I went through different experiences, and today I want share with you all my knowledge, so you can take advangate from. Keep reading and enjoy..... Here is a part you'll find inside this book: Although the ratio of women to men has increased greatly in the past 25 years, according to sociologist Betty Mathesis, Ph.D., because of this, it may come as a shock that the

age difference for the first time is unlikely to be that great. Find out what you need to know about dating a younger man. 1. Know what you want One of the problems that prevent women from dating is, obviously, insecurity. If you have your eye on a man who has a kid already, state that in your profile. Be honest about the kind of relationship you are looking for and don't waste time with dating someone who is too young or too far away. 2. Show other aspects of your personality Not all men like the same things. For example, some like girls who are not over 30, others like them old. If you have genuine differences, show them by saying what kind of person you are. If you like to go out, make it clear. Dating an older man sometimes means he may not find you attractive, so it may be a good idea to say what you find attractive. In this way, you are a better judge. It can be tricky to start out your relationship with a statement, but some daters find it helpful to say what they find attractive in a person. 3. Be realistic Older men tend to look for different qualities in women than they do in their younger counterparts. Though it may seem like they want a mature, sophisticated woman, don't try to project that aura. Interested to know more? Then Scroll up, Click on "Buy now with 1-Click, and Get Your Copy Now

The dating world is a minefield nowadays, especially for women who want a committed relationship and a family one day. Now, this book is full of generalisations but if you take them as principles rather than rules I think they can help you understand how your behaviour is perceived by men and what are some golden rules when it comes to the first month or two of dating. Bottom line, know what you want, have rules for your own behaviour, let the guy lead so you stop confusing men or attracting ones that will disrespect you, play games with you and ultimately can't or won't give you what you want. This book can save you a lot of time and emotional energy. It did so for me and I'd recommend it. I'd also recommend every woman out there to stick to her dating standards and to honour her own needs and wants even if it looks like there's no one around that's suitable or right for her. The right guy will come along and you will feel a hell of a lot better and your heart and body will be in a much healthier place if you wait for him and say no to the rest. Trust me, it is worth waiting. Here's what you're going to learn inside: -What to say when you want to "slow things down" with a guy without losing his interest in you. -The most seductive first date "good deed" that can

CAPTURE a man's desire and make him desperate to see you again. -The #1 key to conquering a man's heart during the early dating stages. (This is something most women only figure out after YEARS of painful trial and error.) -How to get a boyfriend by avoiding a HUGE relationship-killing mistake most women make within the first few weeks of dating. -The single most irresistible feminine attitude that easily overwhelms a man's emotions and makes it IMPOSSIBLE for him to get you off his mind. - How to get a man to treat you like a top priority (instead of his Plan B) once you start dating him. -How to maintain the "Queen's Composure" when men pull away and how to use it to make the good ones come RUNNING back to you. -The "dating rules" high-value women use to quickly eliminate players and find Mr. Right. -And much, much more...
