Rap Music and Street Consciousness Cheryl Lynette Keyes 2004 In this first musicological history of rap music, Cheryl L. Keyes traces the genre's history from its roots in West African bardic traditions, the Jamaican dancehall tradition, and African American vernacular expressions to its permeation of the cultural mainstream as a major tenet of hip-hop lifestyle and culture. Rap music, according to Keyes, is a forum that addresses the political and economic disfranchisement of black youths and other groups, fosters ethnic pride, and displays culture values and aesthetics. Blending popular culture with folklore and ethnomusicology, Keyes offers a nuanced portrait of the artists, themes, and varying styles reflective of urban life and street consciousness. Drawing on the music, lives, politics, and interests of figures including Afrika Bambaataa, the "godfather of hip-hop," and his Zulu Nation, George Clinton and Parliament-Funkadelic, Grandmaster Flash, Kool "DJ" Herc, MC Lyte, LL Cool J, De La Soul, Public Enemy, Ice-T, DJ Jazzy Jeff and the Fresh Prince, and The Last Poets, Rap Music and Street Consciousness challenges outsider views of the genre. The book also draws on ethnographic research done in New York, Los Angeles, Detroit and London, as well as interviews with performers, producers, directors, fans, and managers. Keyes's vivid and wide-ranging analysis covers the emergence and personas of female rappers and white rappers, the legal repercussions of technological advancements such as electronic mixing and digital sampling, the advent of rap music videos, and the existence of gangsta rap, Southern rap, acid rap, and dance-centered rap subgenres. Also considered are the crossover careers of rap artists in movies and television; rapper-turned-mogul phenomenons such as Queen Latifah; the multimedia empire of Sean "P. Diddy" Combs; the cataclysmic rise of Death Row Records; East Coast versus West Coast tensions; the deaths of Tupac Shakur and Christopher "The Notorious B.I.G." Wallace; and the unification efforts of the Nation of Islam and the Hip-Hop Nation.

[Americaca - the Sounds of Silenced Survivors](#) Samuelin MarTínez 2013-04-17 I was an Indian without a tribe, stuck in the Oakland Housing Projects with only a maternal compass to guide me. Dios te bendiga, Mijo, my mother would say placing her hand on my forehead each day, asking God to bless me. I could feel her medicine, her energy, and her hope for me enter my body, fill my soul, and warm the cold. This was Her Blessing Way, praying for my protection in her absence, warning me of all the dangers. There were many dangers for an Indian boy in 1950s Apartheid Oakland, a reflection of Apartheid America. This is a story of raising children in a country that hated US, a story of how my mother fought to protect her Native

son, a story of how she WON! This is an example of a common Native struggle; native mothers protecting their children, during and after The Indian Wars. This is about the generational trauma from The Indian Wars and the wounded soul of an Indian boy, growing up to be a Warrior in response to that war against our humanity.

Collective Participation and Audience Engagement in Rap Music David Diallo 2019-08-28 Why do rap MCs present their studio recorded lyrics as “live and direct”? Why do they so insistently define abilities or actions, theirs or someone else’s, against a pre-existing signifier? This book examines the compositional practice of rap lyricists and offers compelling answers to these questions. Through a 40 year-span analysis of the music, it argues that whether through the privileging of chanted call-and-response phrases or through rhetorical strategies meant to assist in getting one’s listening audience open, the focus of the first rap MCs on community building and successful performer-audience cooperation has remained prevalent on rap records with lyrics and production techniques encouraging the listener to become physically and emotionally involved in recorded performances. Relating rap’s rhetorical strategy of posing inferences through intertextuality to early call-and-response routines and crowd-controlling techniques, this study emphasizes how the dynamic and collective elements from the stage performances and battles of the formative years of rap have remained relevant in the creative process behind this music. It contends that the customary use of identifiable references and similes by rap lyricists works as a fluid interchange designed to keep the listener involved in the performance. Like call-and-response in live performances, it involves a dynamic form of communication and places MCs in a position where they activate the shared knowledge of their audience, making sure that they “know what they mean,” thus transforming their mediated lyrics into a collective and engaging performance.

Feminist Messages Joan Newlon Radner 1993 Burning dinners, stitching "scandalous" quilts, talking "hard" in the male dominated world of rap music--Feminist Messages interprets such acts as instances of coding, or covert expressions of subversive or disturbing ideas. While coding may be either deliberate or unconscious, it is a common phenomenon in women's stories, art, and daily routines. Because it is essentially ambiguous, coding protects women from potentially dangerous responses from those who might be troubled by their messages.

30-Second Fashion Rebecca Arnold 2017-05-18 The 50 key modes, garments, and designers, each explained in half a minute! Even if you’re not a regular follower of Suzy Bubble, Le Happy, or The Sartorialist, you probably have some feeling for fashion. Most people have a vague idea of what’s in, what’s out, and what they might consider putting on their own backs. Less familiar to most, however, is the way fashion works as a global business – a multi-billion-pound industry, employing over 27 million people – just who decides what’s cutting edge and what’s long past its sell-by date. 30-Second Fashion offers an engrossing crash course to how the style world works today, alongside an engaging look at the founding fathers (and mothers) of fashion who set it up that way.

Dwarfsplotation Brad Paulson 2016-10-09 Dwarfsplotation is an entertaining and educational look into the world of dwarf cinema. From Freaks to Willow, Dwarfsplotation analyzes a wide variety of both independent and mainstream films, chronicling the number of ways in which little people are exploited. It is a must have for any fan of little people or film itself. "Dwarfish reviews about dwarf films seems an odd basis for a book, but it's surprisingly entertaining and enlightening and respectful about the little folk. A snappy, unique guide to all films Dwarf." - Joe R. Lansdale, author of Bubba Ho-Tep "This book is truly a one-of-a-kind. An inspired idea, and an equally-inspired book. Chris Watson and Brad Paulson have created something special with "Dwarfsplotation". In an age when there seems to be books about every aspect of cinema, these authors have discovered a niche that had yet to be explored. Kudos." - Andrew J. Rausch, author of Turning Points in Film History "The first time I went to the Library of Congress to do research on midgets in film, I was directed to a single tattered volume produced by the MGM publicist on "The Wizard of Oz." I was astounded. The literature was virtually non-existent. Later I had a special assignment involving dwarf-tossing, and I sought out any dwarf-tossing

trade association that could possibly be of any assistance. Again, my exertions were frustrated. That's why, when I first heard that "Dwarfsploitation" was in the works, I was cautiously hopeful but still ready for a Billy Barty headbutt to the nuts. I'm happy to say that the resulting book is a resource that we've needed for 60 years, and should take up permanent residence on the Ikea children's-room book shelves of anyone shorter than 4-foot-4." - Joe Bob Briggs, author of Joe Bob Goes to the Drive-In "Brad and Chris's book stands head and shoulders above the run of the mill cinema book types. It makes little people everywhere stand a little." - James Bryan, director of Don't Go in the Woods "Paulson and Watson's book is a unique perspective to say the least. We seem to have books on everything these days, so, why not something that is entertaining, informative and celebrates our little friends in cinema." - Robert Davi, actor from License to Kill "It was a short read and I loved it. Don't overlook it!" - Joe Estevez, actor from Soutaker "Wow, I'm impressed! This has to be the most comprehensive guide to cinematic dwarves that you'll ever read. Meticulously researched, with hysterically funny yet genuinely fond comments by the authors, running the gamut from dwarfsploitation to 'normal' life. A must-have for any film-fan's library." - scream queen Brinke Stevens

An Inexcusable Absence R. Perez Gatling, MEd 2014-05-01 It is high time for more diversity in education, diversity that includes thorough, articulate, Black males. Contrary to popular belief, the need for a strong emergence of Black male teachers is not only for the benefit of Black boys and Black girls. Children and parents of all races and both genders need to be introduced to the antithesis of the stereotypical Black man and build strong, healthy relationships that will be the means for greater racial and ethnic harmony.

Arabic in the City Catherine Miller 2007-12-14 Filling a gap in the literature currently available on the topic, this edited collection is the first examination of the interplay between urbanization, language variation and language change in fifteen major Arab cities. The Arab world presents very different types and degrees of urbanization, from well established old capital-cities such as Cairo to new emerging capital-cities such as Amman or Nouakchott, these in turn embedded in different types of national construction. It is these urban settings which raise questions concerning the dynamics of homogenization/differentiation and the processes of standardization due to the coexistence of competing linguistic models. Topics investigated include: History of settlement The linguistic impact of migration The emergence of new urban vernaculars Dialect convergence and divergence Code-switching, youth language and new urban culture Arabic in the Diaspora Arabic among non-Arab groups. Containing a broad selection of case studies from across the Arab world and featuring contributions from leading urban sociolinguistics and dialectologists, this book presents a fresh approach to our understanding of the interaction between language, society and space. As such, the book will appeal to the linguist as well as to the social scientist in general.

The Act of Living Marco Di Nunzio 2019-04-15 The Act of Living explores the relation between development and marginality in Ethiopia, one of the fastest growing economies in Africa. Replete with richly depicted characters and multi-layered narratives on history, everyday life and visions of the future, Marco Di Nunzio's ethnography of hustling and street life is an investigation of what is to live, hope and act in the face of the failing promises of development and change. Di Nunzio follows the life trajectories of two men, "Haile" and "Ibrahim," as they grow up in the Ethiopian capital Addis Ababa, enter street life to get by, and turn to the city's expanding economies of work and entrepreneurship to search for a better life. Apparently favourable circumstances of development have not helped them achieve social improvement. As their condition of marginality endures, the two men embark in restless attempts to transform living into a site for hope and possibility. By narrating Haile and Ibrahim's lives, The Act of Living explores how and why development continues to fail the poor, how marginality is understood and acted upon in a time of promise, and why poor people's claims for open-endedness can lead to better and more just alternative futures. Tying together anthropology, African studies, political science, and urban studies, Di Nunzio takes readers on a bold exploration of the meaning of existence, hope, marginality, and street life.

Reimagining Rapport Zane Goebel 2021-02-05 "This collection sketches the use of the term "rapport" within the fields of Anthropology, Sociology, Sociolinguistics, Applied Linguistics, and Linguistic Anthropology. Rather than leaving the term uncritiqued or simply conceptualised as a type of positive social relationship that needs to be formed between researcher and consultant before research can begin, the book invites us to: 1) think about how rapport has been constructed within a number of these disciplines; 2) see rapport as an emergent co-constructed social relationship that is built during situated multimodal encounters, and one that; and 3) see the interpretation of such social relationships as requiring a reflexive approach that historicizes semiotic resources and social relations. In reimagining rapport, readers are invited to reflect on the idea of rapport as theory, meta-methodology, and methodology"--

The Trap Ronnie Bo 2012-06-22 Trap life will never be the same again once these illuminating street scriptures hit the streets and the jails throughout the nation. This classic urban literature contains timeless knowledge, wisdom and understanding with real stories from a young street hustler/up in coming rapper who reveals his own experiences of THE TRAP and delivers messages that honorable street legends like Larry Hoover might teach if he was still able to get his word out to the streets. Ronnie Bo is a modern day Moses of the urban culture who comes in the form of a dope boy as God's divine messenger. THE TRAP shall be revered by rappers just like the Bible is revered by Christians. Nevertheless, Ronnie Bo hereby insinuates that mainstream music overseers are participating in the government conspiracy to mislead black youths by prohibiting artists of his kind from clinching mainstream attention; implying that 2Pac was assassinated so that Jay-Z and other influential artists could take the spotlight and mislead our culture and that real niggaz have been hindered from holding the preeminence that 2Pac had in the game ever since. Knowing that his music career would be hindered by the industry if he had taken the approach of attempting to enlighten the urban culture through his music, Ronnie Bo decided to provide us with his illuminating guidance through a book-THE TRAP. Ronnie Bo is a real street nigga with a lot of empowering knowledge. I have read many great books in my lifetime from "The Art of War" to the "48 Laws of Power" and I even wrote a book of my own but I could honestly say that "THE TRAP" is one of the most indispensable books that has ever been written. --Pimpin Ken, author of Pimpology: 48 Laws of the Game

The most in-depth look at West's life and career to date,"--Novelist.

White Bound Matthew Hughey 2012-08-22 Discussions of race are inevitably fraught with tension, both in opinion and positioning. Too frequently, debates are framed as clear points of opposition—us versus them. And when considering white racial identity, a split between progressive movements and a neoconservative backlash is all too frequently assumed. Taken at face value, it would seem that whites are splintering into antagonistic groups, with differing worldviews, values, and ideological stances. White Bound investigates these dividing lines, questioning the very notion of a fracturing whiteness, and in so doing offers a unique view of white racial identity. Matthew Hughey spent over a year attending the meetings, reading the literature, and interviewing members of two white organizations—a white nationalist group and a white antiracist group. Though he found immediate political differences, he observed surprising similarities. Both groups make meaning of whiteness through a reliance on similar racist and reactionary

stories and worldviews. On the whole, this book puts abstract beliefs and theoretical projection about the supposed fracturing of whiteness into relief against the realities of two groups never before directly compared with this much breadth and depth. By examining the similarities and differences between seemingly antithetical white groups, we see not just the many ways of being white, but how these actors make meaning of whiteness in ways that collectively reproduce both white identity and, ultimately, white supremacy.

Dirty Little Angels Chris Tusa 2009 "Listen up, folks: Chris Tusa has written a nasty little novel that somehow lifts close to grace its downtrodden and sometimes blackhearted inhabitants. They're fallen and broken, but like the New Orleans through which they stagger and flail, they are lovely ruins--and like New Orleans they are only one storm away from the End Times. Witness the storm, as told by Tusa: Dirty Little Angels."--Review by Josh Russell, Yellow Jack.

Reading the Walls of Bogota Alba Griffin 2023-06-13 A cultural imaginary is a structuring space through which collective understandings of cultural and society phenomena are formed, reproduced, and accepted as the norm. Reading the Walls of Bogotá uses graffiti and street art to explore the urban imaginaries of violence in Bogotá, Colombia. These artistic forms are produced and received in different ways in different areas of the city and offer an insight into citizens' everyday experiences and perceptions of violence from the political, to the personal, to that of structural inequality. Through graffiti, in which critiques of memory, space, politics, and aesthetics are embedded, artists and their viewers form vernacular theories through which they interpret the world and the spaces they inhabit. By focusing on creative expression, Alba Griffin shows how Bogotá's residents respond to imaginaries of violence, how they critique the norms, how they appropriate space to challenge or negotiate violence, and how they push back against inequality.

The History of Rap and Hip-Hop Soren Baker 2012-06-22 Hip-hop culture has grown from its humble beginnings in the South Bronx section of New York City into a significant and influential cultural movement. This volume examines the rich history and promising future of this musical genre. Created in the mid-1970s by poor Bronx residents with few resources, hip-hop has become a billion-dollar industry whose reach now stretches around

the world. Hip-hop has influenced the way people make music, the way they dance, and the way they wear their clothes. It has also shaped people's political views and turned many people into entrepreneurs.

Chicano Rap Pancho McFarland 2012-09-21 Powered by a driving beat, clever lyrics, and assertive attitudes, rap music and hip hop culture have engrossed American youth since the mid-1980s. Although the first rappers were African Americans, rap and hip hop culture quickly spread to other ethnic groups who have added their own cultural elements to the music. Chicano Rap offers the first in-depth look at how Chicano/a youth have adopted and adapted rap music and hip hop culture to express their views on gender and violence, as well as on how Chicano/a youth fit into a globalizing world. Pancho McFarland examines over five hundred songs and seventy rap artists from all the major Chicano rap regions—San Diego, San Francisco and Northern California, Texas, and Chicago and the Midwest. He discusses the cultural, political, historical, and economic contexts in which Chicano rap has emerged and how these have shaped the violence and misogyny often expressed in Chicano rap and hip hop. In particular, he argues that the misogyny and violence of Chicano rap are direct outcomes of the "patriarchal dominance paradigm" that governs human relations in the United States. McFarland also explains how globalization, economic restructuring, and the conservative shift in national politics have affected Chicano/a youth and Chicano rap. He concludes with a look at how Xicana feminists, some Chicano rappers, and other cultural workers are striving to reach Chicano/a youth with a democratic, peaceful, empowering, and liberating message.

With Amusement for All LeRoy Ashby 2006-05-12 Popular culture is a central part of everyday life to many Americans. Personalities such as Elvis Presley, Oprah Winfrey, and Michael Jordan are more recognizable to many people than are most elected officials. With Amusement for All is the first comprehensive history of two centuries of mass entertainment in the United States, covering everything from the penny press to Playboy, the NBA to NASCAR, big band to hip hop, and other topics including film, comics, television, sports, dance, and music. Paying careful attention to matters of race, gender, class, technology, economics, and politics, LeRoy Ashby emphasizes the complex ways in which popular culture simultaneously reflects and transforms American culture, revealing that the world of entertainment constantly evolves as it tries to meet the demands of a diverse audience. Trends in popular entertainment often reveal the tensions between competing ideologies, appetites, and values in American society. For example, in the late nineteenth century, Americans embraced "self-made men" such as John D. Rockefeller and Andrew Carnegie: the celebrities of the day were circus tycoons P.T. Barnum and James A. Bailey, Wild West star "Buffalo Bill" Cody, professional baseball organizer Albert Spalding, and prizefighter John L. Sullivan. At the same time, however, several female performers challenged traditional notions of weak, frail Victorian women. Adah Isaacs Menken astonished crowds by wearing tights that made her appear nude while performing dangerous stunts on horseback, and the shows of the voluptuous burlesque group British Blondes often centered on provocative images of female sexual power and dominance. Ashby describes how history and politics frequently influence mainstream entertainment. When Native Americans, blacks, and other non-whites appeared in the nineteenth-century circuses and Wild West shows, it was often to perpetuate demeaning racial stereotypes—crowds jeered Sitting Bull at Cody's shows. By the early twentieth century, however, black minstrel acts reveled in racial tensions, reinforcing stereotypes while at the same time satirizing them and mocking racist attitudes before a predominantly white audience. Decades later, Red Foxx and Richard Pryor's profane comedy

routines changed American entertainment. The raw ethnic material of Pryor's short-lived television show led to a series of African-American sitcoms in the 1980s that presented common American experiences—from family life to college life—with black casts. Mainstream entertainment has often co-opted and sanitized fringe amusements in an ongoing process of redefining the cultural center and its boundaries. Social control and respectability vied with the bold, erotic, sensational, and surprising, as entrepreneurs sought to manipulate the vagaries of the market, control shifting public appetites, and capitalize on campaigns to protect public morals. Rock 'n Roll was one such fringe culture; in the 1950s, Elvis blurred gender norms with his androgynous style and challenged conventions of public decency with his sexually-charged performances. By the end of the 1960s, Bob Dylan introduced the social consciousness of folk music into the rock scene, and The Beatles embraced hippie counter-culture. Don McLean's 1971 anthem "American Pie" served as an epitaph for rock's political core, which had been replaced by the spectacle of hard rock acts such as Kiss and Alice Cooper. While Rock 'n Roll did not lose its ability to shock, in less than three decades it became part of the established order that it had originally sought to challenge. *With Amusement for All* provides the context to what Americans have done for fun since 1830, showing the reciprocal nature of the relationships between social, political, economic, and cultural forces and the way in which the entertainment world has reflected, refracted, or reinforced the values those forces represent in America.

Fada Adeline Masquelier 2019-04-23 Niger most often comes into the public eye as an example of deprivation and insecurity. Urban centers have become concentrated areas of unemployment filled with young men trying, against all odds, to find jobs and fill their time with meaningful occupations. At the heart of Adeline Masquelier's groundbreaking book is the fada—a space where men gather to escape boredom by talking, playing cards, listening to music, and drinking tea. As a place in which new forms of sociability and belonging are forged outside the unattainable arena of work, the fada has become an integral part of Niger's urban landscape. By considering the fada as a site of experimentation, Masquelier offers a nuanced depiction of how young men in urban Niger engage in the quest for recognition and reinvent their own masculinity in the absence of conventional avenues to self-realization. In an era when fledgling and advanced economies alike are struggling to support meaningful forms of employment, this book offers a timely glimpse into how to create spaces of stability, respect, and creativity in the face of diminished opportunities and precarity.

Mixed Andrew Garrod 2013-12-15 Mixed presents engaging and incisive first-person experiences of what it is like to be multiracial in what is supposedly a postracial world. Bringing together twelve essays by college students who identify themselves as multiracial, this book considers what this identity means in a reality that occasionally resembles the post-racial dream of some and at other times recalls a familiar world of racial and ethnic prejudice. Exploring a wide range of concerns and anxieties, aspirations and ambitions, these young writers, who all attended Dartmouth College, come from a variety of racial, ethnic, and socioeconomic backgrounds. Unlike individuals who define themselves as having one racial identity, these students have lived the complexity of their identity from a very young age. In Mixed, a book that will benefit educators, students, and their families, they eloquently and often passionately reveal how they experience their multiracial identity, how their parents' race or ethnicity shaped their childhoods, and how perceptions of their race have affected their relationships.
