

Female Body Language Attraction Eyes

How to Talk to Women with Charisma, Confidence & Charm - Brett Andrews
2019-07-23

If you wish you knew how to "sweep a woman off her feet," then keep reading. The truth is: A lot of men simply don't know what to say--to an attractive woman. You might feel like you have nothing to offer her. Perhaps she'll think you're weird or boring. Perhaps you've experienced uncomfortable emotions in social situations--like embarrassment, frustration, or sadness--because it seems like everybody has a girlfriend but you. You're not alone here. Through the ages, many men (like Casanova, Kierkegaard, and Schopenhauer) have wrestled with the same problems. They attempted to codify the elements of female attraction, and unpack the riddle of womanhood. Much of ancient literature tells the tale of a woeful love-struck man--lamenting the indifference of the woman he desires. So, what's going on here? Why do some men seem to effortlessly exude charisma, confidence, and charm, while others never get any attention at all? Why do some men show up with a new girlfriend every week, while others, have never been kissed? What's the solution? Fortunately for us, recent advances in evolutionary psychology, biology, and social science have managed to shine some light on these questions, and unlock the formula for charisma. The trick lies in understanding that, the female brain was tuned (thousands of years ago) to look for a certain set of male characteristics. At a subconscious level, a woman's brain is always observing a man--taking note of his body language, the gaze of his eyes, his voice, his touch, his way with words, and the way he carries himself across a crowded room. The message a man conveys with these little behaviors, is known as his "nonverbal communication." Mastering this type of communication, approaching women, engaging in small talk, and parlaying an encounter into a romance, is a delicate undertaking--sometimes called the "Art of Seduction." There is much to

learn in this domain. But, fortunately, we've crammed this book full of practical information, and proven strategies--designed to teach you exactly how to instantly connect with a woman--on a deeper level. This book will teach you how to develop magnetic charisma and confidence! You will learn: How to make a first impression that counts--and makes her instantly curious to learn more about you. How to become more articulate, well-spoken, and make witty small talk, effortlessly. Learn the cure for "never knowing what to say" to a woman you just met. The one conversation technique that is guaranteed to get her instantly interested in you. The biological basis of confidence, how it kept your ancestors alive, and how to develop it within yourself. How to utilize eye contact, and the power of your voice, to seize female attention, and woo the woman of your dreams. How to avoid the dreaded "Friend Zone," and use your touch and masculine energy to spark the fires of sexual tension, and keep her interested in you. Even if you're not the best-looking guy in the world, this is largely irrelevant. Because it takes more than a pretty face to attract a woman. As Casanova himself wrote in 1821: "I was not handsome, but I had something better than beauty--a striking expression--which almost compelled an affectionate interest in my favor, and I felt myself ready for anything... A most unwavering feeling of self-esteem...enhanced wonderfully my confidence in myself." Wouldn't it be great to have this level of confidence? Thankfully, with a little training, anyone can be a Casanova. Ready to learn more? If you want to become more charismatic and charming to women, then scroll up and click the Buy Button now!

A Woman'S Guide to the Male Mind - Sam Geraldo 2011-01-14

A Womans Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 How Do You Tell If a Guy Fancies You? The article was so popular, receiving more than 70 replies from women with lots more questions, that I launched my web site www.seducemen.co.uk. Since then, most of the advice Ive given in hundreds of published articles was based on my own experiences and those of my friends. To write the book, however, I adopted a more scientific approach. I performed a significant amount of research into recent discoveries by anthropologists, sociologists, psychologists and biochemists on topics ranging from basic sexual attraction to personality type and male/female communications strategies. Its my belief, therefore, that A Womans Guide to the Male Mind features the best of two worlds: common sense opinions backed by solid empirical evidence. By helping ladies understand the male point of view with regard to sex, dating and relationships; I hope to eliminate the senseless conflicts that so often erupt between lovers and would-be lovers. Once you understand a few fundamentals about the male mind and male behaviour, you will stop thinking of men as inscrutable blockheads and primitive misfits. You will no longer regard them as you would a small, nasty child or an alien race. Arming yourself with the wisdom in this book, youll increase your odds of finding happiness and harmony in romantic relationships, and you will help ensure that this bliss lasts a lifetime. By the time a man reaches maturity, he has passed through four evolutionary stages in his attitude toward women and relationships. Its very

important to understand and identify these four stages, because it will save you from wasting time on guys who arent ready for serious romance.

The Art of Flirting - Anthony Ekanem 2016-07-20

What do you know about flirting? This question might seem easy since we've all at least tried to get it done properly a couple of times. Dressing up to impress the opposite sex, complimenting them, and sending cheesy pickup lines their way are all various techniques created to attract women, but do you really know what flirting entails? In a nutshell, flirting refers to a sort of mating ritual that isn't exclusive to human beings alone. Take animals, for example. Do you ever wonder if the songs that birds sing have any meaning to them? Do you think it's only a coincidence that peacock feathers are so colorful and stylish? Have you ever wondered why apes beat their chests like that? Well, there is a simple answer to all of that: they are a small part of these animals' mating rituals. Although flirting tactics tend to be one-of-a-kind for every species out there, their goals aren't. Human beings need to use non-verbal and verbal cues to attract potential mates. Men, for one, need to take certain actions in order to impress their choice of women: humor, intelligence, money, confidence and social status are all a part of this. Just like male apes beating their chests, these are merely several signals that we emit to show

how worthy and desirable we can be to women. This is why flirting is considered a mating ritual. Moreover, flirting is actually done unconsciously, just like with the animals. Do animal mating rituals look pre-planned to you? Well, they aren't. The truth is: these rituals all come from nature and are done to keep the life cycle going. Each creature on this planet was bred for this particular purpose, after all - human beings included. And, as with animals, human beings do not think before they flirt; they simply flirt. As a matter of fact, we only become aware of flirting when it ends up backfiring. Each guy on earth has come across a situation where some girl flirted with him and ended up acting annoyed after he flirted back.

Cues - Vanessa Van Edwards 2022-03-03

It's not enough to have great ideas. You also need to know how to communicate them. What makes someone charismatic? Why do some people captivate a room, while others have trouble managing a small meeting? What makes some ideas spread, while other good ones fall by the wayside? Cues - the tiny signals we send to others 24/7 through our body language, facial expressions, word choices and vocal inflection - have a massive impact on how we, and our ideas, come across. Our cues can either enhance our message or undermine it. In this entertaining and accessible guide to the hidden language of cues, Vanessa Van Edwards teaches you how to convey power, trust, leadership, likability and charisma in every interaction. You'll learn: - Which vocal cues make you sound more confident - Which body language cues assert, 'I'm a leader, and here's why you should join me' - Which verbal cues to use in pitches, branding and emails to increase trust (and generate excitement about interacting with you) - Which visual cues you are sending in your profile pictures, clothing and professional brand Whether you're pitching an investment, negotiating a job offer or having a tough conversation with a colleague, Cues can help you improve your relationships, express empathy and create meaningful connections with lasting impact. Love Signals - David Givens 2006-01-10

A world renowned anthropologist explores the nonverbal signs, signals, and cues human beings exchange to attract and keep their mates. As a medium of communication, Love's silent language predates speech by millions of years. Today, we still express emotions and feelings largely apart from words. The postures, gestures, and facial cues of attraction are universal, in all societies and cultures. According to Dr. Givens, courtship moves slowly through five distinct phases: attracting attention, recognition phase, conversation phase, touching phase, making love. Since potential mates "test" each other before uniting as one, courtship is a choreographed give and take of signs granting physical and emotional closeness. Love Signals is part ethnography and part how-to. Dr. Givens documents the little courting rituals witnessed in elevators, on subways, and in the workplace. He examines the essential role the face plays in courtship and how it can be optimally displayed. He decodes the body to find silent messages given off by shoulders, neck, arms, hands, waist, calves, ankles, feet, and toes. Dr. Givens analyzes expressive shapes, colors, and markings encoded in arm wear, shoulder wear, leg wear, and shoes. He deciphers the background messages of spaces, places and interiors to learn how environs help or hinder in the meeting process. Chemical cues emanating from aromas, tastes, steroids, sterols, and hormones strongly shape a partner's feelings, so they are explored as well. The book suggests ways to gaze, ways to read eyes across a room, and ways to sit, stand, align, walk dress, and lift a drink to participate in the fascinating adventure of finding, winning, and keeping a mate. Knowing the unspoken vocabulary of love signals will give readers an edge. What this means for courtship is that the reader becomes able to read unspoken motives, emotions, and feelings with great clarity and precision. The more readers know about the nonverbal idiom of attraction, the more likely they will find a loving, lasting partner.
