The Trauma of Sexual

Assault - Jenny Petrak

2003-07-07

The psycho-social needs of victims of rape and sexual assault are increasingly recognised and there is a need for a critical synthesis of knowledge and practice to support the development of training and best practice in the mental health and sexual health professions. The Trauma of Sexual Assault provides an understanding of the theoretical underpinning of the wide range of clinical problems that can follow sexual assault. Focusing on adult victims of sexual assault, this book brings together research findings, theoretical perspectives and implications for treatment, longer term management, and future policy. * The first text to consider the psychological impact of sexual assault on women and men * Incorporates

a comprehensive flow-through model of psychological and social management from the initial presentation of the assaulted person onwards * A much needed reference, accessible to a wide range of professionals Part of the Wiley Series in Clinical Psychology *Bulletin of the World Health Organization* - World Health Organization 2001

response "This comprehensive and practical handbook will provide a very accessible source of detailed information for everyone in the field of communicable disease control."

Sir Liam Donaldson, Chief Medical Officer (from the foreword) "This handbook will be a valuable resource for all those who are interested in control of communicable disease, including public-health physicians, epidemiologists, infection control nurses, microbiologists and those training to work in these related fields." The Lancet Infectious Diseases "This book fulfils all the needs of a practical handbook, being easy to use and packed with practical information."

Epidemiology and Infection "This would be the first book to reach for in any number of day-to-day or crisis situations in communicable disease control."

British Journal of Infection Control "If you undertake on-call public health duties, just buy the book." Journal of Public Health Medicine

The Family Planning

Association and Contraceptive Science and Technology in Mid-Twentieth-Century Britain -

Natasha Szuhan 2022-08-18

This book offers the first in-depth investigation into the relationship between the National Birth Control Association, later the Family Planning Association, and contraceptive science and technology in the pre-Pill era. It explores the Association's role in designing and supporting scientific research, employment of scientists, engagement with manufacturers and pharmaceutical companies, and use of its facilities, patients, staff, medical, scientific, and political networks to standardise and guarantee contraceptive technology it prescribed and produced. By taking a micro-history approach to the archives of the Association, this book highlights the importance of this organisation to the history of science, technology, and medicine in twentieth-century Britain. It examines the
