China's Great Economic Transformation - Loren Brandt 2008-04-14

This landmark study provides an integrated analysis of China's unexpected economic boom of the past three decades. The authors combine deep China expertise with broad disciplinary knowledge to explain China's remarkable combination of high-speed growth and deeply flawed institutions. Their work exposes the mechanisms underpinning the origin and expansion of China's great boom. Penetrating studies track the rise of Chinese capabilities in manufacturing and in research and development. The editors probe both achievements and weaknesses across many sectors, including China's fiscal, legal, and financial institutions. The book shows how an intricate minuet combining China's political system with sectorial development, globalization, resource transfers across geographic and economic space, and partial system reform delivered an astonishing and unprecedented growth spurt.

Sex, Sexuality, Law, and (In)justice - Henry F. Fradella 2016-02-26

Sex, Sexuality, Law, and (In)Justice covers a wide range of legal issues associated with sexuality, gender, reproduction, and identity. These are critical and sensitive issues that law enforcement and other criminal justice professionals need to understand. The book synthesizes the literature across a wide breadth of perspectives, exposing students to law, psychology, criminal justice, sociology, philosophy, history, and, where relevant, biology, to critically examine the social control of sex, gender, and sexuality across history. Specific federal and state case law and statutes are integrated throughout the book, but the text moves beyond the intersection between law and sexuality to focus just as much on social science as it does on law. This book will be useful in teaching courses in a range of disciplines—especially criminology and criminal justice, history, political science, sociology, women and gender studies, and law.

Wives of Child Molesters Within the Family - Robert R. Hazelwood 2015-03-31

This pioneering volume brings a rarely-studied population--wives and girlfriends of men who molest children--into the clear focus necessary to understand the dynamics of these disturbed families. Details of the study spotlight interview methodology, format, structure, and safety as the subjects provide crucial data--about their partners as well as themselves--typically overlooked by law enforcement and other professionals. Findings clarify or replace popularly held ideas about the psychology of partners of child molesters, and of the abusers themselves, in key areas such as childhood experience of sexual abuse and the construction of elaborate fictions to cover the abuse. In addition, a comparative analysis of findings by American and Dutch researchers provides early possibilities for cross-cultural research. Included in the coverage: The interviewees: developmental and abuse history, relationship with the molester. The molesters: abuse, arrest, and mental health histories. Practical suggestions for conducting interviews. Opportunities for intervention in primary care. Common behaviors of molesters. The involvement of pornography. Child molestation cases are among the most difficult in terms of obtaining information. Taking original steps toward capturing the whole story, *Wives of Child Molesters within the Family* is as significant to law enforcement personnel as it is to mental health professionals dealing with molesters and pedophiles.

Flux - Peggy Orenstein 2000

"In her latest book, Orenstein looks at womanhood and what it means to be a woman at the beginning of this century. After talking to over two hundred women between the ages of twenty-five and forty-five, she has blended their voices into a narrative that allows the reader to "eavesdrop" - to get deep inside the lives and choices of other women - and share their thoughts on ambition and power, the experience of sex and love, the meaning of motherhood, what it means to remain single and childless, and how these things influence the way we assemble the pieces of our lives." "In *Flux*, Orenstein explores the half-changed aspect of today's world and the ways women still struggle to live full lives and to reach a true balance of the personal and professional."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Pedophilia, Hebephilia and Sexual Offending against Children - Klaus M. Beier 2021-03-08

This book provides extensive information on pedophilia (sexual interest in the prepubescent body age), hebephilia (sexual interest in the early-pubescent body age) and sexual offenses against children, i.e., the various forms of child sexual abuse, including the use of child sexual abuse images, along with the current state of knowledge concerning offender groups. The book makes it clear that pedophilia or hebephilia do not inevitably lead to offenses against children - that there are those who keep their desires in their fantasies and do not act them out on the behavioral level. The World Health Organization classifies pedophilia as a mental disorder. It can be safely assumed that many pedophile men in a given community live their lives, unrecognized and adamant about hiding their sexual drives from society and from

themselves, and who are genuinely motivated not to act upon their sexual fantasies. The numbers of exactly this particular group of pedophilically inclined non-offenders can be increased by preventive therapeutic measures. For this purpose, two treatment programs have been developed at the Institute of Sexology and Sexual Medicine at the Charité-Universitätsmedizin Berlin (University Clinic) since the initiation of the Prevention Project Dunkelfeld in 2005 – First, the project involving adult participants (Berlin Dissexuality Therapy: BEDIT) and later, another for adolescents (BEDIT-A), who find themselves attracted to children. Both program manuals are completely integrated into this work, which reflects 15 years of assessment and treatment experience.

Child and Adolescent Development for Educators - Christi Crosby Bergin 2018-09-01

Child and Adolescent Development for Educators covers development from early childhood through high school. This text provides authentic, research-based strategies and guidelines for the classroom, helping future teachers to create an environment that promotes optimal development in children. The authors apply child development concepts to topics of high interest and relevance to teachers, including classroom discipline, constructivism, social-emotional development, and many others. Child and Adolescent Development for Educators combines the core theory with practical implications for educational contexts, and shows how child development links to the Australian Professional Standards for Graduate Teachers. Case studies and real-world vignettes further bridge the distance between research and the classroom. Along with strong coverage of key local research such as the Longitudinal Study of Australian Children and Longitudinal Study of Indigenous children.

Sex and Sexuality in China - Elaine Jeffreys 2007-01-24

Elaine Jeffreys explores the issues of sex and sexuality in a non-Western context by examining debates surrounding the emergence of new sexual behaviours, and the appropriate nature of their regulation, in the People's Republic of China. Commissioned from Western and mainland Chinese scholars of sex and sexuality in China, the chapters in this volume are marked by a diversity of subject material and theoretical perspectives, but turn on three related concerns. First, the book situates China's changing sexual culture and the nature of its governance in the socio-political history of the PRC. Second, it shows how China's shift to a rule of law has generated conflicting conceptions of citizenship and the associated rights of individuals as sexual citizens. Finally, the book demonstrates that the Chinese state does not operate strictly to repress 'sex'; it also is implicated in the creation of new spaces for sexual entrepreneurship, expertise and consumption. This comprehensive study is a valuable resource for scholars in the fields of sexuality studies and post-socialist societies and culture, directly appealing to both East Asia and China specialists.

Preventing the Sexual Victimization of Children - Charles Patrick Ewing 2014

"Preventing the Sexual Victimization of Children is the first book to critically evaluate national and international efforts to reduce child sexual abuse (CSA) and ameliorate its effects. Until now, input from social science and mental health experts has been accepted for the most part uncritically, as have the programs and laws that have been developed in reliance upon that advice. Here Dr. Ewing utilizes empirical data, policy considerations, cost-benefit analyses, psychological theory, legal reasoning, and common sense to undertake the often difficult and sometimes controversial task of distinguishing prevention strategies that are likely to prevent CSA from those that are not."--

Endangered Daughters - Elizabeth Croll 2002-01-04

This unique and groundbreaking book seeks to re-focus gender debate onto the issue of daughter discrimination - a phenomenon still hidden and unacknowledged across the world. It asks the controversial question of why millions of girls do not appear to be surviving to adulthood in contemporary Asia. In the first major study available of this emotive and sensitive issue, Elisabeth Croll investigates the extent of discrimination against female children in Asia and shifts the focus of attention firmly from son-preference to daughter-discrimination. This book brings together demographic data and anthropological field studies to reveal the multiple ways in which girls are disadvantaged, from excessive child mortality to the withholding of health care and education on the basis of gender. Focusing especially on China and India, the book reveals the surprising coincidence of increasing daughter discrimination with rising economic development, declining fertility and the generally improved status of women in East and South Asia. Essential reading for all those interested in gender in contemporary society.
