Breakup Games - Matthew Leonard 2023-02-17

When we find love, we typically think it will endure a lifetime. Every time we meet someone new, we pray that this will be the one and that nothing will ever come between us. However, these things may and do occur, and relationships do end. In terms of only divorces, data suggests a rate of roughly 50%. (although measuring divorce rates is more complex than comparing marriages to divorces in a single year).¹ It is also more difficult to acquire rates on dissolving casual and common law partnerships since they are not as thoroughly tracked. There is no one cause for a relationship's demise. There are many reasons to terminate a relationship with someone you care about, but conflict is one of the most typical ones. To deal with this situation, you must acquire the skills necessary to end a romantic relationship with someone you care

about. It's never simple to say goodbye to someone you care about. With any hope, all it will take to end the relationship is a quick chat. An actual connection, however, is often far more intricate. There's a good chance you'll either be roommates or at least social acquaintances at your shared workplace. There are always ways to make things easier, no matter what you're going through. When you feel like you're not connecting with someone the way you used to, or if you want to pursue interests outside of your relationship that your partner doesn't share, it may be wise to let them know that you've chosen to go. Admit it: breakups stink. In some cases, going it alone is the best option, but in others, you may need the guidance of an expert who can provide you with the skills necessary to gracefully end the relationship. If you're considering ending your relationship with someone you care about, stop and think about it. Think long and hard about why you want to terminate the connection with that special

someone. Check to see whether this is a problem you're willing or able to solve. Disappointments in a relationship are sometimes surmountable with open dialogue. The problems you're having might be resolved via communication, compromise, or even marital therapy. It's important to have a clear understanding of why you want to give up if that's what you decide to do. As a result, you won't repeat the same patterns in your next relationship. Gaining clarity on why you're breaking up with your partner may take some time, but doing it with certainty will make the process much less difficult. It's natural to want to focus on the emotional aftermath of a breakup rather than the rationale behind it when you're trying to move on from a significant other. But before you really do anything, you need figure out why you feel like it's time to move on. You may wish to end your relationship with your significant other for several reasons, including infidelity, mental illness, or just because you are dissatisfied in

your current relationship. Whatever the case may be, a professional counselor can help you get to the bottom of your feelings about the relationship, the reasons you want to end it, and the best way to go about ending it. While it's never easy to end a relationship, it may be lot less painful if you get some advice from someone who really cares.

Success Is the Best Revenge If you feel wronged by your ex, learning to forgive them and yourself is the ultimate goal. No, forgiveness doesn't mean that you condone what they did to harm you. What it actually means is that you no longer have to be burdened by that

hurt. Until you forgive them, they'll be occupying space in your mind period. Don't let them live in your head rent-free like that! They're taking up space that you could devote to something nourishing like your friendships or getting to know someone new. Let yourself have whatever feelings you do and try to let them move through you. It's normal to feel angry or depressed or hopeless at times. When the feelings come, see if you can feel them and move on. It's healthy and normal to have big feelings after a breakup. When you're ready, open yourself up to new relationships. It may take a bit of time or it may not. It can sometimes be a mistake to get into another relationship immediately following a breakup. But we won't judge! You shouldn't feel bad for looking for another partner right away nor should you feel pressured into entering another relationship before you're ready.

'HOW TO FIX A BROKEN HEART PROVIDES THE VALIDATION, COMFORT AND HOPE ANYONE WHO IS HEARTBROKEN DESPERATELY NEEDS.' ESTHER PEREL, BESTSELLING AUTHOR OF THE STATE OF AFFAIRS AND MATING IN CAPTIVITY Every one of us has or will have our heart broken at some point in our lives. Heartbreak, whether it comes in the form of romantic love or through loss, is universal, yet we know so little about

how to deal with it. Psychologist Dr Guy Winch imagines how different our lives and our society would be if we paid more attention to this unique emotional pain. Heartbreak can last for days, weeks, months and even years. Yet while we wouldn't expect someone to go to work or function well with a broken limb, heartbroken people are expected to function in their lives, despite the emotional pain they feel. How to Fix a Broken Heart argues that if we don't understand how heartbreak works, we won't be able to heal it and we are likely to make it worse, which we do, and regularly. Dr Winch reveals how and why heartbreak impacts our brain and our behaviour in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve and to function. Recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the

path to healing. Dr Winch offers a toolkit on how to handle and cope with a broken heart and how to, eventually, move on. 'It should be on every bookshelf.' John Gottman, author of *The Seven Principles for Making Marriage Work* _____ What if everything you thought you knew about your relationship was wrong? We all have faulty thinking when it comes to our closest relationships. Our default ways of thinking about love can blind us to what is good (and bad), lead us to find problems where they don't exist, and potentially sabotage even a great relationship. To prove it, and because it's fun, here's a pop quiz. True or False: - It's wrong to be selfish in a relationship. - If we're not having a lot of sex, we're not in love. - Men aren't as romantic as women. - It's better to

hold back and not argue about it. - You should never give up looking for your soulmate. *Stronger Than You Think* presents a refreshing and eye-opening new take on the relationship genre and gives readers a guided tour of the most common blind spots that plague relationships at all the major friction points. Blind spots are the key questions you aren't asking, the signals you're missing, the signs you aren't seeing, qualities that you're overvaluing, or the indicators you're misinterpreting. Award-winning professor, psychologist, and relationship scientist Dr Gary Lewandowski leverages his 20 years of experience to provide readers with a way out of this self-sabotage in this eye-opening look at their relationship's good side.
