarism and masculinity. The co-constitution between these three factors is susceptible to change and hinders reconciliation, according to the author. Drawing on the case of Cyprus, a country in conflict with Turkey, Efthymiou reveals how nationalism, militarism and masculinity were constructed after the war, and re-adapted following the opening of internal borders and European Union accession. Nationalism, Militarism and Masculinity in Post-Conflict Cyprus draws on rich field-research, with soldiers and officers in army barracks, politicians such as former President of Republic of Cyprus Glafkos Clerides, leaders of radical far-right movements and the Greek Cypriot public. The book offers invaluable insight into the application of nationalism, militarism and masculinity in governmental policy including by the Cyprus Defence Ministry, and will be of interest to students and scholars in sociology, gender studies, peace studies, security studies, politics and international relations, as well as governments and NGOs.

**The Normalisation of Cyprus' Partition Among Greek Cypriots** - Gregoris Ioannou 2020-08-31

This book explores the basic dynamics that shaped the Cyprus problem, with a focus on recent decades. The author deals with the periods, nodal points and fields that produced the conditions for the normalisation of partition and also presents the Cyprus problem as viewed from the outside. The chapters approach Cyprus' division in light of power relations in society, the interaction between the political elite and society, and discuss the political and ideological dynamics as manifested in the public sphere. While analysing primarily the Greek Cypriot community, the book also refers to parallel developments in the Turkish Cypriot and international communities, arguing that the normalisation of Cyprus' partition is rooted in the political economy and political culture of Greek Cypriots. At the same time, from the perspective of the peace and reunification movement, this is an inherently contradictory and potentially unstable process that can be overturned. 'A remarkably thorough study focusing on nationalist narratives, political and media discourses and socio-economic structures in Cyprus and their impact on the formation and transformation of political identities since the 1950s. Unlike many other books on the issue, Ioannou analyses social and political developments in both the Greek-Cypriot and the Turkish-Cypriot communities. This approach sheds light on the internal reasons of the perpetuation of the island's division, which the geopolitical and international relations approaches alone miss to grasp. Combining the analytical skills of a political scientist and his personal experience as an engaged citizen in favour of unification, Ioannou offers significant insight on a complex and traumatic conflict that remains one of Europe's black spots.' -Athena Skoulariki, Assistant Professor in Sociology of Communication, Discourse Analysis and Social Representations, University of Crete, Greece 'The basic argument of the book is that the consolidation of partition was neither automatic nor happened behind the backs of Greek Cypriots. The very interesting and demythologising work of Gregoris Ioannou brings to light a hidden, but common secret of the Greek Cypriots.' -Alexis Heraklides, Emeritus Professor of International Relations, Panteion University, Greece 'Ioannou projects a multi-focal spotlight on the Cyprus problem, so as, at least for the careful reader, this becomes not only an interesting topic in itself, but, also a cognitive springboard from which to understand broader pathologies of our common social and political life.' -Seraphim Seferiades, Associate Professor in Political Science, Panteion University, Greece

**Countries and Territories of the World** -**Resolving the Cyprus Conflict** - M. Michael 2009-11-09

By placing the conflict in its historical, ideological, ethno-political and geostrategic context, the book extends beyond conventional realist approaches and lays bare those less visible dimensions that are often ignored by analysts and policy-makers alike.

**The European Union and Border Conflicts** - Thomas Diez 2008-03-27

It is generally assumed that regional integration leads to stability and peace. This book is a systematic study of the impact of European integration on the transformation of border conflicts. It provides a theoretical framework centred on four 'pathways' of impact and applies them to five cases of border conflicts: Cyprus, Ireland, Greece/Turkey, Israel/Palestine and various conflicts on Russia's border with the EU. The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts, but that the EU must constantly re-adjust its policies depending on the dynamics of each conflict. Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace. This book will appeal to scholars and students of international relations, European politics, and security studies studying European integration and conflict analysis.

*EU Accession Dynamics and Conflict Resolution* - Nathalie Tocci 2004

The prospect of Cyprus' EU membership was long hoped to act as a catalyst for a settlement of the island's conflict, yet the island remained divided when it joined the EU in 2004. This study analyzes the case of Cyprus and the EU, exploring the accession process, EU policies towards the conflict, and projections for the resolution of the conflict within the EU framework.

*The Europeanisation of Contested Statehood* - George Kyris 2016-03-09

The Europeanisation of Contested Statehood: The EU in northern Cyprus acts as a case study of the impact

of the EU on institutions, political parties and civil society in 'contested states', self-declared states which remain unrecognised in world politics. Research drawn from qualitative analysis of official documents, public discourse and interviews with various officials and political and social elites within the EU and at a local level provides new insights as to the impact of the EU on northern Cyprus as well as a fresh understanding of the relevance of the EU to contested states in general. By doing so, the book reflects on what contested statehood means for Europeanisation and lays out a conceptual template for the study of contested states of the wider European periphery, such as those in the Caucasus, Transnistria, Kosovo or the occupied Palestinian territories, which continue to represent specific challenges to the international affairs of the EU.

*European Integration and the Nationalities Question* - John McGarry 2006-09-27

A highly topical examination of the effect of European integration on relations between states and minority nations. This new collection brings together the leading specialists in the field, and covers a wide range of cases, from Northern Ireland in the West, to Estonia and Latvia in the East, and Cyprus in the South-East. The contributors assess how European integration has affected the preparedness of states to accommodate minorities across a range of fundamental criteria, including: enhanced rights protection; autonomy; the provision of a voice for minorities in the European and international arena; and the promotion of cross-border cooperation among communities dissected by state frontiers. The comprehensive chapters stress the importance of the nationality question, and the fact that, contrary to the hopes and beliefs of many on the left and right, it is not going to go away. Beginning with an introductory essay that summarizes the impact of European integration on the nationalities question, this accessible book will be of strong interest to scholars and researchers of politics, nationalism, ethnic conflict and European studies.

**The Foreign Policy of the Republic of Cyprus** - Zenonas Tziarras 2022-03-16

This book examines the foreign policy of the Republic of Cyprus, particularly since 2004—the year of its accession to the European Union and of the failed Annan Plan V of the United Nations which aimed to solve the decades-old Cyprus Problem. Scholarly work about the politics and foreign policy of the Republic of Cyprus (RoC) has been almost entirely analyzed through the prism of the Cyprus Problem. This is not without justification since the Cyprus Problem is indeed central to the social, political, and economic life of Cyprus. However, Cyprus is located in a highly neuralgic area of historical and geopolitical importance that is, more often than not, characterized by rapid developments, instability, and insecurity. Therefore, the RoC's politics and foreign policy go well beyond the confines of the Cyprus Problem, or so they should. Although the subject of the book is not international by definition, the book touches upon many regional and international dimensions that render it relevant for anyone who wants to better understand not just Cyprus but also the broader region and its importance for regional and international actors.

Turkey's Accession to the European Union - Edel Hughes 2010-10-04

Turkey's accession to the European Union is undoubtedly one of the Union's most contested potential enlargements. The narrative that dominates the debate surrounding this issue primarily relates to problems such as a lack of respect for fundamental human rights in Turkey, the Kurdish question and the continuing stalemate concerning northern Cyprus. This book looks at these issues, but also proposes that a review of Turkey's experience with the EU in its numerous incarnations suggests that these concerns may mask a deeper disquiet. Whilst there are several questions that Turkey must address, particularly in the area of human rights guarantees, the concerns which raise debates regarding Turkish membership are not issues that are unique to Turkey. Turkey's EU experience also raises fundamental questions about religion and the EU project that have greater implication than simply Turkish accession. Through the lens of the Turkish example, this book addresses these broader questions, such as the nature of European 'identity', Europe's Christian past, the limits of pluralism and the fundamental question of religion in the European public sphere. This book will be of great interest to those engaged in research on European law and politics at undergraduate or postgraduate level. It is also aimed at academics with an interest in human rights and the European Union and with a regional interest in Turkey.

From Power Sharing to Democracy - Sidney John Roderick Noel 2005

This book examines the problems of prospects of achieving sustainable democracy through power sharing political institutions in societies that have been torn by ethnic conflict. It combines theoretical and

comparative essays with a wide range of case studies.
