

Female Getting Dizzy Spells

Vertigo and Dizziness - Béla Büki 2013-10

This pocketbook helps clinicians to improve their management of patients with vertigo and dizziness by providing an overview of clinical vestibular physiology and the latest developments in bedside examinations, diagnosis, and state of the art therapy.

Safety on Stairs - Daniel H. Carson 1978

Symptom to Diagnosis - Scott D. C. Stern 2006

This innovative introduction to patient encounters utilizes an evidence-based step-by-step process that teaches students how to evaluate, diagnose, and treat patients based on the clinical complaints they present. By applying this approach, students are able to make appropriate judgments about specific diseases and prescribe the most effective therapy. (Product description).

Women and Romance - Susan Ostrov Weisser 2001-07

Weisser (English, Adelphi U.) writes that her anthology is "for anyone who is interested in understanding the conflicted but powerful female urge to experience the pleasure and endure the pain of romantic love." In particular, she explores the collision of pervasive media images of romance with feminist values of independence and self-assertion. Several dozen historic and contemporary works of criticism, personal essays, and letters, by feminist and anti-feminist thinkers, consider changing images of romantic love and whether romance, fundamentally, weakens or empowers women. Contributors include Jean-Jacques Rousseau, Charlotte Bronte, Karen Horney, Simone de Beauvoir, Rita Mae Brown, bell hooks, Vivian Gornick, and Carolyn Heilbrun. c. Book News Inc.

Vertigo and Dizziness - Thomas Brandt 2007-06-24

Short and concise, clinically-oriented book with special emphasis on treatments: drug, physical, operative or psychotherapeutic An overview of the most important syndromes, each with explanatory clinical descriptions and illustrations makes it an easy-to-use reference

The Mayo Clinic Book of Home Remedies - Mayo Clinic 2010-10-26

Many common health problems can be treated with simple remedies you can do at home. Even if the steps you take don't cure the problem, they can relieve symptoms and allow you to go about your daily life, or at least help you until you're able to see a doctor. Some remedies, such as changing your diet to deal with heartburn or adapting your home environment to cope with chronic pain, may seem like common sense. You may have questions about when to apply heat or cold to injuries, what helps relieve the itch of an insect bite, or whether certain herbs, vitamins or minerals are really effective against the common cold or insomnia. You'll find these answers and more in Mayo Clinic Book of Home Remedies. In situations involving your health or the health of your family, the same questions typically arise: What actions can I take that are immediate, safe and effective? When should I contact my doctor? What symptoms signal an emergency? Mayo Clinic Book of Home Remedies clearly defines these questions with regard to your health concerns and guides you to choose the appropriate and most effective response.

From Menarche to Menopause - Yewoubdar Beyene 1989-01-01

Discusses all of the factors related to menopause, looks at the social status of women in two cultures, and compares cultural attitudes toward menopause

Psychic Self-Defense - Dion Fortune 2020-12-12

A new edition of an occult classic, which includes a new introduction by Mary K. Greer, author of *Women of the Golden Dawn*, and a new afterword with excerpts from rarely seen documents by Fortune herself describing how the book came about. After finding herself the subject of a powerful psychic attack in the 1930s, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defense guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defense. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in mental illness and how to recognize them. This is one of the best guides to detection and defense against psychic attack from one of the leading occult writers of the twentieth century. This Weiser Classics edition of Dion Fortune's *Psychic Self-Defense* includes a new forward by Mary K.

Greer, author of numerous books including *Tarot for Your Self*, and a new afterword by Christian Gilson that chronicles the original context surrounding Dion Fortune's writing of the book. Mr. Gibson is the editor of *The Inner Light*, the journal published by the Society of Inner Light.

Kindred, Gift Edition - Octavia Butler 2022-09-20

The New York Times best-selling author's time-travel classic that makes us feel the horrors of American slavery and indicts our country's lack of progress on racial reconciliation The series adaption from FX premieres December 13 on Hulu. Developed for television by writer/executive producer Branden Jacobs-Jenkins (*Watchmen*), executive producers also include Joe Weisberg and Joel Fields (*The Americans*, *The Patient*), and Darren Aronofsky (*The Whale*). Janicza Bravo (*Zola*) is director and an executive producer of the pilot. *Kindred* stars Mallori Johnson, Micah Stock, Ryan Kwanten, and Gayle Rankin. "I lost an arm on my last trip home. My left arm." Dana's torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner's plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead's *The Underground Railroad* and Ta-Nehisi Coates's *The Water Dancer*, Butler takes one of speculative fiction's oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. "Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise" (New York Times).

Dizziness - Gregory T. Whitman 2016-11-15

"Drs. Gregory Whitman, an otoneurologist, and Robert Baloh, a neurologist, have written a remarkably readable and compassionate book for anyone who has dizziness, whether acutely, episodically, or chronically. Their book describes the conditions that cause dizziness and explains what people with dizziness can do to feel better. For older people especially, addressing dizziness means a better chance of avoiding a fall and retaining independence. The authors begin by explaining why it's important to overcome dizziness and describing how dizziness is diagnosed and treated. They then describe two conditions--benign paroxysmal positional vertigo and orthostatic hypotension--which cause dizzy spells when a person changes position. Next are the causes of dizzy spells that happen in attacks and without any trigger, most prominently Meniere's disease and migraine-associated dizziness. The third part of the book is for people who have a single bout of dizziness that lasts for days and then gradually improves, generally brought on by either vestibular neuritis or stroke and transient ischemic attacks (TIAs). Finally, the authors explore the causes of constant dizziness that lasts for days, months, and even years. These are anxiety, Mal de débarquement Syndrome, dizziness due to loss of function in both ears, and small vessel ischemic disease. An Appendix offers advice about home exercises for dizziness, and a Glossary defines terms. This book stands to become the definitive consumer health book on this topic. With the aging of the population, dizziness will become a more common problem, so the book may also be of interest and use to primary care providers"--

Endocrine Conditions in Pediatrics - Takara Stanley 2020-09-25

This book is aimed at primary care providers who care for the pediatric age group (general pediatrician, the PCP working with pediatric patients, and family medicine providers) with the goal of covering the endocrine differential diagnosis of common signs and symptoms of possible endocrine disease as well as appropriate initial laboratory evaluation and interpretation. While multiple pediatric endocrine textbooks exist, most of them are heavy in coverage of physiology and rare diseases, with less discussion of practical steps in evaluation and diagnosis. This book distinguishes itself through a very practical approach. The first section is organized by presenting signs and symptoms, the second section is organized by laboratory interpretation, and the third section provides summaries of common pediatric endocrine disorders. Chapters are concise, providing critical clinical information including clinical pearls,

common diagnoses and important points in patient counseling. Written by experts in the field, *Endocrine Conditions in Pediatrics* is a valuable resource that provides general pediatricians and other primary care providers with all of the information they need to provide superb patient care before transferring to a pediatric endocrinologist when necessary.

Neurologic Differential Diagnosis - Alan B. Ettinger 2014-04-17

"There is an apocryphal story of an eminent neurology professor who was asked to provide a differential diagnosis. He allegedly quipped: "I can't give you a differential diagnosis. If you wish I will give you a list of wrong diagnoses followed by the right diagnosis." Sadly, this sort of arrogance pervaded our field, particularly in the era before there were accurate diagnostic methods and effective treatments of neurological diseases. Fortunately, this sort of pomposity is now relegated to the past and remains only as an antique reminder of a type of hubris that precluded discovery and progress in diseases of the nervous system"--

NBS Building Science Series - 1974

Vertigo and Dizziness - Ambar Chakravarty 2019-08-28

Overcoming Positional Vertigo - Carol A Foster 2019-01-08

Benign paroxysmal positional vertigo, or BPPV, is dizziness that comes from the inner ear. It affects more than eight million people in the United States alone. The good news is that this condition can be managed at home. Carol A. Foster, an Associate Professor of Otolaryngology at the University of Colorado, Denver School of Medicine, developed a maneuver that allows sufferers to treat their own symptoms. Her YouTube video demonstrating the maneuver has more than five million views. Written in a friendly and approachable tone, *Overcoming Positional Vertigo* provides readers a more in-depth guide to the diagnosis of BPPV, the specifics of treatments and maneuvers, and preventative measures one can take to avoid recurrence.

[Dizziness with Downloadable Video](#) - Adolfo Bronstein 2017-03-02

This book provides essential information from neurology, otolaryngology and psychiatry to diagnose and treat dizzy patients, summarized by two world experts.

Dizziness and Vertigo Across the Lifespan - Bradley W. Kesser 2018-01-29

Get a quick, expert overview of dizziness and vertigo from childhood through old age with this concise, practical resource. Drs. Bradley W.

Kesser and Tucker Gleason have assembled a leading team of experts to address timely clinical topics of interest to otolaryngologists and other health care providers who see patients with these common problems.

One for All - Lillie Lainoff 2022-03-08

"There are no limits to the will—and the strength—of this unique female hero." —Tamora Pierce, writer of the *Song of the Lioness* and the *Protector of the Small* quartets *One for All* is a gender-bent retelling of *The Three Musketeers*, in which a girl with a chronic illness trains as a Musketeer and uncovers secrets, sisterhood, and self-love. Tania de Batz is most herself with a sword in her hand. Everyone thinks her near-constant dizziness makes her weak, nothing but "a sick girl." But Tania wants to be strong, independent, a fencer like her father—a former Musketeer and her greatest champion. Then Papa is brutally, mysteriously murdered. His dying wish? For Tania to attend finishing school. But *L'Académie des Mariées*, Tania realizes, is no finishing school. It's a secret training ground for new Musketeers: women who are socialites on the surface, but strap daggers under their skirts, seduce men into giving up dangerous secrets, and protect France from downfall. And they don't shy away from a sword fight. With her newfound sisters at her side, Tania feels that she has a purpose, that she belongs. But then she meets Étienne, her target in uncovering a potential assassination plot. He's kind, charming—and might have information about what really happened to her father. Torn between duty and dizzying emotion, Tania will have to decide where her loyalties lie...or risk losing everything she's ever wanted. Lillie Lainoff's debut novel is a fierce, whirlwind adventure about the depth of found family, the strength that goes beyond the body, and the determination it takes to fight for what you love. Includes an author's note about her personal experience with Postural Orthostatic Tachycardia Syndrome.

Captivating - John Eldredge 2011-04-17

What *Wild at Heart* did for men, *Captivating* is doing for women. Setting their hearts free. This groundbreaking book shows readers the glorious design of women before the fall, describes how the feminine heart can be restored, and casts a vision for the power, freedom, and beauty of a woman released to be all she was meant to be.

Theo's Odyssey - Catherine Clément 1999

An international bestseller being published in more than 20 countries, "Theo's Odyssey" is an extraordinary journey through the world's religions that does for spirituality what "Sophie's World" did for philosophy.
