In H.P. Lovecraft's, "The Dunwich Horror", we are told the story of Wilbur Whateley, the son of a deformed albino mother and an unknown father (alluded to in passing by the mad Old Whateley as "Yog-Sothoth"), and the strange events surrounding his birth and precocious development. Wilbur matures at an abnormal rate, reaching manhood within a decade. All the while, his sorcerer grandfather indoctrinates him into certain dark rituals and the study of witchcraft.

*The Night Ocean* - Paul La Farge 2018-04-03

From the award-winning author and New Yorker contributor, a riveting novel about secrets and scandals, psychiatry and pulp fiction, inspired by the lives of H.P. Lovecraft and his circle. Marina Willett, M.D., has a problem. Her husband, Charlie, has become obsessed with H.P. Lovecraft, in particular with one episode in the legendary horror writer's life: In the summer of 1934, the "old gent" lived for two months with a gay teenage fan named Robert Barlow, at Barlow's family home in central Florida. What were the two of them up to? Were they friends--or something more? Just when Charlie thinks he's solved the puzzle, a new scandal erupts, and he disappears. The police say it's suicide. Marina is a psychiatrist, and she doesn't believe them. A tour-de-force of storytelling, *The Night Ocean* follows the lives of some extraordinary people: Lovecraft, the most influential American horror writer of the 20th century, whose stories continue to win new acolytes, even as his racist views provoke new critics; Barlow, a seminal scholar of Mexican culture who killed himself after being blackmailed for his homosexuality (and who collaborated with Lovecraft on the beautiful story "The Night Ocean"); his student, future Beat writer William S. Burroughs; and L.C. Spinks, a kindly Canadian appliance salesman and science-fiction fan -- the only person who knows the origins of *The Erotonomicon*, purported to be the intimate diary of Lovecraft himself. As a heartbroken Marina follows her missing husband's trail in an attempt to learn the truth, the novel moves across the decades and along the length of the continent, from a remote Ontario town, through New York and Florida to Mexico City. *The Night Ocean* is about love and deception -- about the way that stories earn our trust, and betray it.

*Bloodcurdling Tales of Horror and the Macabre: The Best of H. P. Lovecraft* - H. P. Lovecraft 1987-05-12

"H.P. Lovecraft has yet to be surpassed as the twentieth century's greatest practitioner of the classic horror tale."—Stephen King "The oldest and strongest emotion of mankind is fear, and the oldest and strongest kind of fear is fear of the unknown."—H.P. Lovecraft This is the collection that true fans of horror fiction must have: sixteen of H.P. Lovecraft's most horrifying visions, including: *The Call of Cthulu*: The first story in the infamous Cthulhu mythos—a creature spawned in the stars brings a menace of unimaginable evil to threaten all mankind. *The Dunwich Horror*: An evil man's desire to perform an unspeakable ritual leads him in search of the fabled text of *The Necronomicon*. *The Colour Out of Space*: A horror from the skies—far worse than any nuclear fallout—transforms a man into a monster. *The Shadow Over Innsmouth*: Rising from the depths of the sea, an unspeakable horror engulfs a quiet New England town. Plus twelve more terrifying tales!

**Lovecraft, a Study in the Fantastic** - Maurice Lévy 1988

Maurice L'vy's book is a penetrating analysis of the themes running through the works of H. P. Lovecraft,

the writer of horror and supernatural fiction. Broader than a thematic study, however, L'vy's analysis is unique in his use of Lovecraft's work as a model for fantastic writing in general and in his provocative theory as to why Lovecraft wrote the sort of works he did. At an early age, Lovecraft sloughed off all religious belief and came to adopt a bleak and nihilistic philosophy where humans have no importance in the cosmos but to serve as the playthings of incomprehensible and uncaring forces. L'vy sees Lovecraft's works as an attempt to purge himself of these feelings and to give himself a reason to love in a universe that cares nothing for him or for other human beings in general. It is this view of Lovecraft the writer, the thinker, and the man that sets L'vy's work apart from any Lovecraft criticism.

[Tales of H. P. Lovecraft](#) - Joyce Carol Oates 2007-09-18

When he died in 1937, destitute and emotionally as well as physically ruined, H. P. Lovecraft had no idea that he would one day be celebrated as the godfather of modern horror. A dark visionary, his work would influence an entire generation of writers, including Stephen King, Clive Barker, Neil Gaiman, and Anne Rice. Now, the most important tales of this distinctive American storyteller have been collected in a single volume by National Book Award-winning author Joyce Carol Oates. In tales that combine the nineteenth-century gothic sensibility of Edgar Allan Poe with a uniquely daring internal vision, Lovecraft fuses the supernatural and mundane into a terrifying, complex, and exquisitely realized vision, foretelling a psychically troubled century to come. Set in a meticulously described New England landscape, here are harrowing stories that explore the total collapse of sanity beneath the weight of chaotic events—stories of myth and madness that release monsters into our world. Lovecraft's universe is a frightening shadow world where reality and nightmare intertwine, and redemption can come only from below.

[The Night Land](#) - William Hope Hodgson 2019-11-20

'The Night Land' is a horror-fantasy novel by English writer William Hope Hodgson. As a work of fantasy it belongs to the Dying Earth subgenre. The beginning of the book establishes the framework in which a 17th-century gentleman, mourning the death of his beloved, Lady Mirdath, is given a vision of a far-distant future where their souls will be reunited, and sees the world of that time through the eyes of a future incarnation.

[Claimed](#) - Francis Stevens 2015-07-12

*Claimed* opens with the recovery of a mysterious artifact, a strange box bearing an undecipherable inscription, from an uncharted island following an undersea volcanic explosion that nearly dooms the ship that discovers it. Brought back to civilization, the box is purchased by a crotchety old millionaire who quickly comes to regret it. Horrible apparitions of the sea appear at night and frightening dreams plague the old man, his niece and the young doctor who's serving him. While the doctor does what he can to learn of the box's origin and the meaning of the strange writing, the nonstop macabre visions, and occasional deaths, that have appeared in the box's wake eventually lead to the abduction of the old man and his niece by persons unknown. In pursuit of his employer across the high seas, the doctor learns of the box's evil origins from the mad sailor who originally found it. ""One of the strangest and most compelling science fantasy novels you will ever read""

[H. P. Lovecraft's Book of the Supernatural: 20 Classic Tales of the Macabre, Chosen by the Master of Horror Himself](#) - Stephen Jones 2006-08-01

"The reader would do well to remember that it is Lovecraft's shadow which overlies almost all of the important horror fiction."—Stephen King Written by arguably the most important horror writer of the twentieth century, H. P. Lovecraft's 1927 essay "Supernatural Horror in Literature" traces the evolution of the genre from the early Gothic novels to the work of contemporary American and British authors. Throughout, Lovecraft acknowledges those authors and stories that he feels are the very finest the horror field has to offer: Washington Irving, Edgar Allan Poe, Henry James, Rudyard Kipling, Bram Stoker, Robert Louis Stevenson, Guy de Maupassant, Ambrose Bierce, and Arthur Conan Doyle, each prefaced by Lovecraft's own opinions and insights in their work. This chilling collection also contains Henry James' wonderfully atmospheric short novel The Turn of the Screw. For every fan of modern horror, here is an opportunity to rediscover the origins of the genre with some of most terrifying stories ever imagined.
