(Post)Critical Methodologies: The Science Possible After the Critiques Patti Lather 2017-02-03 In the World Library of Educationalists series, international experts themselves compile career-long collections of what they judge to be their finest pieces – extracts from books, key articles, salient research findings, major theoretical and practical contributions – so the world can read them in a single manageable volume. Readers will be able to follow the themes and strands and see how their work contributes to the development of the field. (Post)Critical Methodologies forms a chronology through the texts and concepts that span Patti Lather's career. Examining (post)critical, feminist and poststructural theories, Lather's work is organized into thematic sections that span her 35 years of study in this field. These sections include original contributions formed from Lather's feminism and critical theory background. They contain her most cited works on feminist research and pedagogy, and form a collection of both early and recent writings on the post and post-post, with a focus on critical policy studies and the future of post-qualitative work. With a focus on the implications for qualitative inquiry given the call for scientifically based research in education, this compelling overview moves through Lather's progressive thoughts on bridging the gap between quantitative and qualitative research in education and provides a unique commentary on some of the most important issues in higher education over the last 30 years. This compilation of Lather's contribution to educational thinking will prove compelling reading to all those engaged in student learning in higher education worldwide.

Trans Helen Joyce 2021-07-15 THE SUNDAY TIMES BESTSELLER and a Times, Spectator and Observer Book of the Year 2021 'In the first decade of this century, it was unthinkable that a gender-critical book could even be published by a prominent publishing house, let alone become a bestseller.' Louise Perry, New Statesman 'Thank goodness for Helen Joyce.' Christina Patterson, Sunday Times 'Reasonable, methodical, sane, and utterly unintimidated by extremist orthodoxy, *Trans* is a riveting read.' Lionel Shriver 'A tour de force.' Evening Standard Biological sex is no longer accepted as a basic fact of life. It is forbidden to admit that female people sometimes need protection and privacy from male ones. In an analysis that is at once expert, sympathetic and urgent, Helen Joyce offers an antidote to the chaos and cancelling.

Understanding Gender Dysphoria Mark A. Yarhouse 2015-05-22 Foreword Reviews' INDIEFAB Honorable Mention Few topics are more contested today than gender identity. In the fog of the culture war, complex issues like gender dysphoria are reduced to slogans and sound bites. And while the war rages over language, institutions and political allegiances, transgender individuals are the ones who end up being the casualties. Mark Yarhouse, an expert in sexual identity and therapy, challenges the church to rise above the political hostilities and listen to people's stories. In *Understanding Gender Dysphoria*, Yarhouse offers a Christian perspective on transgender issues that eschews simplistic answers and appreciates the psychological and theological complexity. The result is a book that engages the latest research while remaining pastorally sensitive to the experiences of each person. In the midst of a tense political climate, Yarhouse calls Christians to come alongside those on the margins and stand with them as they resolve their questions and concerns about gender identity. *Understanding Gender Dysphoria* is the book we need to navigate these stormy cultural waters. Christian Association for Psychological Studies (CAPS) Books explore how Christianity relates to mental health and behavioral sciences including psychology, counseling, social work, and marriage and family therapy in order to equip Christian clinicians to support the well-being of their clients.

Gender Trouble Judith Butler 2011-09-22 Since its initial publication in 1990, this book has become a key work of contemporary feminist theory, and an essential work for anyone interested in the study of gender, queer theory, or the politics of sexuality in culture. This is the text where the author began to advance the ideas that would go on to take life as "performativity theory," as well as some of the first articulations of the possibility for subversive gender practices. Overall, this book offers a powerful critique of heteronormativity and of the function of gender in the modern world.

Women and Wars Carol Cohn 2013-04-03 Where are the women? In traditional historical and scholarly accounts of the making and fighting of wars, women are often nowhere to be seen. With few exceptions, war stories are told as if men were the only ones who plan, fight, are injured by, and negotiate ends to wars. As the pages of this book tell, though, those accounts are far from complete. Women can be found at every turn in the (gendered) phenomena of war. Women have participated in the making, fighting, and concluding of wars throughout history, and their participation is only increasing at the turn of the 21st century. Women experience war in multiple ways: as soldiers, as fighters, as civilians, as caregivers, as sex workers, as sexual slaves, refugees and internally displaced persons, as anti-war activists, as community peace-builders, and more. This book at once provides a glimpse into where women are in war, and gives readers the tools to understand women's (told and untold) war experiences in the greater context of the gendered nature of global social and political life.

Divided Houses Catherine Clinton 1992 *Divided Houses* is the first book to show how the Civil War transformed gender roles and attitudes toward sexuality among Americans. This unique volume brings together a wide spectrum of critical viewpoints by newly emerging scholars as well as distinguished authors in the field to show how gender became a prism through which the political tensions of antebellum America were filtered and focused. Through the course of the book, many fascinating subjects are explored, from new "manly" responsibilities both black and white men had thrust upon them as soldiers, to women's roles in the guerrilla fighting, to the wartime dialogue on interracial sex. In addition, an incisive introduction by Pulitzer Prize-winning historian James McPherson helps place these various subjects within an overall historical context. *Divided House* sheds new light on the entire Civil War experience, demonstrating how themes of gender, class, race, and sexuality interacted to forge the beginnings of a new society.

Completing a Qualitative Project Janice M. Morse 1997-07-15 What do I do after the data analysis is done? This is one of the questions that plague most writers doing qualitative research, and it is one of the key questions that inform this new work by Janice Morse, Director of the International Institute of Qualitative Methodology at the University of Alberta. Together with a contributor panel of 22 renowned and frequently-published qualitative research authors, Dr. Morse explores a wide range of topics, from the nuts and bolts (protecting participants' confidentiality, finishing a project, developing the writing topic, finding other approaches), to the angst of the publishing process (critiquing qualitative research dealing with reflection, responding to criticism), and from the methodological (linking qualitative and quantitative research, and performing participatory action research and qualitative meta-analysis) to application (generalizability in qualitative research, the politicking of research results, qualitative research in policy development). These discussions make *Completing a Qualitative Project* a perfect companion volume for Dr. Morse's early volumes, *Qualitative Nursing Research* and *Critical Issues in Qualitative Research*. What's more, since the development of the book provided for input from the contributors on the others' chapters, each article combines the wisdom of the entire contributor panel and is followed by a dialogue on a related topic. These dialogues resulted from intense brainstorming sessions among the contributors. In perusing the book readers will be comforted to learn that they are not alone in their qualitative writing endeavors. *Completing a Qualitative Project* is intended to inform, support, cajole, and inspire – altogether and enlightening read!

Gender, War, and Conflict Laura Sjoberg 2014-07-17 From Pakistan to Chechnya, Sri Lanka to Canada, pioneering women are taking their places in formal and informal military structures previously reserved for, and assumed appropriate only for men. Women have fought in wars, either as women or covertly dressed as men, throughout the history of warfare, but only recently have they been allowed to join state militaries, insurgent groups, and terrorist organizations in unprecedented numbers. This begs the question - how useful are traditional gendered categories in understanding the dynamics of war and conflict? And why are our stories of

gender roles in war typically so narrow? Who benefits from them? In this illuminating book, Laura Sjoberg explores how gender matters in war-making and war-fighting today. Drawing on a rich range of examples from conflicts around the world, she shows that both women and men play many more diverse roles in wars than either media or scholarly accounts convey. Gender, she argues, can be found at every turn in the practice of war; it is crucial to understanding not only 'what war is', but equally how it is caused, fought and experienced. With end of chapter questions for discussion and guides to further reading, this book provides the perfect introduction for students keen to understand the multi-faceted role of gender in warfare. Gender, War and Conflict will challenge and change the way we think about war and conflict in the modern world.

Changing Identities Stanley Fogel 2002 Fogel and Thoman have compiled this collection with essays drawn from a variety of sources. The focus is popular culture, the energy is bold and innovative. The writing is at once engaging, honest, hard-hitting, and provocative. Essayists include Wayson Choy, Sheila Delany, Mavis Gallant, Daniel Richler, and Witold Rybczynski. The book presents stimulating discussions about gender, race, sexuality, the media, style, literature, sports, and travel. All of the writers in the collection examine and comment on aspects of social and cultural life in ways that are engaging and 'self-identifying'. These essays are fresh and original, and Changing Identities is an essential addition to any cultural studies curriculum.

The Choices of Men T. S. Tyrone 2001-08 The Epic of Gilgamesh is an ancient alchemist's tale, that tells us about a time when the gods walked among us and had sons with the daughters of men'. It is the story of one of these progeny Gilgamesh, a demigod. It also tells us the original tale of the biblical Noah and his story of the time before the flood that was later plagiarized by the old testamate.

Making Gender, Making War Annica Kronsell 2011-09-08 Making Gender, Making War is a unique interdisciplinary edited collection which explores the social construction of gender, war-making and peacekeeping. It highlights the institutions and processes involved in the making of gender in terms of both men and women, masculinity and femininity. The "war question for feminism" marks a thematic red thread throughout; it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war. Contributors analyze how war-making is intertwined with the making of gender in a diversity of empirical case studies, organized around four themes: gender, violence and militarism; how the making of gender is connected to a (re)making of the nation through military practices; UN SCR 1325 and gender mainstreaming in institutional practices; and gender subjectivities in the organization of violence, exploring the notion of violent women and non-violent men.

War and Gender Joshua S. Goldstein 2003-07-17 Gender roles are nowhere more prominent than in war. Yet contentious debates, and the scattering of scholarship across academic disciplines, have obscured understanding of how gender affects war and vice versa. In this authoritative and lively review of our state of knowledge, Joshua Goldstein assesses the possible explanations for the near-total exclusion of women from combat forces, through history and across cultures. Topics covered include the history of women who did fight and fought well, the complex role of testosterone in men's social behaviours, and the construction of masculinity and femininity in the shadow of war. Goldstein concludes that killing in war does not come naturally for either gender, and that gender norms often shape men, women, and children to the needs of the war system. Illustrated with photographs, drawings, and graphics, and drawing from scholarship spanning six academic disciplines, this book provides a unique study of a fascinating issue.

Gender, Sex, and Politics Shira Tarrant 2015-06-19 Gender, Sex, and Politics: In the Streets and Between the Sheets in the 21st Century includes twenty-seven chapters organized into five sections: Gender, Sexuality and Social Control; Pornography; Sex and Social Media; Dating, Desire, and the Politics of Hooking Up; and Issues in Sexual Pleasure and Safety. This anthology presents these topics using a point-counterpoint-different point framework. Its arguments and perspectives do not pit writers against each other in a binary pro/con debate format. Instead, a variety of views are juxtaposed to encourage critical thinking and robust conversation. This framework enables readers to assess the strengths and shortcomings of conflicting ideas. The chapters are organized in a way that will challenge cherished beliefs and hone both academic and personal insight. Gender, Sex, and Politics is ideal for sparking debates in intro to women's and gender studies, sexuality, and gender courses.

What is Gender History? Sonya O. Rose 2013-04-23 This book provides a short and accessible introduction to the field of gender history, one that has vastly expanded in scope and substance since the mid 1970s. Paying close attention to both classic texts in the field and the latest literature, the author examines the origins and development of the field and elucidates current debates and controversies. She highlights the significance of race, class and ethnicity for how gender affects society, culture and politics as well as delving into histories of masculinity. The author discusses in a clear and straightforward manner the various methods and approaches used by gender historians. Consideration is given to how the study of gender illuminates the histories of revolution, war and nationalism, industrialization and labor relations, politics and citizenship, colonialism and imperialism using as examples research dealing with the histories of a number of areas across the globe. Written by one of the leading scholars in this vibrant field, What is Gender History? will be the ideal introduction for students of all levels.

Sexuality, Gender and Power Anna G. Jónasdóttir 2010-12-14 Bringing together essays by a distinguished international group of leading and emerging scholars of sexuality and gender, this stimulating and accessible collection explores a range of theoretical and "real world" perspectives current in the field. Treating these approaches as complementary, Sexuality, Gender and Power fosters critical conversations about sexuality across disciplinary, cultural, national and ideological boundaries. Underpinned by a broad editorial commitment to intersectionality, the chapters deploy approaches that range from historical materialism to queer theory, and from contract theory to theories of the gendered sexual self to address recurrent questions around agency, power, identity and self-hood. Theoretical debates inform and are informed by more empirically oriented chapters focusing on topics such as gay identity in contemporary Croatia, sexual politics in the Commonwealth Caribbean, western "tango tourists," sexual violence in war, prostitution, femme fashion, changing sexual norms in China and Taiwan, and feminist politics in the 2008 US presidential campaign. Each chapter is interesting and important in its own right; taken together, they advance gender theory and research by developing a complex conception of sexuality that explores intersections between and amongst theories, levels of analysis and identities, linking case studies to international trends and theoretical debates to everyday experiences.

Butterfly Politics Catharine A. MacKinnon 2019-04-02 "Sometimes ideas change the world. This astonishing, miraculous, shattering, inspiring book captures the origins and the arc of the movement for sex equality. It's a book whose time has come—always, but perhaps now more than ever." —Cass Sunstein, coauthor of Nudge Under certain conditions, small simple actions can produce large and complex "butterfly effects." Butterfly Politics shows how Catharine A. MacKinnon turned discrimination law into an effective tool against sexual abuse—grounding and predicting the worldwide #MeToo movement—and proposes concrete steps that could have further butterfly effects on women's rights. Thirty years after she won the U.S. Supreme Court case establishing sexual harassment as illegal, this timely collection of her previously unpublished interventions on consent, rape, and the politics of gender equality captures in action the creative and transformative activism of an icon. "MacKinnon adapts a concept from chaos theory in which the tiny motion of a butterfly's wings can trigger a tornado half a world away. Under the right conditions, she posits, small actions can produce major social transformations." —New York Times "MacKinnon [is] radical, passionate, incorruptible and a beautiful literary stylist... Butterfly Politics is a devastating salvo fired in the gender wars... This book has a single overriding aim: to effect global change in the pursuit of equality." —The Australian "Sexual Harassment of Working Women was a revelation. It showed how this anti-discrimination law—Title VII—could be used as a tool... It was the beginning of a field that didn't exist until then." —U.S. Supreme Court Justice Ruth Bader Ginsburg

The Vintage Book of Amnesia Jonathan Lethem 2000-10-17 Jonathan Lethem is perhaps our most active literary voice mining the genre margins of our culture. In this unique collection he creates an anthology that no one else could. He draws on the work of such unforgettables as Julio Cortazar, who presents a man caught between the ancient and modern worlds unable to say which is real; Philip K. Dick, who tells the story of a man trapped on a spaceship of the somnolent, unable to sleep and slowly losing his mind; Shirley Jackson, who takes us on a nightmarish trip across town with a young secretary; and Oliver Sacks, who presents us with an aging hippie who possesses no memory of anything that has taken place since the early seventies. What Lethem has done is nothing less than define a new genre of literature-the amnesia story-and in the process he invites us to sit down, pick up the book, and begin to forget. Also including: John Franklin Bardin, Donald Barthelme, Thomas M. Disch, Karn Joy Fowler, David Grand, Anna Kavan, Haruki Murakami, Flann O'Brien, Edmund White, and many others.

Interrogating Imperialism N. Inayatullah 2006-12-11 A collection of multiple perspectives on the "war on terror" and the new imperialism. Looking at the imperialism and the "war on terror" through a lens focused on gender and race, the contributors expose the limitations of the current popular discourse and help to uncover possibilities not yet apparent in that same discourse.

Gender Wars at John Adams High School Paris Finley 1990 This case report describes a series of conflicts centering on gender issues at a large metropolitan high school. The case is accompanied by discussion questions designed to present prospective teachers with complex professional problems, asking them to interpret the situation and decide upon possible solutions. The report was written to develop teaching students' abilities to spot issues and frame problems as a new teacher in a highly factionalized school environment. The case opens with a confrontation between a senior student, Jeanne Campbell, and school vice principal Frank Leyden. According to Jeanne, Leyden told her that young women who dressed provocatively were "asking for it" when she suggested that he sponsor a rape awareness workshop. The vice principal asserts that Jeanne had misinterpreted his remarks. Austin Nickerson, a new English teacher, is asked to witness the confrontation and must make a public statement about the meeting when Jeanne's parents consider bringing suit against Leyden. Nickerson is also witness to a host of other gender-related problems involving students, faculty, and administration at the school. Questions following the case report encourage extensive discussion regarding the high school staff's responses to gender-related problems both in the school at large and in the classroom. Two exercises ask teaching students to analyze Nickerson's reading requirements and assess his classroom techniques for possible gender bias. The case is based on authentic occurrences at a large urban high school, but names and identifying details have been changed to protect confidentiality. (TES)

Gender Bias in Mystery and Romance Novel Publishing Anna Faktorovich 2015-04-27 Examines gender bias from the perspective of readers, writers and publishers, with a focus on the top two bestselling genres in modern fiction. It is a linguistic, literary stylistic, and structurally formalist analysis of the male and female "sentences" in the genres that have the greatest gender divide: romances and mysteries. The analysis will search for the historical roots that solidified what many think of today as a "natural" division. Virginia Woolf called it the fabricated "feminine sentence," and other linguists have also identified clear sexpreferential differences in AngloAmerican, Swedish and French novels. Do female mystery writers adopt a masculine voice when they write mysteries? Are femalepenned mysteries structurally or linguistically different from their male competitors', and vice versa among male romance writers? The first part can be used as a textbook for gender stylistics, as it provides an indepth review of prior research. The second part is an analysis of the results of a survey on readers' perception of gender in passages from literature. The last part is a linguistic and structural analysis of actual statistical differences between the novels in the two genres, considering the impact of the author's gender.

Women vs Feminism Joanna Williams 2017-10-10 Statistics tell us there has never been a better time to be a woman but feminists are quick to point out that women are still victims of everyday sexism. This title explores what life is like for women today. It's time to ditch a feminism that appears remote from the concerns of most women and, worse, pitches men and women against each other.

Gender Studies Judith Spector 1986 The essays in Gender Studies explore relationships between gender and creativity, identity, and genre within the context of literary analysis. Some of the essays are psychoanalytic in approach in that they seek to discover the sexual dynamic/s involved in the creation of literature as an art form. Still others attempt to isolate and examine the sexual attitudes inherent in the works of particular authors or genres, or to determine how writers explore the sensibilities of each gender.

Gender and the Civil Rights Movement Peter J. Ling 2004 "The most interesting field for new research on the civil rights movement is in the area of gender. This book breaks new ground by moving beyond a discussion of the contributions of individual women and men and covers the gendered basis of internal civil rights politics." --Steven Lawson, professor of history, Rutgers University, and author of Civil Rights Crossroads: Nation, Community, and the Black Freedom Struggle "These provocative, wide-ranging analyses offer refreshing perspectives on the persistently troubling question of the role of gender in American racial politics and bring contemporary debates on the relationship between sex and race into much-needed historical perspective." -Allison Graham, author of Framing the South: Hollywood, Television, and Race During the Civil Rights Struggle and co-producer of the documentary film At the River I Stand This collection of nine essays analyzes the people, the protests, and the incidents of the civil rights movement through the lens of gender. More than just a study of women, the book examines the ways in which assigned sexual roles and values shaped the strategy, tactics, and ideology of the movement. The essays deal with topics ranging from the Montgomery bus boycott and Rhythm and Blues to gangsta rap and contemporary fiction, from the 1950s to the 1990s. Referring to groups such as the National Council of African American Men and events such as the Million Man March, the authors address male gender identity as much as female, arguing that slave/master relations from before the Civil War continued to affect Black masculinity in the postwar battle for civil rights. Whereas feminism traditionally deals with issues of patriarchy and prescribed gender roles, this volume shows how race relations continue to complicate sex-based definitions within the civil rights movement.

Material Girls Kathleen Stock 2021-05-06 'A clear, concise, easy-to-read account of the issues between sex, gender and feminism . . . an important book' Evening Standard 'A call for cool heads at a time of great heat and a vital reminder that revolutions don't always end well' Sunday Times Material Girls is a timely and trenchant critique of the influential theory that we all have an inner feeling known as a gender identity, and that this feeling is more socially significant than our biological sex. Professor Kathleen Stock surveys the philosophical ideas that led to this point, and closely interrogates each one, from De Beauvoir's statement that, 'One is not born, but rather becomes a woman' (an assertion she contends has been misinterpreted and repurposed), to Judith Butler's claim that language creates biological reality, rather than describing it. She looks at biological sex in a range of important contexts, including women-only spaces and resources, healthcare, epidemiology, political organization and data collection. Material Girls makes a clear, humane and feminist case for our retaining the ability to discuss reality, and concludes with a positive vision for the future, in which trans rights activists and feminists can collaborate to achieve some of their political aims.

Female Masculinities and the Gender Wars Finn Mackay 2021-10-21 "Thoughtful and often moving." Gaby Hinsliff, The Guardian Female Masculinities and the Gender Wars provides important theoretical background and context to the 'gender wars' or 'TERF wars' - the fracture at the forefront of the LGBTQ international conversation. Using queer and female masculinities as a lens, Finn Mackay investigates the current generational shift that is refusing the previous assumed fixity of sex, gender and sexual identity. Transgender and trans rights movements are currently experiencing political backlash from within certain lesbian and lesbian feminist groups, resulting in a situation in which these two minority communities are frequently pitted against one another or perceived as diametrically opposed. Uniquely, Finn Mackay approaches this debate through the context of female masculinity, butch and transmasculine lesbian masculinities. There has been increasing interest in the study of masculinity, influenced by a popular discourse around so-called 'toxic masculinity', the rise of men's rights activism and theory and critical work on Trump's America and the MeToo movement. An increasingly important topic in political science and sociological academia, this book aims to break new ground in the discussion of the politics of gender and identity.

Subverting the Lyric Rob McLennan 2008 From one of the most prolific and engaged book reviewers in Canada over the past 15 years, this collection of essays and reviews showcases the literary insight of Rob McLennan. The works of such Canadian poets as George Bowering, Margaret Christakos, and Barry McKinnon are addressed and analyzed, as is the status of Canadian poetry as a whole. McLennan's own investigations into the craft of writing are uncovered as well. Strikingly innovative and refreshingly communal, this compilation works as a whole to demonstrate how mainstream Canadian literature can be reconciled with the art of fringe authors.

A Portrait of the Artist as Australian Paul Matthew St. Pierre 2004 This book is the first critical assessment of Humphries' entire oeuvre, especially his career as an author. Arguing that Humphries is one of Australia's greatest writers, the author reveals a multi-faceted artist whose success is rooted in the British music hall tradition, Dadaism and grotesquerie. Being Australian has also fundamentally shaped the performer and writer, and the author's defence of Humphries against charges of expatriatism is pertinent to the debate on Australian national identity.
