"Why We Drop Out" Deborah L. Feldman 2017 Through engaging stories and the use of students' voices, this book corrects persistent misconceptions about youth who drop out of high school. Based on research conducted with high school dropouts in both urban and rural communities, the authors argue that, contrary to popular belief, most dropouts are not disengaged from school at an early age. Many have positive memories of their education, both social and academic, that educators and policymakers can draw on to create successful prevention and intervention practices. The narratives and insights presented here will help readers to better understand the interplay of school-related and personal factors that lead students to drop out of school. "Why We Drop Out" is essential reading for K-12 educators, school principals, counselors, psychologists, and everyone concerned with our nation's dropout crisis. "Every educator will recognize in these stories the daily opportunities that adults have to reach out and grab onto kids who are desperate for a hand and just need someone to pull them over that line." —From the Foreword by Camille A. Farrington, PhD, author of *Failing at School: Lessons for Redesigning Urban High Schools* "This book greatly improves our understanding of the complex and long-term process of dropping out of high school." —Russell W. Rumberger, UC Santa Barbara, director, California Dropout Research Project "A must-read for any teacher, principal, or superintendent interested in changing the lives of our students most at risk." —Greg Baker, superintendent, Bellingham Public Schools "This is a book that everyone with a stake in education must read!" —Dr. Shivohn Garcia, SUNY Empire State College

The Craft of the Cocktail Dale DeGroff 2010-07-14 The first real cookbook for cocktails, featuring 500 recipes from the world's premier mixologist, Dale DeGroff. Covering the entire breadth of this rich subject, *The Craft of the Cocktail* provides much more than merely the same old recipes: it delves into history, personalities, and anecdotes; it shows you how to set up a bar, master important techniques, and use tools correctly; and it delivers unique concoctions, many featuring DeGroff's signature use of fresh juices, as well as all the classics. It begins with the history of spirits, how they're made (but without too much boring science), the development of the mixed drink, and the culture it created, all drawn from DeGroff's vast library of vintage cocktail books. Then on to stocking the essential bar, choosing the right tools and ingredients, and mastering key techniques—the same information that DeGroff shares with the bartenders he trains in seminars and through his videos. And then the meat of the matter: 500 recipes, including everything from tried-and-true classics to of-the-moment originals. Throughout are rich stories, vintage recipes, fast facts, and other entertaining asides. Beautiful color photographs and a striking design round out the cookbook approach to this subject, highlighting the difference between an under-the-bar handbook and a stylish, full-blown treatment. *The Craft of the Cocktail* is that treatment, destined to become the bible of the bar.

The Change Teyla Branton 2014-05-20 No Second Chances. Death, Life, or Love—Unbounded Always Play for Keeps. There are only two ways to kill Unbounded, and fire isn’t one of them—as law school dropout Erin Radkey learns the hard way. By fluke of a recessive gene, she has become Unbounded, a nearly immortal being with paranormal abilities. Erin’s Change separates her from her loved ones and alters everything she believes to be true. A week earlier she was considering a marriage proposal; now she contemplates the best way to stay alive. Caught in a battle between two Unbounded groups, the Emporium and the Renegades, she is also hunted by a secret mortal society sworn to eradicate the Unbounded gene. As Erin plunges into this dangerous new life, she must carve out her own place in the madness, protect her mortal family, and decide which group she should join. Her unique ability is vital to both groups in the race to secure an identification software that spells death for all Unbounded—or enslavement for the entire mortal world. Some will stop at nothing to use Erin as one more pawn in a battle that has spanned centuries. Erin’s undeniable attraction to Ritter Langton, whose family was massacred by opposing Unbounded two hundred and forty years ago, complicates her choices. There are no second chances. Death, life, or love—Unbounded always play for keeps. Non-stop action, terrifying consequences, and powerful romance make *The Change* an exciting addition to the world of romantic urban fantasy. Praise for the UNBOUNDED series: "Enough paranoid twists and turns to keep the reader turning pages . . . the author has clearly thought through the nuances of the story's theme and engineered a few surprising plot twists that elevate it . . . above the level of the average thriller." -Publishers Weekly "Excellent and well written!" She's Leaving Home Connie Jones 2013-02-05 Each year, more than 1.5 million American families see their children off to their first year in college. It's a momentous day in the lives of high school graduates and their parents, and during this transitional time, parents' emotions include everything from anxiety to hope, guilt to pride, fear to relief. In *She's Leaving Home*, author Connie Jones chronicles two years in her own life, from the days when her daughter, Cary, fielded bids from more than a hundred colleges to her first year as a student at Smith College in Massachusetts. A story of spiritual journey and growth, the intimate, journal-like essays perfectly capture one mother's love and letting go of a daughter as she transforms into an adult. *She's Leaving Home* is a personal memoir that parents will relate to in the same way readers responded to Anne Lamott's *Operating Instructions: A Journal of My Son's First Year*.

Leaving College Vincent Tinto 2012-04-27 In this 1994 classic work on student retention, Vincent Tinto synthesizes far-ranging research on student attrition and on actions institutions can and should take to reduce it. The key to effective retention, Tinto demonstrates, is in a strong commitment to quality education and the building of a strong sense of inclusive educational and social community on campus. He applies his theory of student departure to the experiences of minority, adult, and graduate students, and to the situation facing commuting institutions and two-year colleges. Especially critical to Tinto's model is the central importance of the classroom experience and the role of multiple college communities.

The Zeitgeist Soch Vyas 2019-12-18 A tumultuous and unstable mind because it still holds morality on the foremost pedestal, frustrated at the state of affairs, not only of the world but also of self. The world functions not in sync with what we are taught but with its own crude logic. And, that's what the protagonist is unable to comprehend leading to the poem "Redefining Suicide". As dangerous as the title sounds, it is a window to attaining nirvana. Ironically, what we fear becomes the only path to bliss. Maybe, that's why the author, since he does not fully understand suicide, fantasizes suicide. The book makes you travel with the protagonist who takes you through his life's journey, wherein at each poignant moment, he defines the dominant feeling. Read the book not for a simple yet eloquently beaded tale, but for those raw naked display of emotions, compelling poetic expressions, base interactions & some unbridled interactions & punches.
