In these talks, given in Ojai and India, Krishnamurti discusses the nature of the observer. He states in the beginning, "to understand the confusion and misery that exist in ourselves, and in the world, we must first find clarity within ourselves and this clarity comes about through right thinking...Right thinking comes with self knowledge. Without understanding yourself, you have no basis for thought; without self-knowledge what you think is not true

Love-Lust-Friendship-Or Games - Empress
2016-08-18

This is a work of non-fiction inspired by my own life and the lives of others that have touched mine. This book is about love and romance and the many games people sometimes play to perfection with their playground being your life, their toys being your time and emotions. Sadly, when involved in relationships, many are cataloged and categorized by their loved ones without realizing so. This book will help you to know or somewhat allow you to be cognizant of your relationship with your significant other if it is love or if he or she has simply categorized whatever you have as something other than love. This book will relate to you true stories of games played upon the hearts of the ones love once claimed as many sometimes are perplexed when it comes to their true feelings towards their other half. This book will tell you signs of when love is part of your relationship when it is absent from your relationship, and when it may be time to walk away from it all. All names and locations in this work have been falsified to protect the identities of all parties involved, but the stories and events are true.

Take It Easy, Vol 1 Talks on Zen Buddhism - Osho
2023-03-07

Religion is the vast sky of existence. Reason is a tiny human phenomenon. The reason has to be lost, has to be dropped. Only by going beyond the mind does one start understanding what is. That's the radical change. No philosophy can

bring that radical change - only religion. Religion is non-philosophic, anti-philosophic, and Zen is the purest form of religion. Zen is the very essence of religion. Hence it is irrational, it is absurd. If you try to understand it logically you will be bewildered. It can only be understood illogically. It has to be approached in deep sympathy and love. YOU CANNOT approach Zen through empirical, scientific, objective concepts. They all have to be dropped. It is a heart phenomenon. You have to feel it rather than think it. You have to BE it to know it. Being is knowing. And there is no other knowing.

In Search of a Love Story - Rachel Schurig
2012-05-09

Emily Donovan doesn't have a romantic bone in her body. At least, that's what her friends Ryan and Ashley keep telling her. They're convinced her bad luck with men is directly related to her life-long lack of interest in all things romantic. When Emily's latest relationship crashes and burns, she decides to go along with her friends' plans for a romance research project. Sure, the idea that she'll have better luck if she learns about the great romances of literature and film seems a little silly, but Emily figures it can't hurt. In no time at all, Emily finds herself buried under a mountain of romance novels, chick flicks, and sappy love songs, hopeful that her hard work will pay off with true love. When she meets Greg, Ashley and Ryan are convinced she's found prince charming—after all, he's rich, handsome, and totally into Emily. What more could she want? And why does it seem that her friend Elliot isn't exactly happy for her? Faced with misunderstandings, miscommunications, and a seemingly endless string of missteps, she is nevertheless determined to give true love a try. In doing so, Emily will eventually find that true romance, the kind that lasts, has little to do with stereotypes or clichés, and everything to do with finding out what's in her own heart.

To Really Love a Man - Barry Vissell
2018-01-15

"Read this book if you want to have a more loving, intimate, understanding and vulnerable relationship with the special person in your life."

-John Gray, PhD, author of Men are from Mars, Women are from Venus. How does a man really need to be loved? How can his partner help to bring out his sensitivity, his emotions, his strength, his fire, and at the same time allow him to feel respected, secure, and acknowledged? We feel that women and men are essentially similar souls in different-sexed bodies. Both sexes want the same happiness, need the same love, crave the same peace, and feel the same emotions. In all our previous books we have emphasized the similarity rather than the difference between the sexes. While this is the highest truth, there is another truth no less important. Most men and women approach life and relationship in different ways and react to situations differently. Notice we said "most," because nothing is all or none. However, the difference in male and female hormones, the findings of brain chemistry re-search, added to the difference in how women and men are raised, help create different emotional climates and even alter ways of thinking. On the deepest level, women and men are alike. In personality, there is often a clear contrast. On the level of soul there is sameness. In thoughts and feelings, men and women can be strikingly different. We write these books not to point out the differences between the sexes. There are enough books that do that. We write these books to give tools to the readers to more deeply honor their partners. With honoring there can be joining. Respect for differences breaks down the age-old wall between women and men. Before there can be union, there must be love. Before there can be love, there must be understanding and respect. Before there can be understanding and respect, there must be listening -- real listening - both inner and outer.

Theological Interpretation of Culture in Post-Communist Context - Dr Ivana Noble 2013-06-28
Twenty years after the fall of Communism in Central and East Europe is an occasion to reevaluate the cultural and theological contribution from that region to the secularization - post-secularization debate. Czech theologian Ivana Noble develops a Trinitarian theology through a close dialogue with literature, music and film, which formed not only alternatives to totalitarian ideologies, but also followed the loss and reappearance of

belief in God. Noble explains that, by listening to the artists, the churches and theologians can deal with questions about the nature of the world, memory and ultimate fulfilment in a more nuanced way. Then, as partakers in the search undertaken by their secular and post-secular contemporaries, theologians can penetrate a new depth of meaning, sending out shoots from the stump of Christian symbolism. Drawing on the rich cultures of Central and East Europe and both Western and Eastern theological traditions, this book presents a theological reading of contemporary culture which is important not just for post-Communist countries but for all who are engaged in the debate on the boundaries between theology, politics and arts.

In Search of Paradise - Li Zhang 2012-09-15

A new revolution in homeownership and living has been sweeping the booming cities of China. This time the main actors on the social stage are not peasants, migrants, or working-class proletariats but middle-class professionals and entrepreneurs in search of a private paradise in a society now dominated by consumerism. No longer seeking happiness and fulfillment through collective sacrifice and socialist ideals, they hope to find material comfort and social distinction in newly constructed gated communities. This quest for the good life is profoundly transforming the physical and social landscapes of urban China. Li Zhang, who is from Kunming, the capital of Yunnan province, turns a keen ethnographic eye on her hometown. She combines her analysis of larger political and social issues with fine-grained details about the profound spatial, cultural, and political effects of the shift in the way Chinese urban residents live their lives and think about themselves. *In Search of Paradise* is a deeply informed account of how the rise of private homeownership is reconfiguring urban space, class subjects, gender selfhood, and ways of life in the reform era. New, seemingly individualistic lifestyles mark a dramatic move away from yearning for a social utopia under Maoist socialism. Yet the privatization of property and urban living have engendered a simultaneous movement of public engagement among homeowners as they confront the encroaching power of the developers. This double movement of privatized living and public sphere activism, Zhang finds, is

a distinctive feature of the cultural politics of the middle classes in contemporary China. Theoretically sophisticated and highly accessible, Zhang's account will appeal not only to those interested in China but also to anyone interested in spatial politics, middle-class culture, and postsocialist governing in a globalizing world.

Walker Percy and the Crisis of Meaning - Justin N. Bonanno 2023-08-12

In this book, Justin N. Bonanno builds off of the recent philosophical work on Walker Percy's writings. While it is valuable to appreciate Percy as a novelist, Bonanno approaches Percy from the perspective of Continental philosophy and the rhetorical tradition. Unpacking the works of several key authors that influenced Percy (e.g. Sartre and Heidegger), Bonanno offers a fresh philosophical account of Percy's ideas concerning the relationship between symbols and existence. In particular, he focuses on how Percy's ideas emerge from the thought of Ernst Cassirer, Susanne Langer, Jacques Maritain, Jean-Paul Sartre, Gabriel Marcel, Martin Heidegger, Viktor Shklovsky, Søren Kierkegaard, and St. Thomas Aquinas.

The Anatomy of Love - Hugo Bradford

Some teach you how to love and stay in love. But nobody tells you what love is or how to acquire it when you don't have it. How are you supposed to love someone and find happiness if you don't love yourself, or find happiness within, first? Hugo Bradford's life changed in an instant when his relationship ended with who might have been the love of his life. Then, he failed once again when he decided to be a different man—a better man. Hugo then set on a path of introspection and healing by researching through the sciences and submerging himself with the voices of experts, experience, and the opinion of women. All to answer one underlying question—what is love? *The Anatomy of Love* is as sensible as it is perceptive. Tackling the third-most searched word worldwide. Love—A simple, four-letter word that produces over fourteen billion search results on search engines across the internet. Is love something as simple as an evolutionary trait of consciousness and chemical potion in our brains? Or does it mean something else,

something we can't yet explain? This book reveals fundamental truths and uses appropriate, applicable knowledge in ways that work for everyone.

The Ethics of Love - Susi Ferrarello 2022-07-29

This book explores the ethical and psychological dilemmas connected to the lived experiences of love, uniquely proposing an ethical framework that can be applied in loving relationships. The book provides an introduction to the study of ethics, moral psychology, and ancient philosophy. Examining key themes of love, such as unconditional love, romantic love, anger, desperation, and fairness, this book offers the reader a way to exercise and strengthen their personal critical thinking on ethical dilemmas, especially in relation to loving feelings. The author believes that ethics is the heart of love in the same way as logic is the brain of reasoning; we do not need ethics to love but we can love in a much healthier way if we train our ethical skills to love. After laying the theoretical

framework for the book, chapters are organized into themes relating to ethical problems and begin with an exemplary piece from Greek and Latin literature. Using these writings as a starting point, Susi Ferrarello discusses whether it is possible to have a sound ethical theory of love, especially in cases relating to justice, despair, and rage, and demonstrates how this framework can be applied in new and established relationships. Filled with case studies throughout, spiritual exercises are listed at the end of chapters to help the reader increase their understanding of love and their ethical choices surrounding emotional dilemmas. This interdisciplinary book is essential reading for undergraduate and graduate students who take classes on ethics, marriage and family therapy, psychology, philosophy, classics, ancient philosophy, and politics, as well as those interested in the ethics of love and emotional decision-making.
