Positive Energy - Ping Leeka 2015-02-03

Positive Energy: Illuminate Unlimited Energy will take you deep into the three important meanings in your whole life. The first is your BaZi DNA. BaZi means you will know what will happen in your life because it's already been chosen for you. All this is based from God; we can't change it, neither will natural human influential's. Reading and understanding the content contained in these pages will help you in balancing out your energies and the worlds energies around you. The second is about your luck which is based on your Zodiac Fortune. This is basic from the month and year you were born. Asia has over 6,000 year's knowledge on this information already. The information is followed by the moon, stars, and the sun. We've used that information since 2006. This also means this does not only work on just Asian people, but also everyone else as well. This is about knowledge only and not based on religion. The third is Feng Shui. Feng Shui mostly has to do with the inside and outside energy of the house. You want to try to have positive energy in your house so you can have positive results. The book details with examples of house positions. When you have a positive house, your life situations change. Your money gets better, your relationship will grow, you'll be feeling better at work, and the arguments will ease. These are the three steps you should follow to improve your life. Positive Energy: Illuminate Unlimited Energy will provide a step-by-step guide. If you succeed on the first and second steps, you will know who we are and how to help yourself and your loved ones.. As humans we are like a big tree, the first and second steps are like the trees roots. The third step is giving a vitamin to the tree. So if you want to live prosperously, we have to fix the roots first not just fill ourselves with nutrients.

Loving Isadora - Isadora J Seibert Foundation 2017-06-27

Loving Isadora was written to share one family's experience of losing someone very dear and discovering that she has never left. This book details signs from the afterlife sent by Isadora Seibert, a 25 year old high school science teacher who passed away from a rare cancer in 2014. Within moments of her passing, Isadora reached out to let her family know that she still exists and will always remain with them. Her loving signs, which continue almost daily, bring comfort to her family and to those who were fortunate enough to know her. The message of the book is that love never dies, only the bodies that carry our true selves. The bond of love is forever. Ask for signs from your loved ones and watch carefully. Love never dies.

Let it Go - Rebekah Lipp 2020-08

Cancer Stories - David M. Gregory 1999-11-15

In Cancer Stories five people share their journeys, their stories, and the suffering they faced before their deaths. These narratives chronicle the despair, hope, and love they experienced while living and dying with cancer, giving the power of the human spirit full voice. Lessons learned are presented as "gifts" at the conclusion of each of the five narratives. This book is for people living with the disease and their caregivers. Nurses and physicians, students in any health-related discipline, as well as persons engaged in qualitative research will also find this an invaluable resource. The importance of incorporating qualitative, research-based approaches in caring for the dying emerges from the narratives. Cancer Stories points toward a more holistic research/treatment agenda, one that bridges the medical and social sciences.

Love Money, Money Loves You - Sarah McCrum 2022-04-19

A few weeks after the failure of her business in London, Sarah was asked a question in a book she was reading. "What does money want to say to you?" She started writing a response and found words coming out of her pen that weren't her own. They started with, "I would like to tell you to love me." She was deeply touched, and intrigued to explore more about the source of this message. She went on to write in the same way every day for 3 months and ended up with a collection of surprising, funny and inspiring advice, apparently from the energy of money itself. Those writings turned into this book. It takes you into the heart of the world of money, but not into financial systems as they exist on this planet. Rather it gives you an insight into how the money energy operates behind our physical world. It shows you what happens when you make any financial request and explains why so many people struggle with lack of money. It gives clear, simple guidelines on how to transform your relationship with money so you can be aligned with the way it works naturally, including two blueprints for making money in today's world. It's funny at times, very uplifting and enlightening in surprising ways, offering a view of

money unlike anything we've seen elsewhere. Perhaps the most radical discovery in these writings is the sense that money is not a neutral energy that we can make good or bad decisions about. It is a truly benign, loving energy that is always available for us. This challenges many of our preconceived notions about money and invites us into a profoundly different relationship with it.

Bring Out That Red Lipstick - Tanushree Nair 2020-06-29

In an effort to equalise things, we see many women display "masculine" traits like aggression, competing fiercely to fit into the work mould, juggling around with too many roles. They are force-fitting themselves into a masculine mould, so as to be "accepted", grow professionally but deep down they do not feel aligned. The same is true of men, too - they often curb their natural tendency to be gentle and empathetic towards others. Irrespective of gender, we are all inherently blessed with energies of dual nature - masculine and feminine. It is the interplay of these energies that govern our behaviour. But how many of us are aware of it? Based on this fascinating insight, the author's personal experiences and expertise in all forms of energy work, "*Bring Out That Red Lipstick*" is a practical guide for women. It explains how women can awaken and harness their innate, creative, intuitive feminine energies for better alignment with their inner selves. This, in turn, will help them tap into the power within, be conscious, take better decisions and achieve much more in their career and find purpose, fulfillment, and harmony in all spheres of life.

Workable Sisterhood - Michele Tracy Berger 2010-07-28

Workable Sisterhood is an empirical look at sixteen HIV-positive women who have a history of drug use, conflict with the law, or a history of

working in the sex trade. What makes their experience with the HIV/AIDS virus and their political participation different from their counterparts of people with HIV? Michele Tracy Berger argues that it is the influence of a phenomenon she labels "intersectional stigma," a complex process by which women of color, already experiencing race, class, and gender oppression, are also labeled, judged, and given inferior treatment because of their status as drug users, sex workers, and HIV-positive women. The work explores the barriers of stigma in relation to political participation, and demonstrates how stigma can be effectively challenged and redirected. The majority of the women in Berger's book are women of color, in particular African Americans and Latinas. The study elaborates the process by which these women have become conscious of their social position as HIV-positive and politically active as activists, advocates, or helpers. She builds a picture of community-based political participation that challenges popular, medical, and scholarly representations of "crack addicted prostitutes" and HIV-positive women as social problems or victims, rather than as agents of social change. Berger argues that the women's development of a political identity is directly related to a process called "life reconstruction." This process includes substance- abuse treatment, the recognition of gender as a salient factor in their lives, and the use of nontraditional political resources.
