*Love's Executioner* - Irvin D. Yalom 2012-06-05

In his classic, bestselling work, the masterful therapist and novelist Irvin Yalom describes his sometimes tragic, sometimes inspiring, and always absorbing encounters with patients. In this classic book, master psychotherapist Irvin D. Yalom uncovers the mysteries, frustrations, pathos, and humor at the heart of the therapeutic encounter. With insight and sympathy, Yalom not only gives us a rare and enthralling glimpse into the personal desires and motivations of ten of his patients, but also tells his own story as he struggles to reconcile his all-too-human response with his sensibility as a psychiatrist. *Love's Executioner* has inspired hundreds of thousands of readers already, and promises to inspire generations of readers to come.

**When Nietzsche Wept** - Irvin D. Yalom

2019-08-06

In nineteenth-century Vienna, a drama of love, fate, and will is played out amid the intellectual ferment that defined the era. Josef Breuer, one of the founding fathers of psychoanalysis, is at the height of his career. Friedrich Nietzsche, Europe's greatest philosopher, is on the brink of suicidal despair, unable to find a cure for the headaches and other ailments that plague him. When he agrees to treat Nietzsche with his experimental "talking cure," Breuer never expects that he too will find solace in their sessions. Only through facing his own inner demons can the gifted healer begin to help his patient. In *When Nietzsche Wept*, Irvin Yalom blends fact and fiction, atmosphere and suspense, to unfold an unforgettable story about the redemptive power of friendship.

**Loves Executioner and Other Tales of Psychotherapy** - Irvin D. Yalom 1980

**Love's Executioner** - Irvin D. Yalom 1991

Contains eight case-studies of people the author has treated, including a woman of 67, obsessively pining with love for her 32-year-old previous therapist and a woman of 19 stone who has emotional difficulties because of her weight problem. This title includes stories that reveal the diversity of human motivation.

**The Schopenhauer Cure** - Irvin Yalom

2009-10-13

From the internationally bestselling author of *Love's Executioner* and *When Nietzsche Wept*, comes a novel of group therapy with a cast of memorably wounded characters struggling to heal pain and change lives. Suddenly confronted with his own mortality after a routine checkup, eminent psychotherapist Julius Hertzfeld is forced to reexamine his life and work -- and seeks out Philip Slate, a sex addict whom he failed to help some twenty years earlier. Yet Philip claims to be cured -- miraculously transformed by the pessimistic teachings of German philosopher Arthur Schopenhauer -- and is, himself, a philosophical counselor in training. Philip's dour, misanthropic stance compels Julius to invite Philip to join his intensive therapy group in exchange for tutoring on Schopenhauer. But with mere months left, life may be far too short to help Philip or to compete with him for the hearts and minds of the group members. And then again, it might be just long enough.

I'm Calling the Police - Irvin D. Yalom

2011-03-01

"Something heavy is going on ... the past is erupting ... my two lives, night and day, are joining. I need to talk." Irv Yalom's old medical school friend was making a plea for help. In their fifty years of friendship, Bob Berger had never

divulged his nocturnal terrors to his close comrade. Now, finally, he found himself forced to. In *I'm Calling the Police*, Berger recounts to Yalom the anguish of a war-torn past: By pretending he was a Christian, Berger survived the Holocaust. But after a life defined by expiation and repression, a dangerous encounter has jarred loose the painful memory of those years. Together, they interpret the fragments of the horrific past that haunt his dreams. *I'm Calling the Police* is a powerful exploration of Yalom's most vital themes--memory, fear, love, and healing--and a glimpse into the life of the man himself.

*Every Day Gets a Little Closer* - Irvin D. Yalom 2008-08-01

The many thousands of readers of the best-selling *Love's Executioner* will welcome this paperback edition of an earlier work by Dr. Irvin Yalom, written with Ginny Elkin, a pseudonymous patient whom he treated -- the first book to share the dual reflections of psychiatrist and patient. Ginny Elkin was a troubled young and talented writer whom the psychiatric world had labeled as "schizoid." After trying a variety of therapies, she entered into private treatment with Dr. Irvin Yalom at Stanford University. As part of their work together, they agreed to write separate journals of each of their sessions. *Every Day Gets a Little Closer* is the product of that arrangement, in which they alternately relate their descriptions and feelings about their therapeutic relationship.

*Tales of Psychotherapy* - Jane E. Ryan 2007

Anyone with a faint curiosity about human nature will be enthralled by these remarkable stories. Based on true experience, or re-worked into fictional short stories, this book takes the reader through a mesmerizing sequence of compelling pieces that reveal the innermost concerns of psychotherapy practice. The anthology, written by both psychotherapists and prize winning fiction authors, is a book of surprise, delight, anguish and hope. It draws on one of the most intimate conversations that a human being can achieve - that of the psychoanalytic hour - and gives these encounters a fascinating context in the form of people's lives. Some of these stories give strong evidence for the efficacy of psychotherapy - how by listening to someone's most private desires,

remarkable transformations can occur. Others ask the reader to consider the fallibility or vulnerability of the therapist and their own concerns and lives.

**Love's Executioner** - Irvin D. Yalom 2013-04-04

*Love's Executioner* offers us the humane and extraordinary insight of renowned psychiatrist Irvin D. Yalom into the lives of ten of his patients - and through them into the minds of us all Why was Saul tormented by three unopened letters from Stockholm? What made Thelma spend her whole life raking over a long-past love affair? How did Carlos's macho fantasies help him deal with terminal cancer? In this engrossing book, Irvin Yalom gives detailed and deeply affecting accounts of his work with these and seven other patients. Deep down, all of them were suffering from the basic human anxieties - isolation, fear of death or freedom, a sense of the meaninglessness of life - that none of us can escape completely. And yet, as the case histories make touchingly clear, it is only by facing such anxieties head on that we can hope to come to terms with them and develop. Throughout, Dr Yalom remains refreshingly frank about his own errors and prejudices; his book provides a rare glimpse into the consulting room of a master therapist. Reviews: 'Dr Yalom demonstrates once again that in the right hands, the stuff of therapy has the interest of the richest and most inventive fiction' Eva Hoffman, *New York Times* 'These remarkably moving and instructive tales of the psychiatric encounter bring the reader into novel territories of the mind - and the landscape is truly unforgettable' Maggie Scarf 'Love's Executioner is one of those rare books that suggests both the mystery and the poetry of the psychotherapeutic process. The best therapists are at least partly poets. With this riveting and beautifully written book, Irvin Yalom has joined their ranks' Erica Jong 'Inspired ... He writes with the narrative wit of O. Henry and the earthy humor of Isaac Bashevis Singer' *San Francisco Chronicle* 'These stories are wonderful. They make us realize that within every human being lie the pain and the beauty that make life worthwhile' Bernie S. Siegel 'This is an impressive transformation of clinical experience into literature. Dr Yalom's case histories are more gripping than 98 percent of the fiction published today, and he has gone to amazing

lengths of honesty to depict himself as a realistic flesh-and-blood character: funny, flawed, perverse, and, above all, understanding' Phillip Lopate 'I loved Love's Executioner. Dr Yalom has learned something that fiction writers learned years ago - that people's mistakes are a lot more interesting than their triumphs' Joanne Greenberg About the author: Irvin D. Yalom is Professor Emeritus of Psychiatry at the Stanford University School of Medicine. As well as an award-winning psychiatrist and psychotherapist, he is an extremely prolific author. His many other works include *The Gift of Therapy*, *Staring at the Sun*, *When Nietzsche Wept*, *The Theory and Practice of Group Psychiatry*, *The Schopenhauer Cure*, *Lying on the Couch*, *Momma and the Meaning of Life*, *Existential Psychotherapy*, *I'm Calling the Police*, *Inpatient Group Psychotherapy*, *Every Day Gets a Little Closer* and *The Spinoza Problem*.

*Staring at the Sun* - Irvin D. Yalom 2010-06-10  
Written in Irv Yalom's inimitable story-telling style, *Staring at the Sun* is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr. Yalom helps us recognize that the fear of death is at the heart of much of our anxiety. Such recognition is often catalyzed by an "awakening experience"—a dream, or loss (the death of a loved one, divorce, loss of a job or home), illness, trauma, or aging. Once we confront our own mortality, Dr. Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

[A Matter of Death and Life](#) - Irvin D. Yalom 2021-03-02

A year-long journey by the renowned psychiatrist and his writer wife after her terminal diagnosis, as they reflect on how to love and live without regret. Internationally acclaimed psychiatrist and author Irvin Yalom devoted his career to counseling those suffering from anxiety and grief. But never had he faced the need to counsel himself until his wife, esteemed feminist author Marilyn Yalom, was diagnosed with cancer. In *A Matter of Death and Life*, Marilyn and Irv share how they took on

profound new struggles: Marilyn to die a good death, Irv to live on without her. In alternating accounts of their last months together and Irv's first months alone, they offer us a rare window into facing mortality and coping with the loss of one's beloved. The Yaloms had numerous blessings—a loving family, a Palo Alto home under a magnificent valley oak, a large circle of friends, avid readers around the world, and a long, fulfilling marriage—but they faced death as we all do. With the wisdom of those who have thought deeply, and the familiar warmth of teenage sweethearts who've grown up together, they investigate universal questions of intimacy, love, and grief. Informed by two lifetimes of experience, *A Matter of Death and Life* is an openhearted offering to anyone seeking support, solace, and a meaningful life.

**Creatures of a Day** - Irvin D. Yalom 2015-03-05  
What makes life worth living? What can we do to lead meaningful lives? And how do we confront our inevitable end? In his long career, eminent psychotherapist and author Irvin Yalom has pressed his patients and readers to grapple with life's two greatest challenges: that we all must die, and that each of us is responsible for leading a life worth living. In *Creatures of a Day*, he and his patients face the difficulty of these challenges. Although these people have come to Yalom seeking relief, recognition, or meaning, he and they discover that such things are rarely found in the places where we think to look. Like *Love's Executioner* and Yalom's other writing, *Creatures of a Day* provides an intelligent, compassionate, yet still unflinching look at the human soul and all the pain, confusion, and hope that go with it. The power of these stories is amplified by Yalom's reflections on his own life as he reckons with its inevitable end. Suffused with humor, great artistry, and a profound humanity, *Creatures of a Day* lays bare the necessary task we each face, each day, to make our own lives meaningful.

[On Learning From the Patient](#) - Patrick Casement 2013-10-15

"On Learning from the Patient is concerned with the potential for psychoanalytic thinking to become self-perpetuating. Patrick Casement explores the dynamics of the helping relationship - learning to recognize how patients offer cues to the therapeutic experience that

they are unconsciously in search of. Using many telling clinical examples, he illustrates how, through trial identification, he has learned to monitor the implications of his own contributions to a session from the viewpoint of the patient. He shows how, with the aid of this internal supervision, many initial failures to respond appropriately can be remedied and even used to the benefit of the therapeutic work. By learning to better distinguish what helps the therapeutic process from what hinders it, ways are discovered to avoid the circularity of pre-conception by analysts who aim to understand the unconscious of others. From this lively examination of key clinical issues, the author comes to see psychoanalytic therapy as a process of re-discovering theory - and developing a technique that is more specifically related to the individual patient. The dynamics illustrated here, particularly the processes of interactive communication and containment, occur in any helping relationship and are applicable throughout the caring professions. Patrick Casement's unusually frank presentation of his own work, aided by his lucid and non-technical language, allows wide scope for readers to form their own ideas about the approach to technique he describes. This Classic Edition includes a new introduction to the work by Andrew Samuels and, together with its sequel *Further Learning from the Patient*, will be an invaluable training resource for trainee and practising analysts or therapists."

**Poems That Lose** - Akif Kichloo 2017-09-26  
From Akif Kichloo, author of *The Feeling May Remain*, comes this deeply personal and poetic account of a troubled life. A nowhere man, with or without god, a quintessential mental nomad, omnipresent in his mistakes, exploring mental illness, identity, family, sexuality, god, love, childhood, and purpose of life, *Poems That Lose* brings forth questions all of us wrestle with but either avoid asking ourselves or miserably fail answering almost every time. Kichloo navigates brilliantly from the deeply personal to the universal to the extinct, paving the way for a rare new voice in contemporary poetry, a poet who is more than wanted; he is desperately needed. These poems will slip off your tongue, creep under your skin, and live there.

**Momma And The Meaning Of Life** - Irvin D.

Yalom 2015-03-19

This classic medium, first popularised by Freud and, more recently, by Oliver Sacks and Yalom himself, provides a fascinating insight into the human condition and our search for happiness. Contains six absorbing case studies which reveal the intricacies our psychological landscapes. Provides a fascinating insight into the human condition and our search for happiness. Explores the unique dynamic of the relationship between therapist and client. Absorbing and deeply thoughtful, *Momma and the Meaning of Life* is a work of rare insight and imagination.

**Cracked** - James Davies 2013-05-09

Why is psychiatry such big business? Why are so many psychiatric drugs prescribed - 47 million antidepressant prescriptions in the UK alone last year - and why, without solid scientific justification, has the number of mental disorders risen from 106 in 1952 to 374 today? The everyday sufferings and setbacks of life are now 'medicalised' into illnesses that require treatment - usually with highly profitable drugs. Psychological therapist James Davies uses his insider knowledge to illustrate for a general readership how psychiatry has put riches and medical status above patients' well-being. The charge sheet is damning: negative drug trials routinely buried; antidepressants that work no better than placebos; research regularly manipulated to produce positive results; doctors, seduced by huge pharmaceutical rewards, creating more disorders and prescribing more pills; and ethical, scientific and treatment flaws unscrupulously concealed by mass-marketing. *Cracked* reveals for the first time the true human cost of an industry that, in the name of helping others, has actually been helping itself.

**Lying On The Couch** - Irvin D. Yalom  
2014-03-25

From the bestselling author of *Love's Executioner* and *When Nietzsche Wept* comes a provocative exploration of the unusual relationships three therapists form with their patients. Seymour is a therapist of the old school who blurs the boundary of sexual propriety with one of his clients. Marshal, who is haunted by his own obsessive-compulsive behaviors, is troubled by the role money plays in his dealings with his patients. Finally, there is Ernest Lash. Driven by his sincere desire to help and his faith

in psychoanalysis, he invents a radically new approach to therapy -- a totally open and honest relationship with a patient that threatens to have devastating results. Exposing the many lies that are told on and off the psychoanalyst's couch, *Lying on the Couch* gives readers a tantalizing, almost illicit, glimpse at what their therapists might really be thinking during their sessions. Fascinating, engrossing and relentlessly intelligent, it ultimately moves readers with a denouement of surprising humanity and redemptive faith.

**The Examined Life: How We Lose and Find Ourselves** - Stephen Grosz 2014-05-12

The author describes his work as a psychoanalyst over a twenty-five year period, describing his efforts to guide his patients to personal insights into their behaviors and resolutions which can change their lives for the better.

The Gift Of Therapy (Revised And Updated Edition) - Irvin D. Yalom 2011-03-03

THE GIFT OF THERAPY is the culmination of master psychiatrist Dr Irvin Yalom's thirty-five years' work as a therapist, illustrating through real case studies how patients and therapists alike can get the most out of therapy. Presented as eighty-five 'tips' for 'beginner therapists', Yalom shares his own fresh approach and the insights he has gained while treating his patients. Personal, and sometimes provocative, Yalom makes some unorthodox suggestions, including: Let the patient matter to you; Acknowledge your errors; Create a new therapy for each patient; Make home visits; (Almost) never make decisions for a patient; and Freud was not always wrong. This is an entertaining, informative and insightful read for both beginners and more experienced therapists, patients, students and everyone with an interest in the subject.

Writing the Talking Cure - Jeffrey Berman 2019-05-01

Explores Yalom's profound contributions to psychotherapy and literature. A distinguished psychiatrist and psychotherapist, Irvin D. Yalom is also the United States' most well-known author of psychotherapy tales. His first volume of essays, *Love's Executioner*, became an immediate best seller, and his first novel, *When Nietzsche Wept*, continues to enjoy critical and

popular success. Yalom has created a subgenre of literature, the "therapy story," where the therapist learns as much as, if not more than, the patient; where therapy never proceeds as expected; and where the therapist's apparent failure proves ultimately to be a success. Writing *The Talking Cure* is the first book to explore all of Yalom's major writings. Taking an interdisciplinary approach, Jeffrey Berman comments on Yalom's profound contributions to psychotherapy and literature and emphasizes the recurrent ideas that unify his writings: the importance of the therapeutic relationship, therapist transparency, here-and-now therapy, the prevalence of death anxiety, reciprocal healing, and the idea of the wounded healer. Throughout, Berman discusses what Yalom can teach therapists in particular and the common (and uncommon) reader in general. "As a psychiatrist who has benefitted enormously not only from Yalom's writings but also from his mentorship, I admire Berman's relationship to his subject. They both write lucidly and imaginatively, inviting the reader to accompany them on a personal journey that is intriguing but intellectually rigorous. Reading this book helps me to better understand Yalom's dual roles—as brilliant psychotherapist/teacher and compelling novelist. Berman's book-by-book examination of Yalom's work illustrates how good therapy involves facing reality, and good fiction involves making stories come alive by resonating with the hard truths of life. He is the perfect guide to Yalom, capturing his wisdom and creativity with respect and clarity." — David Spiegel, author of *Living Beyond Limits: New Hope and Help for Facing Life-Threatening Illness* "This is a convincing celebration of and commentary on one of the most prominent psychotherapists of the last century. For anyone interested in the popularization of an idiosyncratic form of existential psychotherapy for individuals and groups, this will be an important book." — Murray Schwartz, Emerson College "In this richly textured book, Berman takes us backstage in a warm and skillful exploration of Irvin Yalom's unmatched contributions as a psychotherapist, author, and educator. We are provided a transparent view of how human healing emerges from our talking, writing, and reading. Berman reminds us eloquently that

psychotherapy is, at its essence, the process of human connection and the joint attribution of

meaning to experience.” — Melyn Leszcz, The University of Toronto
