Winner Take Nothing Ernest Hemingway 2014-05-22 Ernest Hemingway's first new book of fiction, since the publication of *A Farewell to Arms* in 1929, contains fourteen stories of varying length. Some of them have appeared in magazines but the majority have not been published before. The characters and backgrounds are widely varied. "A Clean, Well-Lighted Place" is about an old Spanish Beggar. "Homage to Switzerland" concerns various conversations at a Swiss railway-station restaurant. "The Gambler, the Nun, and the Radio" is laid in the accident ward of a hospital in Western United States, and so on. Ernest Hemingway made his literary start as a short-story writer. He has always excelled in that medium, and this volume reveals him at his best.

Reflections Walter Benjamin 2019-02-26 The towering twentieth century thinker delve into literature, philosophy, and his own life experience in this "extraordinary collection" (Publishers Weekly). A companion volume to *Illuminations*, the first collection of Walter Benjamin's writings, *Reflections* presents a further sampling of his wide-ranging work. Here Benjamin evolves a theory of language as the medium of all creation, discusses theater and surrealism, reminisces about Berlin in the 1920s, recalls conversations with Bertolt Brecht, and provides travelogues of various cities, including Moscow under Stalin. Benjamin moves seamlessly from literary criticism to autobiography to philosophical-theological speculations, cementing his reputation as one of the greatest and most versatile writers of the twentieth century. "This book is just that: reflections of a highly polished mind that uncannily approximate the century's fragments of shattered traditions." —Time

Hollywood Heroines Helen Hanson 2007-10-24 The endangered and dangerous female figures of "Rebecca", of "Jagged Edge" and "What Lies Beneath" have a deserved and endures fascination. Helen Hanson re-examines these gothic heroines of Hollywood and their meanings, in two of Hollywood's key generic cycles, film noir and the female gothic film. Starting at the beginning, with

the origin of these cycles and the ways in which they represented women in the American film industry and culture of the 1940s, she traces their revival in neo-noir and neo-gothic films from the 1980s to the present. She also places the female figures of the femme fatale, female investigator and gothic heroine within the shifting contexts of the film industry and debates in feminist film criticism. Hanson examines a wide range of films from both periods, including 'Suspicion', 'Gaslight' and 'Pacific Heights', and gives particular attention to their presentation of female stories, actions and perspectives. She reveals a diversity of female figures, representations and actions in film noir and the female gothic film, and argues that these women are part of a negotiation of female identities, desires and roles across a long historical period. "Hollywood Heroines" therefore offers us new ways of thinking about classic and contemporary Hollywood heroines, and about the interrelationships of gender and genre.

The Acari Reinhart Schuster 2012-12-06 During the Inaugural Meeting of the European Association of Acarologists (EURAAC), held in Amsterdam in 1987, it was decided that the holding of a Symposium at regular intervals should be a major objective. Symposium in Austria in 1988. There was strong support for a main theme focused on a particular aspect of acarology. From these discussions there emerged the proposal that emphasis be placed on aspects of reproduction, development and life-history strategies of the Acari. These were topics in the forefront of the discipline with exciting developments of interest not only to acarologists but to a wider audience because of the light they cast on fundamental processes in physiology, ecology and evolutionary biology. The object then was to invite a small number of key workers to present extended papers related to the main theme. There were seven of these all of which appear in the book. The remaining 51 contributions were offered papers a number of which fit within the framework of the Symposium theme.

Zoological Surrealism James Leo Cahill 2019-02-19 An archive-based, in-depth analysis of the surreal nature and science movies of the pioneering French filmmaker Jean Painlevé Before Jacques-Yves Cousteau, there was Jean Painlevé, a pioneering French scientific and nature filmmaker with a Surrealist's eye. Creator of more than two hundred films, his studies of strange animal worlds doubled as critical reimaginations of humanity. With an unerring eye for the uncanny and unexpected, Painlevé and his assistant Geneviève Hamon captured oneiric octopuses, metamorphic crustaceans, erotic seahorses, mythic vampire bats, and insatiable predatory insects. *Zoological Surrealism* draws from Painlevé's early oeuvre to rethink the entangled histories of cinema, Surrealism, and scientific research in interwar France. Delving deeply into Painlevé's archive, James Leo Cahill develops an account of "cinema's Copernican vocation"—how it was used to forge new scientific discoveries while also displacing and critiquing anthropocentric viewpoints. From Painlevé's engagements with Sergei Eisenstein, Georges Franju, and competing Surrealists to the historiographical dimensions of Jean Vigo's concept of social cinema, *Zoological Surrealism* taps never-before-examined sources to offer a completely original

perspective on a cutting-edge filmmaker. The first extensive English-language study of Painlevé's early films and their contexts, it adds important new insight to our understanding of film while also contributing to contemporary investigations of the increasingly surreal landscapes of climate change and ecological emergency.

The Chinese Written Character as a Medium for Poetry Ernest Fenollosa 2009-08-25 First published in 1919 by Ezra Pound, Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics. As edited by Pound, it presents a powerful conception of language that continues to shape our poetic and stylistic preferences: the idea that poems consist primarily of images; the idea that the sentence form with active verb mirrors relations of natural force. But previous editions of the essay represent Pound's understanding—it is fair to say, his appropriation—of the text. Fenollosa's manuscripts, in the Beinecke Library of Yale University, allow us to see this essay in a different light, as a document of early, sustained cultural interchange between North America and East Asia. Pound's editing of the essay obscured two important features, here restored to view: Fenollosa's encounter with Tendai Buddhism and Buddhist ontology, and his concern with the dimension of sound in Chinese poetry. This book is the definitive critical edition of Fenollosa's important work. After a substantial Introduction, the text as edited by Pound is presented, together with his notes and plates. At the heart of the edition is the first full publication of the essay as Fenollosa wrote it, accompanied by the many diagrams, characters, and notes Fenollosa (and Pound) scrawled on the verso pages. Pound's deletions, insertions, and alterations to Fenollosa's sometimes ornate prose are meticulously captured, enabling readers to follow the quasi-dialogue between Fenollosa and his posthumous editor. Earlier drafts and related talks reveal the development of Fenollosa's ideas about culture, poetry, and

translation. Copious multilingual annotation is an important feature of the edition. This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry.

The Loom of Language Frederick Bodmer 1985 Here is an informative introduction to language: its origins in the past, its growth through history, and its present use for communication between peoples. It is at the same time a history of language, a guide to foreign tongues, and a method for learning them. It shows, through basic vocabularies, family resemblances of languages -- Teutonic, Romance, Greek -- helpful tricks of translation, key combinations of roots and phonetic patterns. It presents by common-sense methods the most helpful approach to the mastery of many languages; it condenses vocabulary to a minimum of essential words; it simplifies grammar in an entirely new way; and it teaches a language as it is actually used in everyday life.

Gargantua and Pantagruel, Book 2 (Illustrated Edition)

(Dodo Press) Francois Rabelais 2008-04 Francois Rabelais (1494-1553) was a major French Renaissance writer, doctor and humanist. He is regarded as an avant-garde writer of fantasy, satire, the grotesque, dirty jokes and bawdy songs. As a doctor, he used his spare time to write and publish humorous pamphlets which were critical of established authority and stressed his own perception of individual liberty. His revolutionary works, although satirical, revealed an astute observer of the social and political events unfolding during the first half of the sixteenth century. Using the pseudonym Alcofribas Nasier, he published his first book, Pantagruel, that would be the start of his Gargantua series. Gargantua and Pantagruel tells the story of two giants - a father, Gargantua, and his son, Pantagruel - and their adventures, written in an amusing, extravagant, and satirical vein. His use of his native tongue was astoundingly original, lively, and creative. He introduced dozens of Greek, Latin, and Italian loan-words and direct translations of Greek and Latin compound words and idioms into French. He has influenced many modern writers and scholars. Aleister Crowley's writings heavily borrow from Rabelais themes.

Toward the Critique of Violence Walter Benjamin 2021-06-22

Marking the centenary of Walter Benjamin's immensely

influential essay, "Toward the Critique of Violence," this critical edition presents readers with an altogether new, fully annotated translation of a work that is widely recognized as a classic of modern political theory. The volume includes twenty-one notes and fragments by Benjamin along with passages from all of the contemporaneous texts to which his essay refers. Readers thus encounter for the first time in English provocative arguments about law and violence advanced by Hermann Cohen, Kurt Hiller, Erich Unger, and Emil Lederer. A new translation of selections from Georges Sorel's *Reflections on Violence* further illuminates Benjamin's critical program. The volume also includes, for the first time in any language, a bibliography Benjamin drafted for the expansion of the essay and the development of a corresponding philosophy of law. An extensive introduction and afterword provide additional context. With its challenging argument concerning violence, law, and justice—which addresses such topical matters as police violence, the death penalty, and the ambiguous force of religion—Benjamin's work is as important today as it was upon its publication in Weimar Germany a century ago.

The False Traitor Albert Raimundo Braz 2003-01-01 The nineteenth-century Métis politician and mystic Louis Riel has emerged as one of the most popular - and elusive - figures in Canadian culture. Since his hanging for treason in 1885, the self-declared David of the New World has been depicted variously as a traitor to Confederation; a French-Canadian and Catholic martyr; a bloodthirsty rebel; a pan-American liberator; a pawn of shadowy white forces; a Prairie political maverick; a First Nations hero; an alienated intellectual; a victim of Western industrial progress; and even a Father of Confederation. Albert Braz synthesizes the available material by and about Riel, including film, sculpture, and cartoons, as well as literature in French and English, and analyzes how an historical figure could be portrayed in such contradictory ways. In light of the fact that most aesthetic representations of Riel bear little resemblance not only to one another but also to their purported model, Braz suggests that they reveal less about Riel than they do about their authors and the society to which they belong. The most comprehensive treatment of the representations of Louis Riel in Canadian literature, *The False Traitor* will be a seminal work in the study of this popular Canadian figure.

The Anti-Justine Restif de la Bretonne 2013-10-12 Restif de la Bretonne (1734-1806) was perhaps the key author amongst a glut of imitators inspired by the publication of the Marquis de Sade's "obscene" masterworks Juliette and Justine in the late 18th century. In 1798 Restif wrote his ultra-erotic epic *The Anti-Justine* (or *The Joys of EroS*), thus inaugurating a long tradition of "Sadean literature" that continues to this day. *The Anti-Justine* is a vivid and extreme novelization of Restif's own life and sexual debauches, which the author tried to defend "morally" by declaring his book to be an "antidote" to the supposed poison of de Sade; yet whilst the book opens with a spurious warning to women against cruelty, it soon develops into a monumental odyssey of sexual depravity which often rivals de Sade in its relentless explicitness. This new edition of *THE ANTI-JUSTINE* has been freshly translated by Meredith Head (translator of de Sade's *Philosophy In The Boudoir*), and contains an introductory essay by de Sade's biographer Dr Iwan Bloch.
