In the World Library of
Educationalists series,
international experts compile
career-long collections of what
they judge to be their finest
pieces - extracts from books,
key article, salient research
findings, major theoretical and
practical contributions - so the
world can read them in a single
manageable volume. Readers
will be able to follow the
themes and strands and see
how their work contributes to
the development of the field.
Carl A. Grant has spent the last
35 years researching, teaching,
thinking and writing about
some of the key enduring
issues in multicultural
education. He has contributed

articles, and is former President of the National Association for Multicultural Education. In his selected works, Carl Grant brings together 14 of his key writings in one place. Starting with a specially written Introduction, which gives an overview of his career and contextualises his selection within the development of the field, the book is divided into three parts: - Race and Educational Equity - Theorizing Multicultural Education - Multicultural Teacher Education. This book not only shows how Carl Grant's thinking developed during his long and distinguished career, it also gives an insight into the development of the fields to which he contributed.

Of all mankind's vices, racism

is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time, but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes.
