**Handbook of Children's Literacy** Terezinha Nunes 2003-12-31 PETER BRYANT & TEREZINHA NUNES The time that it takes children to learn to read varies greatly between different orthographies, as the chapter by Sprenger-Charolles clearly shows, and so do the difficulties that they encounter in learning about their own orthography. Nevertheless most people, who have the chance to learn to read, do in the end read well enough, even though a large number experience some significant difficulties on the way. Most of them eventually become reasonably efficient spellers too, even though they go on make spelling mistakes (at any rate if they are English speakers) for the rest of their lives. So, the majority of humans plainly does have intellectual resources that are needed for reading and writing, but it does not always find these resources easy to marshal. What are these resources? Do any of them have to be acquired? Do different orthographies make quite different demands on the intellect? Do people differ significantly from each other in the strength and accessibility of these resources? If they do, are these differences an important factor in determining children's success in learning to read and write? These are the main questions that the different chapters in this section on Basic Processes set out to answer.

**Hanuman's Tale** Philip Lutgendorf 2007-01-11 Hanuman, the devoted monkey helper of Rama and Sita, has long been recognized as a popular character in India's ancient Ramayana epic. But more recently he has also become one of the most beloved and worshiped gods in the Hindu pantheon - enshrined in majestic new temples, but equally present in poster art, advertising, and mass media. Drawing on Sanskrit and vernacular texts, classical iconography and modern TV serials, and extensive fieldwork and interviews, Philip Lutgendorf challenges the academic cliché of Hanuman as a "minor" or "folk" deity by exploring his complex and growing role in South Asian religion and culture. This wide-ranging study examines the historical evolution of Hanuman's worship, his close association with Shiva and goddesses, his invocation in tantric ritual, his physical immortality and enduring presence in sacred sites, and his appeal to devotees who include scholars, wrestlers, healers, politicians, and middle-class urbanites. Lutgendorf also offers a rich array of entertaining stories not previously available in English: an expanding epic cycle that he christens the "Hanumayana." Arguing that Hanuman's role as cosmic "middle man" is intimately linked to his embodiment in a charming and provocative simian form, Lutgendorf moves beyond the Indian subcontinent to interrogate the wider human fascination with anthropoid primates as boundary beings and as potent signifiers of both Self and Other.

Finally, while "cinema" is in our title, many scholars in this collection see that term as an encompassing one, referencing cinema and media in a convergent digital environment. The lively and dynamic conversations introduced here aspire to sustain further reflection as "queer cinema" shifts into new configurations"--
