**Relationships** - Jason Pfladderer 2020-07-07  
Let me make a not-so-bold proclamation-God wants you to be involved in healthy relationships. Relationships, after all, are a key component to not only being a loving Christian, but also to being a good person. Most people understand that having a good relationship with people is best. We want to be able to work, play, and live with others in the best way possible. Healthy relationships lead us and others to the joy and productivity God desires for us to have. But what too many people fail to understand is that none of us can have a healthy relationship with others without first being healthy ourselves. This book is about applying Biblical principles to relationships so that we can live in healthy, loving, and strong relationships in all areas of our lives. We have the ability to widen and deepen our relationship with God as well as with others. This book will teach you what the Bible says are the emotional, spiritual, and physical components to healthy relationships, teaching

you to be a better communicator and giving you ideas to making you a more authentic person. By learning to be authentic people, we can have authentic relationships, which in turn leads to better, healthier, more God-driven lives. Because it is my belief that healthy relationships are a stepping stone to God, success, and so much more, I have written *From Your Heart to Your Head*. Herein we are going to have some straight talk about what the Bible says are the emotional, spiritual, and physical components to healthy relationships.

This book is a hard hitting comprehensive guide that takes a look at relationships and how they really are in the world today. This is your new user and repair manual for healthy relationships. It is the brainstorm of Professor Thomas W.

Nagle. He started doing research for this book 10 years ago and became serious about writing it about 5 years ago. Hundreds of men and women were interviewed during this time to gather the important information needed regarding what makes a good relationship and what doesn't work. "This is your user and repair guide" for present day relationships. "Some of the concepts in this book are embedded in multiple articles. This is by design. We want you to get the "essence" of all the important concepts within multiple contexts. Many of these concepts will apply to various cycles of a relationship and the overlaps will help you remember them. For example, stress management applies to the looking for a new relationship, sustaining an existing relationship and exiting a bad relationship. A breath of fresh air has just blown into the world of old school relationship books. Most everyone will be able to relate to the articles regardless of gender, income class or relationship status. which has sold over 5 million copies around the world - now in paperback In 12 Rules for Life, acclaimed public thinker and clinical psychologist Jordan B. Peterson offered an antidote to the chaos in our lives: eternal truths applied to modern anxieties. His insights have helped millions of readers and resonated powerfully around the world. Now in this long-awaited sequel, Peterson goes further, showing that part of life's meaning comes from reaching out into the domain beyond what we know, and adapting to an ever-transforming world. While an excess of chaos threatens us with uncertainty, an excess of order leads to a lack of curiosity and creative vitality. Beyond Order therefore calls on us to balance the two fundamental principles of reality - order and chaos - and reveals the profound meaning that can be found on the path that divides them. In times of instability and suffering, Peterson reminds us that there are sources of strength on which we can all draw: insights borrowed from

psychology, philosophy, and humanity's greatest myths and stories. Drawing on the hard-won truths of ancient wisdom, as well as deeply personal lessons from his own life and clinical practice, Peterson offers twelve new principles to guide readers towards a more courageous, truthful and meaningful life.

**Dynamics of Love and Relationships** - Jiro Chatelain 2020-01-24

\*Strong Families Equal Strong Nations\* This is a book that will prove very useful for people that aspire to happiness and satisfaction in all their relationships, marriages and effective decision making in life itself. It is a book for intending lovers, those who are struggling, and those who are still navigating around the path of healing. Before you move on or give up, you must find the problem in your relationship. It is only when you see the problem that you can fix it. Relationships can be likened to automobiles in this instance. It needs to be serviced. All the parts that make it up must function properly. If something is not working and the people

involved are too lazy or not ready to work at it; it's going to come crashing down. We all know that it is more challenging to fix a dead car than to repair a little mechanical fault as soon as you discover it. Your situation may be quite different from others. You could be in a relationship with someone who doesn't feel as connected as you are to the relationship. At first, it will hurt deeply. You may begin to wonder if you are good enough. You'll have self-doubts and wonder why this person isn't proud of you like you are of them. They don't show you off. They aren't ready to let you into the deepest and darkest places of their lives. They aren't ready to take things to the next level. This could affect your self-image. It will rub off on your self-confidence, and you may start to resent the person you are in a relationship with. While it's easy to be hurt, angry, and upset, when someone is not ready to be committed to you, it has nothing to do with you. One mystery that life has offered us is the inability to get inside someone else's head. It's

not possible to truly understand people's motives except when they tell you. This is why you shouldn't take the rejection personally. What if they are going through something? What if they aren't ready? These are just 'What Ifs?' But they could be people's realities. Some people are conscientious enough to block you out from whatever they are struggling with. They understand their inner fights. They seek healing and do not want to drag you into it. It becomes essential for them to set boundaries; create a wall and shield their hearts in it. You may think they are cold and unemotional. However, this is their way of blocking you from accessing those parts of them that still hurt. There are people that are hypocritical about it. Although they struggle with something, they are willing to let others in. And they find desperate people to be like prey. They use people's love to channel their pain, and this comes out toxic every time. You will always be at the receiving end of bad energy. There's nothing you will do that could

ever be good enough. Once you are done with this set of people, you'll realize that they have transferred their pain to you. The cycle of brokenness is continued. There are people who were broken as children, through physical, sexual or emotional trauma. Until they heal from this trauma they cannot be in a healthy relationship because they are no health. Again, this is not your fault, but don't stay in a codependent or abusive relationship. It is essential to understand that people are at different stages in their lives. When you have feelings for someone, it's easy to remain in a relationship with them even if your relationship has no future. While it's incredible that you are sticking it out against all the odds, you need to ask yourself if that person is even in the same stage of life as you. If you examine this simple guidance from Jiro, you will understand why this book is a necessary tool that will help you to identify what stage of life your partner is currently in and how crucial it is for the future of

your relationship. It will also help you to have a more fulfilling life

The most important characteristic that is needed to be successful in any leadership position - whether it's in business, church, or your community - is the ability to work with people.

Relationships are at the heart of every positive human experience. John C. Maxwell, a master communicator and relational expert, makes learning about relationships accessible to everyone in *Winning With People*. Within this book, Maxwell has translated decades of experience into 25 People Principles that anyone can learn. In *Winning With People*, Maxwell divides these principles into sections based off different questions we must ask ourselves such as: Readiness: Are we prepared for relationships? Connection: Are we willing to focus on others? Trust: Can we build mutual trust? Investment: Are we willing to invest in others? Synergy: Can we create a win-win relationship? Each section contains guiding People Principles. Some are intuitive, such as The Lens Principle: Who We Are Determines How We See Others. Others may go against your instincts, such as The Confrontation Principle: Caring for People Should Precede Confronting People. The most sophisticated leaders and

relationships, they usually expect them to change. Some features of these disaster scenarios we want, while others we don't. Bridging the gap between desires and needs in love relationships is difficult. You'd expect a tall, beautiful, lovable, and strong corporate leader. Despite his many successes, he may have personality defects that make him unsuitable for you. When two individuals argue in a relationship, we often believe there is a problem. When, in reality, it is quite natural. When you devour that extensive time with someone, it's inevitable, especially if you end up in a serious relationship. Despite the fact that it is unsettling and even dangerous, there are some favorable factors to consider. Love is wonderful, joyful, and the nicest thing in the world. Love may be a huge pain in the behind. Relationships are difficult. Although younger individuals are likely placing their fingers in their ears and chanting beloved lines, the elderly are nodding. Relationships need effort. They are not always

"successful" immediately away. They need continual attention and thought. If you don't fortify it, it will wash away and disappear. To sustain a good and happy union, the couple must be able to deal with the ups and downs of their relationship. Relationships may be like old shoes that we continue to wear even when they are no longer comfortable. However, ease is rarely indicative of a well-lived life. Scientists have revealed that couples who complain the most and about the smallest matters enjoy the longest-lasting marriages. Couples who solely complain about serious concerns and have high negativity thresholds, on the other hand, are considerably more likely to divorce. If the Lord has blessed you with a spouse, He expects you to appreciate, comprehend, respect, lead, accept, and lay down with her. Love, compassion, and respect alone are insufficient to ensure a fulfilling relationship with your spouse. Other factors like trust, loyalty, acceptance, mutual understanding, and others are also required. For

**Getting Played** - Mohosho Pofane 2021-01-04  
Bob Marley once said the biggest coward is a man who awakens a woman's love with no intention of marrying her. But what about a woman who awakens a man's love with intentions of marrying him? Well, that's a topic for another book! Love is a beautiful thing. It's a

risk that most of us take over and over again with the hope of finding the perfect partner whom we're willing to spend the rest of our lives with. Someone who will make the love journey worthwhile. While we're searching, we end up in toxic situations, being played or ghosted, as a result end up looking at the whole notion of love differently. Some people give in to the cruelty and play the game too, while others keep hoping for a good partner on try over and over again. It's often said that the world does not reward those who play by the rules (which is arguably true), so wouldn't it be great if we knew the difference between people who come to us to play and those who come with genuinely good intentions? We all know the feeling of being played in dating. You were misled by someone who seemed to be into you. There were no warning signs that someone was about to flip the script but just as you were letting your guard down and starting to get excited about the promise of a long term relationship, the person

you were dating totally flakes. They pull away. They dump you. They ghost. At the end of the day leaving you feeling like a fool for believing in something that clearly was not real. So how can we avoid getting played or made to feel like a fool in dating? First understand what it means when someone plays you. Essentially they have tricked you into giving up something that you would normally never give up unless you were guaranteed to get something in turn. This could be sexy time, money, time, or intimacy. But a player makes you believe in the promise of a return on your investment. They make you feel like you can trust them, when in fact they are completely untrustworthy. Thing is, most girls secretly wish they had a male best friend. One who would tell them all about boys, their conversations, their daily plans about women, everything. However, those are rare to find because under normal circumstances, your male best friend is only hanging around because he's patiently hoping that one day you'll give in and

he'll hit it. That's if the two of you haven't made that 'mistake' already. It's through our friends of opposite the sex that we get the kind of information contained in this book. Although most content in this book is more oriented to the females: take this book as your companion who is not patiently waiting to sleep with you. After all, it is the ultimate guide to a healthy relationship. All I'm saying is, we need to start treating others like we'd want them to treat us. We need to have compassion and respect for the feelings of others. When I wrote this book, I thought of all the people who are going to fall victims to someone who behaves the way my friends and I did long ago. I thought to myself, "what if it's my own daughter?", what if it's my nephew or someone I love?" Then I decided that since I may not be there to guide them or give them a little pep talk about men, I might as well write a book, something they can keep referring to every time things get out of control. I'm not saying the book will completely help, but it's
