Children's Testimony - Helen L. Westcott
2003-11-14

Children's Testimony offers a comprehensive and up-to-date assessment of issues relating to children's evidence. Starting with psychological underpinnings and child protection considerations, the reader is taken through a clearly structured and timely collection of chapters from internationally renowned contributors. Pointers for practitioners are clearly highlighted throughout and a unique, jargon-free glossary of psychological terms encountered in child witness research is included making this a highly practical text. * An accessible review of existing knowledge and preview of new and recent developments in psychological research and forensic practice * An outstanding group of international contributors * Offers a broad scope that considers all the key areas of research and practice

Basic Legal Research for Criminal Justice and the Social Sciences - James R. Acker 1998

This essential primer on legal research is written specifically for criminal justice and social sciences students. The book's basic, how-to approach makes it suitable not only as a guiding text for research courses, but also as a key supplementary text for courses in which legal research is a secondary requirement. Stripped of the cumbersome information found in similar texts for legal students, this slim essentials book gives criminal justice and social sciences students the tools they need for successful research.

Preparing Children for Court - Lynn M. Copen
2000-07-18

Preparing Children for Court and its accompanying workbooks will aid social workers, court educators, victim/witness specialists, law enforcement, therapists, and attorneys help children enter the justice system,

understand the necessary elements of court rules and structure, and feel confident enough to testify truthfully. Finding Your Way This brief-easy-to-understand book explains what happens when a child discloses abuse and how various systems may respond to this disclosure, from investigation through prosecution or juvenile court involvement to therapy. Getting Ready for Court: Criminal Court Edition A fun, friendly first step in helping prepare primary-aged children to testify in criminal cases involving abuse. Getting Ready for court: Civil court Edition This child-friendly book is a first step in helping prepare primary aged children to testify in civil cases involving abuse.

Child Abuse: Victim as witness - Byrgen Finkelmann 1995

When the Victim Is a Child - Debra Whitcomb
1994-03

Psychology and Law - Andreas Kapardis

2009-12-21

Fully revised and expanded, this third edition of *Psychology and Law: A Critical Introduction* is a discussion of contemporary debates at the interface between psychology and criminal law. Features new sections on restorative justice, police prejudice and discrimination, terrorism and profiling offenders. Other topics include critiques of eyewitness testimony, the role of the jury, sentencing as a human process, the psychologist as expert witness, persuasion in the courtroom, detecting deception, and psychology and the police. Each chapter is supported by case studies and further reading. Andreas Kapardis draws on sources from Europe, North America and Australia to provide an expert investigation of the subjectivity and human fallibility inherent in our systems of justice. He suggests ways for minimising undesirable influences on crucial judicial decision-making. International and broad-ranging, this book is the authoritative work on psycho-legal enquiry for students and professionals in psychology, law, criminology, social work and law enforcement. Children Today - 1993

Childhood Sexual Assault Victims - Jodi A. Quas 2005-06-10

"Describes the first systematic, longitudinal investigation of the long-term outcomes for adolescents and young adults who were involved in criminal court prosecutions as child sexual abuse victims ... Testifying repeatedly, especially in cases involving severe abuse, continued to predict adverse mental health consequences over time ... Children's developmental level at the time of the legal case also played an important role in predicting long-term outcomes. Overall, findings highlight the need to consider multiple factors when assessing consequences of legal involvement on child victims"--Back cover.

Beliefs and Expectancies in Legal Decision Making - Bradley D. McAuliff 2016-02-26

Beliefs and expectancies influence our everyday thoughts, feelings, and actions. These attributes make a closer examination of beliefs and expectancies worthwhile in any context, but particularly so within the high-stakes arena of the legal system. Whether the decision maker is a police officer assessing the truthfulness of an alibi, a juror evaluating the accuracy of an

eyewitness identification, an attorney arguing a case involving a juvenile offender, or a judge deciding whether to terminate parental rights—these decisions matter and without doubt are influenced by beliefs and expectancies. This volume is comprised of research on beliefs and expectancies regarding alibis, children's behaviour while testifying, eyewitness testimony, confessions, sexual assault victims, judges' decisions in child protection cases, and attorneys' beliefs about jurors' perceptions of juvenile offender culpability. Areas for future research are identified, and readers are encouraged to discover new ways that beliefs and expectancies operate in the legal system. This book was originally published as a special issue of *Psychology, Crime & Law*.

Forensic Psychology - Graham M. Davies 2012-04-23

Forensic Psychology is essential reading for all undergraduate courses in forensic psychology and an excellent introduction for more detailed postgraduate courses. Expert authors cover every aspect of forensic psychology, from understanding criminal behaviour, to applying psychological theory to criminal investigation, to analysis of the legal process and the roles of witnesses, to the treatment of offenders.

Children as Victims, Witnesses, and Offenders - Bette L. Bottoms 2009-08-10

Grounded in the latest clinical and developmental knowledge, this book brings

together leading authorities to examine the critical issues that arise when children and adolescents become involved in the justice system. Chapters explore young people's capacities, competencies, and special vulnerabilities as victims, witnesses, and defendants. Key topics include the reliability of children's abuse disclosures, eyewitness testimony, interviews, and confessions; the evolving role of the expert witness; the psychological impact of trauma and of legal involvement; factors that shape jurors' perceptions of children; and what works in rehabilitating juvenile offenders. Policies and practices that are not supported by science are identified, and approaches to improving them are discussed.

Mental Disorder and Criminal Law - Robert Schopp 2008-10-09

expands traditional inquiry regarding the significance of psychopathology in the criminal process to include blameworthiness for sentencing, criminal competence at various stages in the process, and dangerousness pairs legal analysis with empirical research in order to promote integration of these two aspects of relevant inquiry addresses a wide range of participants in the legal, clinical, and academic disciplines

Taking Psychology and Law into the Twenty-First Century - James R.P. Ogloff 2006-04-11

Memory and Sexual Misconduct - Joanna

Pozzulo 2020-04-29

Memory and Sexual Misconduct: Psychological Research for Criminal Justice investigates the veracity of memories of sexual misconduct and the factors that may influence accurate recall, and fundamentally assesses whether psychological science can help the criminal justice system in determining which accusations are likely to be accurate, and which are not. In recent years, the public has been inundated with announcements of sexual assault allegations, in particular against public figures like politicians, businessmen, movie moguls, and professional athletes. Many of these accusations concern events that occurred several years prior to their announcements and trials. Drawing upon a compilation of real-life sexual assault cases and psychological science on recall and sexual trauma, this book provides an analysis of memory reports of sexual misconduct, including inappropriate comments, behaviors, harassment, and assault. It compares these memories with other types of memory, such as flashbulb memories, co-witness conformity memory, and autobiographical memory. Memory and Sexual Misconduct helps readers interpret the role of emotion, the level of detail, and the possible distinction between someone remembering a past event and believing the past event occurred. By providing a thorough evaluation of the likelihood that misconduct memories are accurate and investigating factors that affect this accuracy, Memory and Sexual Misconduct is an invaluable text to both the criminal justice system and the general public, particularly as sexual misconduct allegations of past events continue to come to light.
