Aquarius Ascendant Secrets - Saket Shah
2020-01-05

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

SignMates - Bernie Ashman 2012-07-08
Somehow, your relationship that started out so wonderfully is having problems. Or perhaps you'd like to anticipate what problems could occur in a potential relationship. More importantly, you need to know how to resolve the problems. Problems of interpersonal relationships are most often caused because everyone has conscious and unconscious needs and behaviors that can conflict with those of another. Recognizing and dealing with them can

save relationships. You'll find out how to do this in Bernie Ashman's SignMates. Contrary to what some people think, your astrological sign doesn't "force" you to do anything. It is simply an indicator of what you are. By understanding how the signs relate, you can better understand relationships and how to overcome problems that may arise. In a nutshell, that is what this book will do for you. The book relates potential problems in a relationship between every sign of the zodiac. For example, if you are a Virgo and your partner is a Scorpio, you may play the "Sabotage Game," where you make it difficult for your partner to reach goals because of unresolved anger or jealousy. To deal with this you need to become aware of negative, unproductive comments and support your partner. Two other games and coping strategies are given. Or perhaps you are a Libra and your partner is an Aquarius. You may experience the "Lovers and Strangers Game" where your sense of closeness vacillates between extremes. This is a test to see if you can handle emotional heat. You have to be willing to simply and honestly discuss your feelings. Again, two more games and strategies for dealing with the conflicts that cause them are given. No matter what sign you and your partner are, this book will pinpoint the potential pitfalls and how to deal with them. Also included for each pairing is the good news, a "rainbow" at the end of the difficulties, which indicates how great such a relationship can be. Ideal for both non-astrologers and astrological pros, this book can help save your relationship.

Queer Astrology for Women - Jill Dearman
2015-04-14
A hilariously irreverent and startlingly insightful astrology guide for lesbians. Jill Dearman is a breakthrough astrologer for our time. No one has approached the stars with her sass and class ever before! Her guide to astrology for lesbians is lively, revealing--and naughty! Sections include: in life, in bed, how to seduce her, doing her and dating her, how to last over the long haul, how to get rid of her, and the three faces of

each sign. How to get rid of an Aquarius woman: Ms. Aquarius will pack her bags soon after you start invading her personal space and drowning her in too much nonstop and irrational emotion. Ms. Aquarius hates to feel trapped, so if you slowly take away all her freedoms, you will be watching her walk out the door faster than you can sing "This is the dawning of the..." The Cancer woman is intensely emotional...and her moods change with the tides. Not that you can every completely figure her out. Would you dare to assume you could understand the sea or fully absorb or comprehend a beautiful piece of music? Or course not, you silly lesbian. So don't patronize this lovely woman. But getting rid of a Cancer woman: Please don't be a cad and pull off the old "I'm going out for a pack of cigarettes (or a bag of Kitty Litter)" and never come back routine. She'll have your mother sitting with her and holding her hand, worrying, before you've made it past the border. And a complete compatibility profile of each astrological combination: Take Aries and Cancer: The best part? They can be fiercely loyal and protective of each other. The worst part? They instinctively know how to hurt each other's feelings and often do, in a most brutal way. Ms. Aries, ruled by fire strikes quickly and forcefully and without thinking. "Don't eat that doughnut! It'll make you fat!" Ms. Cancer, ruled by water, knows how to create a mood of subtle emotional torture. "I don't feel like being touched...No, I don't want to be alone. Can't we just sit together in the same room and not talk and not touch and not make such a big deal about it?"

After Aquarius Dawned - Judy Kutulas
2017-03-16

In this book, Judy Kutulas complicates the common view that the 1970s were a time of counterrevolution against the radical activities and attitudes of the previous decade. Instead, Kutulas argues that the experiences and attitudes that were radical in the 1960s were becoming part of mainstream culture in the 1970s, as sexual freedom, gender equality, and more complex notions of identity, work, and family were normalized through popular culture--television, movies, music, political causes, and the emergence of new communities. Seemingly mundane things like watching *The Mary Tyler Moore Show*, listening to Carole King songs, donning Birkenstock sandals, or reading *Roots* were actually critical in shaping Americans' perceptions of themselves, their families, and their relation to authority. Even as these cultural shifts eventually gave way to a backlash of political and economic conservatism, Kutulas shows that what critics perceive as the narcissism of the 1970s was actually the next logical step in a longer process of assimilating 1960s values like individuality and diversity into everyday life. Exploring such issues as feminism, sexuality, and race, Kutulas demonstrates how popular culture helped many Americans make sense of key transformations in U.S. economics, society, politics, and culture in the late twentieth century.

Apollo in the Age of Aquarius - Neil M. Maher 2017-03-27

Winner of the Eugene M. Emme Astronautical Literature Award A Bloomberg View Must-Read Book of the Year A Choice Outstanding Academic Title of the Year "A substance-rich, original on every page exploration of how the

space program interacted with the environmental movement, and also with the peace and 'Whole Earth' movements of the 1960s." —Tyler Cowen, *Marginal Revolution* The summer of 1969 saw astronauts land on the moon for the first time and hippie hordes descend on Woodstock. This lively and original account of the space race makes the case that the conjunction of these two era-defining events was not entirely coincidental. With its lavishly funded mandate to put a man on the moon, the Apollo mission promised to reinvigorate a country that had lost its way. But a new breed of activists denounced it as a colossal waste of resources needed to solve pressing problems at home. Neil Maher reveals that there were actually unexpected synergies between the space program and the budding environmental,

feminist and civil rights movements as photos from space galvanized environmentalists, women challenged the astronauts' boys club and NASA's engineers helped tackle inner city housing problems. Against a backdrop of Saturn V moonshots and Neil Armstrong's giant leap for mankind, *Apollo in the Age of Aquarius* brings the cultural politics of the space race back down to planet Earth. "As a child in the 1960s, I was aware of both NASA's achievements and social unrest, but unaware of the clashes between those two historical currents. Maher [captures] the maelstrom of the 1960s and 1970s as it collided with NASA's program for human spaceflight." —George Zamka, Colonel USMC (Ret.) and former NASA astronaut "NASA and Woodstock may now seem polarized, but this illuminating, original chronicle...traces multiple crosscurrents between them." —Nature
