[No End of Bad](#) - Ginny Fite 2022-09-27

A suburban housewife's world blows up when her husband is accused of espionage in this thriller by the author of the Sam Lagarde mysteries. In Washington, DC, FBI agent Clay Turnbull's peaceful lunch in the park ends with a storm of agents. The news reports say he is arrested for spying for the Russians, while Turnbull believes it is connected to his investigation of an international drug cartel. Unfortunately, his life is cut short before he can share the truth . . . The assassins who take out Turnbull are a powerful bunch, with a reach that extends all the way to the White House and its senior personnel. Turnbull's discovered their enterprise may be in danger, and now they must do whatever it takes to protect the highest levels of their democracy. With the CIA, FBI, and NSA technology at their fingertips, no one will be safe. Especially not Turnbull's wife and teenage daughter. They should run . . . "No End of Bad is another page-turner that kept me up late and made me get up early until I read the last word. Fite is a pro at weaving an intricate plot that makes you gasp time and again." —Jeanie Loiacono, literary agent

**The Conclusion to the Whole Matter** - Paul Douglas Castle 2014-02-11

As the author of The Conclusion to the Whole Matter, I conclude it's a risk of emotions to read this book. Because The Conclusion to the Whole Matter is a two-edged sword that cuts through myths, pagan practices, abominations, and the detestable traditions of men that are manifested in our society, and also in the churches of God. The Conclusion to the Whole Matter will stir up different emotions in all readers that read its contents, because The Conclusion to the Whole Matter will not let you see the world of Christianity as you once imagined it to be. The rose-colored glasses that most people view Christianity through may not seem so rosy after reading The Conclusion to the Whole Matter. But The Conclusion to the Whole Matter is the whole truth based on the word of God. In our society today men abhor the truth—they twist and veil it in darkness and insincerity. The Conclusion to the Whole Matter unveils hidden things that professing Christians might wish would stay hidden from the light. The contents of this book are devoted to the feelings and emotions of God. The Bible consists of approximately 782,000 words. The Conclusion to the Whole Matter is summed up in six words. But it's taken me approximately 190,000 words to put definition to The Conclusion to the Whole Matter. In the last days it will be 144,000 men of God and a flying angel who preach the last gospel on earth. The last gospel preached will be The Conclusion to the Whole Matter.

**Ethics and Neurodiversity** - Alexandra Perry 2014-09-26

Increasingly, voices in the growing neurodiversity movement are alleging that individuals who are neurologically divergent, such as those with conditions related to bipolar disorder, autism, schizophrenia, and depression, must struggle for their civil rights. This movement therefore raises questions of interest to

scholars in the humanities and social sciences, as well as to concerned members of the general public. These questions have to do with such matters as the accessibility of knowledge about mental health; autonomy and community within the realm of the mentally ill; and accommodation in civil society and its institutions. The contributors to Ethics and Neurodiversity explore these questions, and the traditional philosophical questions related to them. The authors pay special attention to the need to examine the policies and practices of institutions, such as higher education, social support, and healthcare.

**Apes Or Angels?** - Cornelius J. Troost 2007-03

Kitzmiller v. Dover Area School District civil lawsuit settled in favor of Kitzmiller.

**Lying, Cheating, and Occasionally . . . Murder** - Ginny Fite 2022-09-27

A West Virginia detective investigates a marriage that ended in murder in this mystery by the author of No Good Deed Left Undone. Methodical detective Sam Lagarde knows what it takes to solve a murder. But as for his personal life, he's not certain how he managed to find romance at his age. The big mysteries for him have always been love and women . . . All the evidence in his latest case, the murder of Harold Munson, points to his wife, Charlotte, as the primary suspect. Aside from having the means and motive, she's unbothered by the news of his death. She would much rather focus her time on her potentially Nobel Prize-winning cancer research and on quality time with her young lover. And when another body is found, she's looking all the more guilty. However, dogged Detective Lagarde is not so sure. But identifying the real killer means diving deep into the unhappy couple's dirty laundry and seeing who doesn't come out clean. "A well-planned, well-conceived murder mystery. . . . There is so much attention to detail that you're not reading the story, you're living it." —K.J. Simmill, author of the Forgotten Legacies series "A brilliant mystery that mixes science and suspense in just the right doses to keep you turning pages (and meeting interesting characters) until the end." —Sherri Moorner, author of the Tanger Falls mysteries

**Sometimes I Lie** - Alice Feeney 2019-05-22

New York Times AND INTERNATIONAL BESTSELLER "Boldly plotted, tightly knotted--a provocative true-or-false thriller that deepens and darkens to its ink-black finale. Marvelous." --AJ Finn, author of The Woman in the Window My name is Amber Reynolds. There are three things you should know about me: 1. I'm in a coma. 2. My husband doesn't love me anymore. 3. Sometimes I lie. Amber wakes up in a hospital. She can't move. She can't speak. She can't open her eyes. She can hear everyone around her, but they have no idea. Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if

you believe it's the truth?

The Detective Sam Lagarde Mysteries - Ginny Fite 2022-12-27

The first three Sam Lagarde mysteries, together in one set, featuring a hard-boiled detective with West Virginia's Bureau of Criminal Investigations. Cromwell's Folly Det. Sam Lagarde is on the brink of retirement, but first he must investigate the decapitation of a notorious ladies' man in Charles Town . . . No Good Deed Left Undone Sam's knowledge of horses may come in handy when a philanthropic philanderer is found dead, pinned to a stable with a pitchfork through his chest . . . Lying, Cheating, and Occasionally . . . Murder After a marriage ends in murder, Sam must dig through the unhappy couple's dirty laundry to see who doesn't come out clean . . . Praise for the Detective Sam Lagarde Mysteries "[Ginny Fite] has no trouble delving into the dark side of people and showing us that evil exists." —Katherine Cobb on Cromwell's Folly "A brilliant mystery that mixes science and suspense in just the right doses to keep you turning pages (and meeting interesting characters) until the end." —Sherri Moorer on Lying, Cheating, and Occasionally . . . Murder

**Crime and Punishment in Victorian London** - Ross Gilfillan 2014-03-03

Discover the seamy history of nineteenth-century England that has inspired countless crime novels and films. Victorian London: All over the city, watches, purses, and handkerchiefs disappear from pockets; goods migrate from warehouses, off docks, and out of shop windows. Burglaries are rife, shoplifting is carried on in West End stores, and people fall victim to all kinds of ingenious swindles. Pornographers proliferate and an estimated eighty thousand prostitutes operate on the city's streets. Even worse, the vulnerable are robbed in dark alleys or garroted, a new kind of mugging in which the victim is half-strangled from behind while being stripped of his possessions. This history takes you to nineteenth-century London's grimy rookeries, home to thousands of the city's poorest and most desperate residents. Explore the crime-ridden slums, flash houses, and gin palaces from a unique street-level view—and meet the people who inhabited them.

Lying, Cheating, and Carrying On - Henri Parens 2009-02-12

What constitutes a lie? What are the different types of lies? Why do people lie? Is dishonesty ubiquitous in human experience? And what should be done with individuals who seek psychotherapeutic help and yet can not reveal important aspects of their lives and even fabricate histories, associations, and dreams? Such questions form the backbone of this exceptional book. Starting with the emergence of the capacity to lie in childhood and the formative influence of the family in children's moral development, the discourse goes on to include the variety of adulthood lies, including social lies, existential lies, pathological lies, narcissistic lies, and sociopathic lies. Contributions from distinguished psychoanalysts like Salman Akhtar, Harold Blum, Ruth Fischer, Lucy LaFarge, Henri Parens, and Michael Stone, along with others, explore the impact of dishonesty on the internal and external realities of an individual. Malignant forms of lies involving serious character pathology and criminality, as well as their detection, are also discussed. The book's aim is to help therapists enhance their empathy with patients who are compelled to lie and to provide them with better therapeutic strategies to deal with the clinical dilemmas that arise in working with such children and adults.

**Cromwell's Folly** - Ginny Fite 2022-09-27

A West Virginia cop must determine who had an axe to grind with a notorious womanizer in this mystery series opener. Retirement is on the horizon for Det. Sam Lagarde of West Virginia's Bureau of Criminal Investigations, and he's looking forward to it. As a cop with a reputation for persistence, he's earned some relaxation. But first, there's the matter of a head . . . Ben Cromwell is discovered, decapitated, in a dumpster behind a Charles Town spa. A known regular at the regional jail, Cromwell was no stranger to trouble. He was also no stranger to the ladies. As Lagarde begins digging into the victim's life, he finds five women with one thing in common: their hatred of Ben Cromwell. Determining which of them followed through on that feeling won't be easy, but if Lagarde doesn't lose his top, he'll come out ahead . . . "Layer upon layer, Ms. Fite connects the dots between her well-defined and wonderfully diverse characters." —Rochelle Wisoff-Fields, author of Please Say Kaddish for Me "[Ginny Fite] has no trouble delving into the dark side of people and showing us that evil exists." —Katherine Cobb, author of Break Out the Dawn "Not your ordinary murder mystery! . . . I couldn't put it down." —Tonya Royston, author of Surrender at

Sundown

Mach 21 - Midas Jones 2020-05-26

Machiavellianism has acquired an undeserved bad reputation in recent centuries. It has become synonymous with lying, cheating, stealing, defrauding, and murdering. It is true that Machiavelli did discuss the use of these harsh tactics, among many other, less abrasive ones. In his superb book, *The Prince*, he told us that he had known Popes, kings, queens, generals, and many other powerful and prestigious people. All of them, he observed, resorted to unsavory methods at one time or another to attain their lofty positions and stay in them. He described the many methods for attaining our life's goals. He did not, however, describe what those goals should be. We must decide for ourselves what our goals in life are to be, he assured us. Machiavelli simply advised us on how to accomplish those goals, whatever they may be. Whether you want to be an elementary school teacher, a corporate CEO, a good mother, a humble parish priest, or a comfortable retiree, you need to have a plan for achieving your ambitions. Selecting your goals is your strategy. The methods by which you achieve your self-selected goals are your tactics. Machiavelli described many tactics. During our seances, Machiavelli told me that, while alive, he knew nothing about the scientific discoveries that would come into existence in the 500 years after his death. From the afterlife, he had followed the advances in knowledge and updated his teachings to include them. He whispered his provocative new teachings into my mind as I eagerly took notes on my laptop. Once you have considered them, the ideas presented in this book are self-evident. You only get one ride on Life's Carousel. One day your life will, unfortunately, end. On your deathbed, you do not want to look back on a life of wasted moments and unexplored possibilities. No matter how old you are or how long you expect to live, there is not a moment to waste. The purposes and meaning of life are in the living of it, moment by moment. On Ends and Means: The ends usually justify the means. On Evil: Is Machiavellianism just another name for "evil?" No. This book suggests that there is no such thing as "evil" and "Machiavellianism" is just a name for Machiavelli's ideas. The very concept of "evil" is a balloon full of hot, stale air, ready to pop at the tiniest pin-prick of rational thought. On Human Nature: Trust in human nature. Expect those around you to lie, sue, cheat, deceive, ridicule, criticize, double-deal, blackmail, injure, equivocate, obfuscate, and - occasionally - murder. Expect those around you to be lazy, late, immature, self-centered, slow to pay, short-sighted, and vain. Your opponents will not play fairly (and, probably, neither will you). On Leadership: Have you ever wondered how brilliant generals - like Caesar, Washington, or Grant - turn a series of defeats into a final triumphant victory? By leaving some of their soldiers to die on the battlefield while they themselves made their escape. Only those who survive their defeats have an opportunity to march in the victory parade later. On Luck: Luck is the shuffle of the cards. Luck is bird shit in your hair. Luck is the Lotto machine picking the numbers that you have been playing every week for five years - making you a millionaire. Luck is the Lotto machine picking your numbers - on the only day in five years that you forgot to buy your ticket. Luck is inadvertently running a stop sign at sixty miles per hour - when there is no cop around to write you a citation. Luck is inadvertently running a stop sign at sixty miles per hour - hitting a school bus filled with fourth-graders broadside. Corruption: Where corruption is possible, there corruption will be found.

Post-Liberalism - Melvyn L. Fein 2017-09-08

Liberalism is dying—despite its superficial appearance of vigor. Most of its adherents still believe it is the wave of the future, but they are clinging to a sinking dream. So says Melvyn L. Fein, who argues that liberalism has made countless promises, almost none of which have come true. Under its auspices, poverty was not eliminated, crime did not diminish, the family was not strengthened, education was not improved, nor was universal peace established. These failures were not accidental; they flow directly from liberal contradictions. In *Post-Liberalism*, Fein demonstrates why this is the case. Fein contends that an "inverse force rule" dictates that small communities are united by strong forces, such as personal relationships and face-to-face hierarchies, while large-scale societies are integrated by weak forces, such as technology and social roles. As we become a more complex techno-commercial society, the weak forces become more dominant. This necessitates greater decentralization, in direct opposition to the centralization that liberals celebrate. Paradoxically, this suggests that liberalism, as an ideology, is regressive rather than progressive. If so, it must fail. Liberals assume that some day, under their tutelage, these trends will be reversed, but this contradicts human nature and history's lessons. According to Fein, we as a species are incapable of

eliminating hierarchy or of loving all other humans with equal intensity. Neither, as per Emile Durkheim, are we able to live in harmony without appropriate forms of social cohesion.

**Find a Man, Don't Settle Down** - Alina Popescu 2019-05-21

Cheating exes, missing exes, and former crushes There are few things in this world that private investigator Emmett Naoki loves. His job and the business he's built, OWL Investigations, are his biggest passion. Then there's sleeping in and working alone, but he isn't getting much of either these days. His hates are similarly specific. He despises his gift—or curse, depends on how you look at it—of always being hit with the truth right in the face. He loathes smug bastards who used to make him feel unwanted as a teen. Yet he's hired their king, David Wright, as his side-kick. In Emmett's defense, he was drunk at the time. At the top of his hate list are liars and cheaters. They're the lowest of the low. So why exactly has Emmet agreed to help cheating ex no.1, Byron, to find backstabbing—and now missing—ex no.2, Chris? Especially since the cops think nothing's amiss. Find a Man, Don't Settle Down is the first book in the LGBT mystery series OWL Investigations. If you like sarcastic PIs and snarky banter, engaging mysteries and a touch of comedy to your life-and-death situations, then you'll love this new series. Start reading Find a Man, Don't Settle Down today to find out what happened to Emmett's missing man.

**Murder for Hire: In the Name of Money** - R. Larry Edinger 2005-04

Murder for Hire: In the Name of Money is a story of Sex, Lies, Double Crossing, Scams, and Murder. Based on true events as lived by author, this fictional novel takes the suspenseful drama to a new level with a tongue-in-cheek view. Order today, and read for yourself how R Larry Edinger, ... brings a wild and witty reflection on the everyday sins of white collar crimes.

**Reading for Learning** - Maria Nikolajeva 2014-06-15

How does reading fiction affect young people? How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of self-hood? Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children's literature theory also offers significant insights for literary studies beyond the scope of children's fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people's intellectual, emotional and social maturation.

**Human Interests** - Joseph Mendola 2014-04

"This book develops an ethical theory in the consequentialist tradition, but which also incorporates contractarian and deontological elements."--Introduction.

**Cop Out** - Claire McNab 2003-08-01

A family business turns deadly... Bryce Darcy, partner in a highly successful family business, has been brutally murdered. Charlotte Darcy, sister to the victim, has confessed. Open and shut case, Detective Inspector Carol Ashton is informed. Not so, argues Carol's aunt, friend to the Darcy family. She contends that Charlotte is mentally incompetent. Carol reopens the investigation. But she is in personal crisis, close to burnout. Sick of the patriarchal framework of police work, sick of hiding her real lesbian self for the sake

of her career. Carol's lover is not much help—Sybil has found her own direction in a dynamic women's group. And the loyal Detective Sergeant Mark Bourke is distracted by his interest in the career of a promising female constable new to homicide. Amid her own predicament, Carol finds herself embroiled in a family at war. She discovers that the dead man was a member of a support group for married gay men. And that the Darcy family, blessed with fame and fortune, seethes with secrets: ambiguous parentage, a disgraceful family swindle, fraud, infidelity, attempted drug poisoning. And among the warring Darcys is a pitiless murderer.

**Emerald Embrace** - Heather Graham 2023-05-16

From a New York Times–bestselling author, “readers will thrill” to this historical novel, a “sensual and mysterious gothic romance” set in 1865 Scotland (Publishers Weekly, starred review). Martise St. James came to the Scottish Highlands in search of answers after her friend's mysterious death—and to bring home the legendary St. James emerald. But once she encounters the darkly handsome Lord Creegan, she wonders if she dares to share the lonely castle with the alluring widower. Everything about him arouses her suspicions—as well as her every desire. Even as she investigates his secrets, she surrenders to the devastating power of his desire. Soon the question becomes whether she will lose her heart—or her life. Praise for Heather Graham “A master storyteller!” —Romantic Times “[Graham] writes high-quality, addicting romances.” —Publishers Weekly “Each page keeps one eager to get to the next.” —Affaire de Coeur Emerald Embrace was originally written under the pseudonym Shannon Drake

**The Good Sister and Her Flying Monkeys** - Alexa Blye 2022-01-18

Inspired by a true story Elena Lacosta, a paranoid, take-no-prisoners drug trafficker turned FBI fugitive, marries a cop and fights her inner demons; her new life depends on it. When Elena's oldest brother Gabriel is killed, she listens to what seems like endless accolades about him at his memorial service, held in a packed church with standing room only; and before the dirt on his grave can settle, she is scheming to reinvent herself in her dead brother's image to launch her new life. Elena plants rumors about another brother, Tomas, a college professor with Asperger's whom she views as a threat to her new image and life. When she falsely accuses him of pedophilia, Tomas turns family detective and unknowingly crosses paths with an undercover FBI agent who is hot on Elena's trail for the murder of his half-brother twelve years earlier—and Elena's carefully constructed mask begins to unravel.

**No Good Deed Left Undone** - Ginny Fite 2022-09-27

A West Virginia cop investigates the murder of a philanthropic philanderer in this mystery by the author of Cromwell's Folly. A detective with West Virginia's Bureau of Criminal Investigations, Sam Lagarde appreciates a good horseback ride now and then to clear his thoughts. He keeps two horses of his own and finds their companionship to be more reliable than any of his previous marriages. And now his knowledge of horses may come in handy on his current case . . . Wealthy Grant Wodehouse is found pinned to his stable with a pitchfork through his chest. Lagarde's certain it was a crime of passion. The trouble is Wodehouse had plenty of enemies: women he'd slept with, their husbands, people he'd swindled in business dealings, and even his own children. To discover who murdered Wodehouse, Lagarde must first narrow his list of suspects. Unfortunately, the killer is all too willing to help. Praise for Cromwell's Folly “[Ginny Fite] has no trouble delving into the dark side of people and showing us that evil exists.” —Katherine Cobb, author of Break Out the Dawn “Not your ordinary murder mystery! . . . I couldn't put it down.” —Tonya Royston, author of Surrender at Sundown
