*Equal Partners - Good Friends* - Claire Rabin 2002-09-11

Marriage as an equal partnership is the goal of many couples in the western world today and yet equality is often limited by the ways that power and gender interact in the relationship, leading to dissatisfaction and ultimately the break up of the marriage. In *Equal Partners - Good Friends* Claire Rabin examines the connection between inequality in marriage and marital distress. Drawing on extensive research and personal interviews in the UK, USA and Israel, she stresses the role of friendship in establishing a truly equal relationship. Focusing on issues of gender, sex roles and power, she provides a new clinical treatment model for therapists working with couples which is much needed in today's climate of change.

**First, Kill All the Marriage Counselors** - Laura Doyle 2015

Every marriage has its rough patches. If you're wondering how to repair yours, step away from the therapist, put down the magazine, and pick up this book. If you want to build a long, happy, fulfilling marriage, why not learn from the women who've done it? Laura Doyle's marriage was in trouble. After five years, her husband had become distant. He seemed checked out of their relationship, preferring watching TV to making love. There were frequent fights that ended with tense silences and even threats of divorce. Marriage counseling actually made their problems worse. Each session seemed to reinforce the feeling that she and her husband were just too far apart. Desperate to avoid divorcing the man she loved, Laura tried something different. Rather than consulting with experts or professionals, she simply started talking to women who'd been happily married for more than fifteen years. What she discovered shocked her. Everything she had heard in marriage counseling was wrong. Laura realized that there are some basic truths to relationships that can help women maintain loving, intimate marriages, such as: The happiness of your relationship is up to you! Women hold the keys to a happy relationship 95 percent of the time (and will learn what to do the other 5 percent). What men want most of all is to be treated with respect. Treat your man with respect (even if you aren't feeling it), and he will treat you with love and care. Your man wants to know he has your trust. Give it to him, and he'll realize you are special . . . because you will be! After seeing her own marriage transform, Laura set out to help other women do the same. In this book, you'll learn Laura's Six Intimacy Skills," which have been used by over 50,000 women who have transformed their previously unhappy marriages into blissful unions. Stop reading articles about how important it is to schedule date night, and learn how to transform your relationship into one bursting with energy, intimacy, and love. *First, Kill All the Marriage Counselors* will put you on the path to having the marriage you want with the man you love.

**Why Marriage Counseling Fails** - David Hawkins 2022-05-24

Like life itself, marriage has moments of joy...and sorrow. As difficult as marriage can be, many who have said "I do" try to stick it out when problems arise because the alternative—being alone—is not very appealing. If the couple truly wants to save their marriage, they usually turn to counseling. Unfortunately, most marriage counseling ends with the couple dropping out and then, more often than not, ending their relationship. In some cases, the problem is not the couple but their choice of counselor. One who is poorly trained, disinterested, or obviously biased can destroy a marriage. *Why Marriage Counseling Fails* explores different scenarios that cause problems for couples as well as the different types of counselors who can help or harm a marriage. Dr. David B. Hawkins has more than forty-five years of experience as a marriage counselor and has helped thousands of couples save their marriages. "Sadly, when it comes to reaching out for help for marriage counseling, few have a sense of trust and confidence in their counselor," he says. "Stories abound about how they came out of a counseling session worse than when they went in." Dr. Hawkins defines the "five I's" of a qualified marriage counselor as one who: Offers wise instruction Takes an active interest in the couple Offers insight into why problems recur Is willing to work intensively Works in-depth to help the couple find long-term solutions *Why Marriage Counseling Fails* offers insights into marital issues, the brokenness of the counseling system, how to find good help, and how to insist upon effective help when turning to a counselor.

**Marriage Counselling in the Community** - W. L. Herbert 2013-10-22

Marriage Counselling in the Community is a theoretical and practical introduction to the subject of marriage counseling and aims to help people faced with marital problems using the method of social casework. Aside from discussing relationships in marriage, this book considers the relationship between counselor and client, areas of treatment, and approach to treatment. It also looks at some situations in which a successful outcome in helping the marriage is less likely. This book is comprised of 11 chapters and opens with an overview of the dynamics of relationships within the marriage and how such relationships within the family group affect the children. The following chapters focus on human relationships, especially their origins in the group (normally the family group); their fundamental contribution to the development of the individual, including his ability to mature emotionally; and the effects of such relationships and the understanding of them in the field of marriage counseling. The reader is also introduced to how the marriage counselor's understanding of relationships is put to use in practice. The final chapter deals with some of the principal people and agencies to which and from which wives and husbands with problems tend to be referred. This monograph will be a useful resource for marriage counselors and social caseworkers.

**Marriage Counseling in Groups** - Merle M. Ohlsen 1979

*Couples Therapy* - Linda Berg Cross 2013-12-16

Harness the power of an integrative approach to couples counseling! Why do marriages fail? The behaviorist or cognitive therapist explains that unhappy couples have self-defeating ways of thinking about their spouses and themselves. The sociologically oriented counselor points to the impact of social trends and dramatic changes in child-rearing and social expectations. A therapist oriented toward psychodynamics or systems theory sees the destructive patterns of childhood replayed in the marriage, with spouses taking on rigid roles. The pastoral or humanist counselor believes that partners who cannot experience self-fulfillment through commitment and trust will feel less love and grow more and more disconnected. *Couples Therapy, Second Edition*, brings together all these points of view to make a unified whole. This integrative approach proposes a new model of successful marriage based on four cornerstones: resiliency, social support, adaptability, and self-fulfillment. Weaving together theory and research, *Couples Therapy, Second Edition*, explores how common issues can lead to trouble in relationships. It suggests specific interventions so therapists can teach clients to deal with such problem areas as anger management, domestic violence, depression, anxiety, parenting conflicts, in-laws, work pressures, and sexual dissatisfaction. *Couples Therapy, Second Edition*, offers a sound theoretical framework as well as practical ideas. Through clinical vignettes and up-to-date research, it makes the common conflicts and developmental stages of marriage so understandable that it can be profitably read by clients as well as counselors. Its invaluable resources for the couples therapist include: end-of-chapter professional development questions therapeutic exercises answers to frequently asked professional and ethical questions intervention suggestions for the therapist self-assessment questionnaires book and video recommendations on each chapter topic Written in clear, readable prose, *Couples Therapy, Second Edition*, offers practical help for the experienced clinician as well as theoretical overviews for the counselor in training.

*I Love You, but I'm Not IN Love with You* - Andrew G. Marshall 2010-01-01

One in four people have heard it or have said it. . . . Now discover what it really means. If the relationship you have with your significant other is defined more by companionship than passion . . . if you love each other deeply but are not deeply in love . . . if you feel that something's missing or is no longer there . . . then you could be experiencing ILYB (I Love You, But . . .). In *I Love You, but I'm Not in Love with You* --a real-life relationship guide from couples' counselor Andrew G. Marshall--partners and individuals who have "fallen out of love" or want to rekindle the love that once was will learn how to use Marshall's program with impressive results. This is a much-needed book to help men and women of all ages in any type of committed romantic relationship to truly understand love and to point out the everyday habits that undermine growing together. Marshall's research is one of the few that delves into what causes relationships to "cool" or for emotions to be "dulled." So much more than a quick-fix guide, *I Love You, but I'm Not In Love with You* empowers couples to emerge with a better understanding of themselves and each other, and ultimately build a stronger, more passionate bond. Learn how to: • Argue productively and address the core of the issue • Employ the trigger words for more effective communication • Find a balance between being fulfilled as an individual and being one half of a couple • Discover if the ILYB is simply a symptom of a workable problem • Take your sex life to a deeper level of intimacy • Create new bonds instead of searching for the old ones

*The Solo Partner* - Phil DeLuca 2002-04

Based on successful methods used for years by a marriage counselor in his clinical practice, this book offers practical advice and effective techniques to get relationships back on track. "It is possible to heal your relationship without the help of your partner," says the author, and this book, illustrated with real life examples of the dynamic struggles and processes of relationship in crisis, shows how. The book, called "a breakthrough for couples in understanding the dynamics of power struggles in relationship," by

psychotherapist Carolyn Bushong, teaches the reader how to shift interaction from a destructive to a healing mode, how to keep from being blamed by your partner, and how to prevent the frustrating cycle of pursuing and distancing that so many couples fall into. Included are detailed questionnaires and worksheets to help the reader understand relationship dynamics and identify the best healing strategies. DeLuca, a marriage counselor and family therapist, addresses the problem of noncooperation by one partner in a relationship and provides advice for overcoming obstacles by concentrating on the one partner who recognizes the problems and is motivated to conquer them. "How could I teach a couple to resolve their problems when one partner refused to acknowledge a problem existed -- let alone discuss it?" he asks. This work, the result of the author's 25 years experience in marriage and family counseling, answers that

question.
