Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Waging War with Knowledge Onyechi Daniel 2013-02-14 As the war against Satan and his agents rages on, he has developed new methods of resistance. The devil and his evil forces now blend into the natural features of the environment, the art, culture and into different aspects of society's life; making it more difficult for the church to spot him and root him out. Knowledge now becomes a decisive factor in spiritual warfare! The Bible shows clearly that the people of God are either in captivity or destroyed for lack of knowledge (please see Isaiah 5:13 and Hosea 4:6). This book teaches the modern and advanced spiritual warfare strategies of Spiritual Geography, Spiritual Mapping, Prophetic Prayers, Prophetic Action, etc. However the author recognizes that it is the believer that is largely delivered that can deliver people and places while applying these principles. This

book therefore offers deliverance to the would-be deliverer; showing how to identify and deal with family and environmental curses, etc. This book has been selected as a Bible School textbook and is blessing people in different nations in five continents of the world. You must read it and begin to wage war with knowledge!!!

Unbinding the Heart Agapi Stassinopoulos 2013-05-01 *Unbinding the Heart* invites us on an inspiring journey of inner exploration to reconnect with our true selves. Born in Greece, a country that celebrates life, Agapi Stassinopoulos learned the essential truths of happiness through the examples of wisdom, caring, playfulness, and generosity she saw all around her, starting with her own mother. She came to realize that we are all born with open hearts, but that we quickly learn to put conditions on our happiness—comparing ourselves to others, casting judgment, doubting ourselves, allowing fear or entitlement or self-righteousness to take hold—and slowly our hearts begin to close. We isolate ourselves, feeling alone, disconnected, and unheard; and in doing so, we immobilize our spirit, stifle our authentic expression, and cut off our joy. As she went on, Agapi, like so many of us, came under the soul-constricting influences of the larger world. In her struggle to find her place and her voice, trying to balance the acting career she dreamed of with the spiritual life she longed for, she discovered a path that was uniquely hers. *Unbinding the Heart* shows how she found her way home to herself. In 32 personal, heartfelt stories full of insight and humor, Agapi takes us from her mother's bountiful kitchen, where the seeds of fearless living were planted, to the London classical stage, to an epiphany on a New York City bus—and inspires us with the confidence to let go of the beliefs that bind us and come to a deeper understanding of life and love.

Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Affective Trajectories Hansjörg Dilger 2020-02-28 The contributors to *Affective Trajectories* examine the mutual and highly complex entwinements between religion and affect in urban Africa in the early twenty-first century. Drawing on ethnographic research throughout the continent and in African diasporic communities abroad, they trace the myriad ways religious ideas, practices, and materialities interact with affect to configure life in urban spaces. Whether examining the affective force of the built urban environment or how religious practices contribute to new forms of attachment, identification, and place-making, they illustrate the force of affect as it is shaped by temporality and spatiality in the religious lives of individuals and communities. Among other topics, they explore Masowe Apostolic Christianity in relation to experiences of displacement in Harare, Zimbabwe; Muslim identity, belonging, and the global ummah in Ghana; crime, emotions, and conversion to neo-Pentecostalism in Cape Town; and spiritual cleansing in a Congolese branch of a Japanese religious movement. In so doing, the contributors demonstrate how the social and material living conditions of African cities generate diverse affective forms of religious experiences in ways that foster both localized and transnational paths of emotional knowledge. Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Think Like a Monk Jay Shetty 2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

The Palgrave International Handbook of Women and Outdoor Learning Tonia Gray 2018-05-24 This Handbook serves as a starting point for critical analysis and discourse about the status of women in outdoor learning environments (OLEs). Women choose to participate actively in outdoors careers, many believing the profession is a level playing field and that it offers alternatives to traditional sporting activities. They enter outdoor learning primarily on the strength of their enthusiasm for leading and teaching in natural environments and assume the field is inclusive, rewarding excellence regardless of age, gender, socioeconomic status, disability, or ethnicity. However, both research and collective experiences in OLEs suggest that many women feel invisible, relegated, marginalized, and undervalued. In response to this marginalization, this Handbook celebrates the richness of knowledge and practices of women practitioners in OLEs. Women scholars and practitioners from numerous fields, such as experiential outdoor education, adventure education, adventure therapy, and gender studies, explore the implications of their research and practice using poignant examples within their own disciplines. These insights emerge from similar life experiences as women and outdoor leaders in the 1970s to the present. Social inequalities still abound in OLEs, and the Handbook ensures that the contributions of women are highlighted as well as the work that needs to be done to make these spaces inclusive. Global in perspective and capacious in content, this one-stop volume is an indispensable reference resource for a diverse range of academics, including students and researchers in the fields of education, psychology, sociology, gender studies, geography, and environment studies, as well as the many outdoors fields.

Feminist Theory bell hooks 2014-10-03 When *Feminist Theory: From Margin to Center* was first published in 1984, it was welcomed and praised by feminist thinkers who wanted a new vision. Even so, individual readers frequently found the theory "unsettling" or "provocative." Today, the blueprint for feminist movement presented in the book remains as provocative and relevant as ever. Written in hooks's characteristic direct style, *Feminist Theory* embodies the hope that feminists can find a common language to spread the word and create a mass, global feminist movement.
