Start-up Nation Dan Senor 2011-09-07 What the world can learn from Israel's meteoric economic success. Start-Up Nation addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

The Art of Deception Kevin D. Mitnick 2011-08-04 The world's most infamous hacker offers an insider's view of the low-tech threats to high-tech security Kevin Mitnick's exploits as a cyber-desperado and fugitive form one of the most exhaustive FBI manhunts in history and have spawned

dozens of articles, books, films, and documentaries. Since his release from federal prison, in 1998, Mitnick has turned his life around and established himself as one of the most sought-after computer security experts worldwide. Now, in *The Art of Deception*, the world's most notorious hacker gives new meaning to the old adage, "It takes a thief to catch a thief." Focusing on the human factors involved with information security, Mitnick explains why all the firewalls and encryption protocols in the world will never be enough to stop a savvy grifter intent on rifling a corporate database or an irate employee determined to crash a system. With the help of many fascinating true stories of successful attacks on business and government, he illustrates just how susceptible even the most locked-down information systems are to a slick con artist impersonating an IRS agent. Narrating from the points of view of both the attacker and the victims, he explains why each attack was so successful and how it could have been prevented in an engaging and highly readable style reminiscent of a true-crime novel. And, perhaps most importantly, Mitnick offers advice for preventing these types of social engineering hacks through security protocols, training programs, and manuals that address the human element of security.

[Michael Dweck: Habana Libre](#) Michael Dweck 2011 *Habana Libre* is a stunning contemporary exploration of the privileged class in a classless society: a secret life within Cuba. Michael Dweck's photographs are exhilarating, sensual and provocative, with a sexy and hypnotic visual rhythm. This is a face of Cuba never before photographed, never reported in Western media and never acknowledged openly within Cuba itself. It is a socially connected world of glamorous models and keenly observant artists, filmmakers, musicians and writers captured in an elaborate dance of survival and success. Here too are surprising interviews with sons of Fidel Castro and Che Guevara as well as many others who define the creative culture of Cuba and give it texture and substance. *Habana Libre* is not a media-fabricated Cuban postcard of crumbling mansions or old American cars, but a revealing and contemporary work by a visual artist adept at capturing the quiet gesture, the sensuous eye and the proud and provocative pose of that most romantic of contradictions: Cuba. The photographs of Michael Dweck (born 1957) were first exhibited at Sotheby's, New York, in 2003, in the auction house's first solo exhibition for a living photographer. Dweck's first major photographic work, *The End: Montauk, N.Y.*, published in 2004, blended documentary and staged photography to produce a compelling portrait of a beach community that exists as much in the realm of memory and desire as in the real world. His acclaimed 2008 volume *Mermaids* explored the female nude refracted in water. Dweck's work has become part of important international art collections and has been shown in major solo gallery exhibitions around the world.

Love Signals David Givens 2006-01-10 A world renowned anthropologist explores the nonverbal signs, signals, and cues human beings exchange to attract and keep their mates. As a medium of communication, Love's silent language predates speech by millions of years. Today, we still express emotions and feelings largely apart from words. The postures, gestures, and facial cues of attraction are universal, in all societies and cultures. According to Dr. Givens, courtship moves slowly through five distinct phases: attracting attention, recognition phase, conversation phase, touching phase, making love. Since potential mates "test" each other before uniting as one, courtship is a choreographed give and take of signs granting physical and emotional closeness. *Love Signals* is part ethnography and part how-to. Dr. Givens documents the little courting rituals witnessed in elevators, on subways, and in the workplace. He examines the essential role the face plays in courtship and how it can be optimally displayed. He decodes the body to find silent messages given off by shoulders, neck, arms, hands, waist, calves, ankles, feet, and toes. Dr. Givens analyzes expressive shapes, colors, and markings encoded in arm wear, shoulder wear, leg wear, and shoes. He deciphers the background messages of spaces, places and interiors to learn how environs help or hinder in the meeting process. Chemical cues emanating from aromas, tastes, steroids, sterols, and hormones strongly shape a partner's feelings, so they are explored as well. The book suggests ways to gaze, ways to read eyes across a room, and ways to sit, stand, align, walk dress, and lift a drink to participate in the fascinating adventure of finding, winning, and keeping a mate. Knowing the

unspoken vocabulary of love signals will give readers an edge. What this means for courtship is that the reader becomes able to read unspoken motives, emotions, and feelings with great clarity and precision. The more readers know about the nonverbal idiom of attraction, the more likely they will find a loving, lasting partner.

Islands of Privacy Christena E. Nippert-Eng 2010-09-15 Everyone worries about privacy these days. As corporations and governments devise increasingly sophisticated data gathering tools and joining Facebook verges on obligatory, concerns over the use and abuse of personal information are undeniable. But the way privacy functions on the virtual frontier of the Internet is only a subset of the fascinating ways we work to achieve it throughout our everyday lives. In *Islands of Privacy*, Christena Nippert-Eng pries open the blinds, giving us an intimate view into the full range of ordinary people's sometimes extraordinary efforts to preserve the border between themselves and the rest of the world. Packed with stories that are funny and sad, familiar and strange, *Islands of Privacy* tours the myriad arenas where privacy battles are fought, lost, and won. Nippert-Eng explores how we manage our secrets, our phone calls and e-mail, the perimeters of our homes, and our interactions with neighbors. She discovers that everybody practices the art of selectively concealing and disclosing information on a daily basis. This important balancing act governs a wide range of behaviors, from deciding whether to give our bosses our cell phone numbers to choosing what we carry in our wallets or purses. Violations of privacy and anxiety about how we grant it to each other also come under Nippert-Eng's microscope as she crafts a compelling argument that successfully managing privacy is critical for successfully maintaining our relationships with each other and our selves. Roaming from the beach to the bank and from the bathroom to the bus, Nippert-Eng's keenly observed and vividly told book gives us the skinny on how we defend our shrinking islands of privacy in the vast ocean of accessibility that surrounds us.
