Vladislav Shapovalov: Image Diplomacy 2021-08-03 This publication documents Vladislav Shapovalov's long-term undertaking 'Image Diplomacy', consisting of a film and a series of installations focused on exhibitions as a political medium. The project narrates the battle waged between two ideological blocs, the USSR and the United States, in the field of 'exhibition diplomacy' during the Cold War and gives insight into the unwritten history of Soviet soft power and socialist internationalism. It compares forgotten archival materials left behind in Europe from Soviet photographic 'kit' exhibitions and films with the American Family of Man exhibition, on display today at Luxembourg's Clervaux Castle and included in the UNESCO Register. Interplays between exhibition histories, geopolitics, and art practice are further examined in the contributions by film scholar Alex Fletcher and curator and researcher Gudrun Ratzinger; a conversation between Shapovalov and curator Emanuele Guidi; and an essay by curator and researcher Andrei Siclodi.00Exhibition: Ar/ge kunst, Bolzano, Italy (02.12.2017-10.02.2018).

The Violent Eye Marcus Paul Bullock 1992 Ernst Jünger embodies the enigma of that catastrophic turn taken by European civilization in German history and culture during the period of the two world wars. This study undertakes more than a critical account of an individual German writer. It examines how the interior explorations of Jünger's writing can be interpreted as the counterpart to those exterior events that determined German national life. Jünger's position as witness to and representative of this century is unique. His long and distinguished career as a writer began in the aftermath of the first World War, sharing its origins with those of German fascism, and has continued through to our own time. The journals, essays, and fiction in which he

comments on the horrors of modernity and postmodernity from the period preceding World War II up to the present are often chilling. Everything on which he reflects is presented simultaneously through its place in a planetary perspective and as the object of the most minute scrutiny. He moves with dizzying rapidity from speculations on the vast movement of history to the fascination of entomology, a field in which he has earned a worldwide reputation. The *Violent Eye* is the first complete critical study in English of Ernst Jünger's writing and his place in the history of German fascist culture. Marcus Paul Bullock has written this book in order to understand the increasing rarity of the right-wing intellectual in our century. Bullock's purpose is not to side with Jünger, nor to seek to justify his position. He does not aim to salvage Jünger's reputation, but to clear a way to the real significance of his writing. His study attempts to derive an understanding of history from Jünger's work according to values entirely distinct from Jünger's own.

Living Glimmering Lying Botho Strauss 1999 Stories on disenchanted urbanites searching for meaning in their lives. In one story, after many failed love affairs a woman inserts herself back into the life of her first love, even though he is married. By a German writer.

A Dubious Past Elliot Yale Neaman 1999 A Dubious Past deepens our understanding of a talented and troubling writer. An important and most valuable study, this book contains a great deal of new material and much trenchant interpretation. Neaman explores uncharted territory in German and European intellectual history and makes an important contribution to ongoing efforts to map its continuities and discontinuities before and after 1945."-- Jeffrey Herf, Ohio University

Tidings in the Trees Wolfgang Hilbig 2018-06-12 Where once was a beautiful wood now stands a desolate field smothered in ash and garbage, and here a young man named Waller has terrorizing encounters with grotesque figures named "the garbagemen." As Waller becomes fascinated with these desperate men who eke out a survival by rooting through their nation's waste, he imagines they are also digging through its past as their government erases its history and walls itself off from the outside world. One of celebrated East German author Wolfgang Hilbig's most accessible and resonant works, *The Tidings of the Trees* is about the politics that rip us apart, the stories we tell for survival, and the absolute importance of words to nations and people. Featuring some of Hilbig's most striking, poetic, and powerful images, this flawless novella perfectly balances politics and literature.

The Interpreter Natascha Wodin 1986

33 Moments of Happiness Ingo Schulze 2013-09-12 Each episode in this dazzling debut collection captures the spark in some tiny detail of everyday life in contemporary St Petersburg and fans it into a story that flares with comedy, surreal passion, heartbreaking indifference and mad Russian excess. There's a Mafia shoot-out in a disco, as told by a gun-toting Walter Mitty simultaneously thrilled and horrified by the carnage he is creating. There are three devils who appear for an evening at the steam bath, their revelries ending in cannibalism - or is the watching manager just mad? These are sad, whimsical, macabre, bleakly funny stories, all told in a playful and voluptuous prose that is itself a homage to the great Russian masters whom Schulze is honouring - from Gogol to Pasternak, from Chekhov to Nabokov.

Ernst Jünger and Germany Thomas R. Nevin 1996 For most of his life, Ernst Jünger, one of Europe's leading twentieth-century writers, has been controversial. Renowned as a soldier who wrote of his experience in the First World War, he has maintained a remarkable writing career that has spanned five periods of modern German history. In this first comprehensive study of Jünger in English, Thomas R. Nevin focuses on the writer's first

fifty years, from the late Wilhelmine era of the Kaiser to the end of Hitler's Third Reich. By addressing the controversies and contradictions of Jünger, a man who has been extolled, despised, denounced, and admired throughout his lifetime, Ernst Jünger and Germany also opens an uncommon view on the nation that is, if uncomfortably, represented by him. Ernst Jünger is in many ways Germany's conscience, and much of the controversy surrounding him is at its source measured by his relation to the Nazis and Nazi culture. But as Nevin suggests, Jünger can more specifically and properly be regarded as the still living conscience of a Germany that existed before Hitler. Although his memoir of service as a highly decorated lieutenant in World War I made him a hero to the Nazis, he refused to join the party. A severe critic of the Weimar Republic, he has often been denounced as a fascist who prepared the way for the Reich, but in 1939 he published a parable attacking despotism. Close to the men who plotted Hitler's assassination in 1944, he narrowly escaped prosecution and death. Drawing largely on Jünger's untranslated work, much of which has never been reprinted in Germany, Nevin reveals Jünger's profound ambiguities and examines both his participation in and resistance to authoritarianism and the cult of technology in the contexts of his Wilhelmine upbringing, the chaos of Weimar, and the sinister culture of Nazism. Winner of Germany's highest literary awards, Ernst Jünger is regularly disparaged in the German press. His writings, as this book indicates, put him at an unimpeachable remove from the Nazis, but neo-Nazi rightists in Germany have rushed to embrace him. Neither apology, whitewash, nor vilification, Ernst Jünger and Germany is an assessment of the complex evolution of a man whose work and nature has been viewed as both inspiration and threat.

treacherous stretch of the Western Front. In Copes 125, Jünger chronicles the deadlocked positions of battle located in an "isolated little patch of wood" during the last year of the war. Along with his later recollections of the event, Jünger also shares his ruminations concerning the material and spiritual implications of the front line warrior. This is a new English translation of *Das Wäldchen 125*, published by E.S. Mittler & Son, Berlin, Germany, 1925.

The Sailor's Return David Garnett 2021-09-28 *The Sailor's Return* (1925) is a novel by David Garnett. Published several years after Garnett was awarded the James Tait Black Memorial Prize and the Hawthornden Prize for *Lady into Fox* (1922), his fourth novel explores themes of race and empire while showcasing the author's original—and often controversial—literary style. "He was in no hurry to go ashore, and waited half an hour for the confusion to be straightened out on board, and the turmoil to subside on land, before he motioned to the young negro who accompanied him to bear a hand with a large basket of woven grass." Arriving home in Dorset, England aboard the Duke of Kent, mariner William Targett brings a young African woman and child with him. Soon, the hostile townspeople discover that the woman is not only William's wife, but that he is the father of her child. Despite their love, despite their attempts to live peacefully, the racist attitudes of Targett's countrymen make it impossible to live safely in England, and soon lead to unspeakable tragedy. With a beautifully designed cover and professionally typeset manuscript, this edition of David Garnett's *The Sailor's Return* is a classic work of British literature reimagined for modern readers.

Visit to Godenholm Ernst Jünger 2022-02-13 *Visit to Godenholm* (German: *Besuch auf Godenholm*) is a 1952 novella by the German writer Ernst Jünger. imagery. "The light began to crackle, a blue thread rose from the edge of the candelabra. Moltner looked at it first with amazement, then with delight, as if his eyes had gained a new power. Honey-scented smoke rose from thin wicks and then branched out into delicate wreaths. It was as if his imagination had created it - a tapestry of pale sea lilies in a depth that barely rippled with the surge of the waves. Time activated in the structure - encircled it, twisted and curved it, as if imaginary coins were being quickly stacked on top of one another. The multiplicity of space was revealed in the fibrous net, in the nerves stretching the thread in infinite numbers and unfurling vertically."

Magdalena the Sinner Lilian Faschinger 1997-09-05 Written with pace, humor and startling literary allusion, Lilian Faschinger's novel is the story of the sensual Magdalena, who, disguised in a nun's habit, kidnaps a priest at gunpoint and drives him in the sidecar of her Puch motorbike to a remote forest clearing where she ties him to a tree. What she is about to confess to him is profoundly shocking: All Magdalena wanted was to find true love. What she found instead was a string of lovers who each made the fatal mistake of disappointing her. From a Latin dance instructor who uses a metronome to help him keep his rhythm in bed to a Ukrainian who plays mental chess games at the gravesite of former grandmaster Alexander Alekhine, Magdalena's men all lost their lives when they no longer satisfied her; perishing by her hand through poison, drowning and incineration. A head-on collision between Church and sex, *Magdalena the Sinner* interweaves highly charged erotica with modern views on Catholicism, feminism and the tensions between men and women.
