The Vinyl Frontier - Jonathan Scott 2019-05-21

'Bursts with gloriously geeky detail.' The Telegraph Have you ever made someone you love a mix-tape? Forty years ago, a group of scientists, artists and writers gathered in a house in Ithaca, New York to work on the most important compilation ever conceived. It wasn't from one person to another, it was from Earth to the Cosmos. In 1977 NASA sent Voyager 1 and 2 on a Grand Tour of the outer planets. During the design phase of the Voyager mission, it was realised that this pair of plucky probes would eventually leave our solar system to drift forever in the unimaginable void of interstellar space. With this gloomy-sounding outcome in mind, NASA decided to do something optimistic. They commissioned astronomer Carl Sagan to create a message to be fixed to the side of Voyager 1 and 2 - a plaque, a calling card, a handshake to any passing alien that might one day chance upon them. The result was the Voyager Golden Record, a genre-hopping multi-media metal LP. A 90-minute playlist of music from across the globe, a sound essay of life on Earth, spoken greetings in multiple languages and more than 100 photographs and diagrams, all painstakingly chosen by Sagan and his team to create an aliens' guide to Earthlings. The record included music by J.S. Bach and Chuck Berry, a message

of peace from US president Jimmy Carter, facts, figures and dimensions, all encased in a golden box. The Vinyl Frontier tells the story of NASA's interstellar mix-tape, from first phone call to final launch, when Voyager 1 and 2 left our planet bearing their hopeful message from the Summer of '77 to a distant future.

Songs in the Key of Z - Irwin Chusid 2000

Irwin Chusid profiles a number of "outsider" musicians - those who started as "outside" and eventually came "in" when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

On Chesil Beach - Ian McEwan 2008-06-10

NATIONAL BESTSELLER • The Booker Prize winner and bestselling author of *Atonement* brilliantly illuminates the collision of sexual longing, deep-seated fears, and romantic fantasy on a young couple's wedding night. "No one now writing in English surpasses or even matches McEwan's accomplishment." —The Washington Post Book World It is 1962, and Florence and Edward are celebrating their wedding in a hotel on the Dorset coast. Yet as they dine, the expectation of their marital duties become overwhelming. Unbeknownst to them both, the decisions they make this night will resonate throughout their lives. With exquisite prose, Ian McEwan creates in *On Chesil Beach* a story of lives transformed by a gesture not made or a word not spoken. Don't miss Ian McEwan's new novel, *Lessons*.

Sticking It Out - Patti Niemi 2016-04-01

"By turns reflective and dramatic, poignant and hilarious, *Sticking It Out* offers an irresistible portrait of the artist as a young percussionist" (San Francisco Chronicle). When Patti Niemi was ten years old, all the children in her school

music class lined up to choose their instruments. Boy after boy chose drums, and girl after girl chose flute—that is, until it was Patti's turn. From that point onward, Patti devoted her life to mastering the percussive arts. Cymbals, snare drum, marimba, timpani, chimes: she practiced them all, and in 1983, she entered Juilliard, the most prestigious music conservatory in the world. Set against the backdrop of a rapidly changing New York City in the 1980s, *Sticking It Out* recounts Patti's years mastering her craft and struggling to make it in a cutthroat race to a coveted job in an orchestra. Along the way, she has to compete with friends, face her own crippling anxiety, and confront the delicate, and sometimes perilous, balance of power between teachers and their students. Bringing us inside a world that most of us never get to see, Patti's vivid memoir is "an eye-opening tale of demanding teachers, grueling practice schedules, severe performance anxiety and bias against 'girl drummers'—a funny, poignant first-person account of the fierce commitment it takes to succeed in classical music" (San Jose Mercury News). "One of the funniest-ever classical-music books . . . and certainly among the best written." —The Philadelphia Inquirer "A shattered-mirror insight into the bizarre world of hitting things with sticks." —Neil Peart, bestselling author, lyricist, and drummer for Rush

Brian Eno - Eric Enno Tamm 1995-08-22
Musician, composer, producer: Brian Eno is unique in contemporary music. Best known in recent years for producing U2's sensational albums, Eno began his career as a synthesizer player for Roxy Music. He has since released many solo albums, both rock and ambient, written music for film and television soundtracks, and collaborated with David Bowie, David Byrne, Robert Fripp, and classical and experimental composers. His pioneering ambient sound has been enormously influential, and without him today's rock would have a decidedly different sound. Drawing on Eno's own words to examine his influences and ideas, this book—featuring a new afterword and an updated discography and bibliography—will long remain provocative and definitive.

Doxology - Nell Zink 2019-08-27

Two generations of an American family come of age - one before 9/11, one after - in this moving

and original novel from the "intellectually restless, uniquely funny" (New York Times Book Review) mind of Nell Zink

The Score, the Orchestra, and the Conductor - Gustav Meier 2009-08-26

Known internationally for his work as a teacher of conducting, Gustav Meier's influence in the field cannot be overstated. In *The Score, the Orchestra and the Conductor*, Meier demystifies the conductor's craft with explanations and illustrations of what the conductor must know to attain podium success. He provides useful information from the rudimentary to the sophisticated, and offers specific and readily applicable advice for technical and musical matters essential to the conductor's first rehearsal with the orchestra. This book details many topics that otherwise are unavailable to the aspiring and established conductor, including the use of the common denominator, the "The ZIG-ZAG method", a multiple, cross-indexed glossary of orchestral instruments in four languages, an illustrated description of string harmonics, and a comprehensive listing of voice categories, their overlaps, dynamic ranges and repertory. *The Score, the Orchestra and the Conductor* is an indispensable addition to the library of every conductor and conducting student.

The Devil in Los Angeles - 2011-07-01

Have you ever wondered why things are so bad in Los Angeles? Why is everything so irritating? Why are the lines so long? Why is everyone so selfish and immature? If you spend your time asking questions like these then you should meet the person responsible. Barlaam Smith is the devil assigned to Southern California. He has been so successful that he has worked himself out of a job. The people in his area are now so bad that he doesn't have to do a thing and his statistics are still incredible. In fact, many Angelinos could do his job better than he could on his best (or worst) day. Through his work in media and other modern means the city does his work automatically. So, he's bored and has begun to question himself. He's been pretending to be a human for ages, so the longer he stays on Earth the more human he becomes while all around him we humans become less so. What can he do?

Mozart in the Jungle - Blair Tindall 2015-01-30

Now a major Amazon.com TV series starring Gabriel Garcia Bernal. From her debut recital at Carnegie Hall to performing with the orchestras of Les Miserables and Miss Saigon, oboist Blair Tindall has been playing classical music professionally for over twenty-five years. She's also lived the secret life of musicians who survive hand to mouth, trading sex and drugs for low-paying gigs and the promise of winning a rare symphony position or a lucrative solo recording contract. In *Mozart in the Jungle*, Tindall describes her graduation from the North Carolina School of the Arts to the backbiting New York classical music scene, a world where Tindall and her fellow classical musicians often play drunk, high, or hopelessly hung-over, live in decrepit apartments, and perform in hazardous conditions. (In the cramped confines of a Broadway pit, the decibel level of one instrument is equal to the sound of a chain saw.) *Mozart in the Jungle* offers a stark contrast between the rarefied experiences of overpaid classical musician superstars and those of the working-class musicians. For lovers of classical music, *Mozart in the Jungle* is the first true, behind-the-scenes look at what goes on backstage and in the Broadway pit.

[Secret Lives of Great Composers](#) - Elizabeth Lunday 2014-04-08

True tales of murder, riots, heartbreak, and great music. With outrageous anecdotes about everyone from Gioachino Rossini (draft-dodging womanizer) to Johann Sebastian Bach (jailbird) to Richard Wagner (alleged cross-dresser), *Secret Lives of Great Composers* recounts the seamy, steamy, and gritty history behind the great masters of international music. You'll learn that Edward Elgar dabbled with explosives; that John Cage was obsessed with fungus; that Berlioz plotted murder; and that Giacomo Puccini stole his church's organ pipes and sold them as scrap metal so he could buy cigarettes. This is one music history lesson you'll never forget!

Project MK-Ultra - Brandon Beckner 2022-01-11

San Francisco, 1971. As the Vietnam War rages, the government wages war at home against the

hippy counter-culture. High profile drug trials capture headlines. Seymour Phillips, a headstrong journalist eager to prove himself, discovers key information uncovering a vast drug network. A routine interview leads to a sensational accusation that the man accused of trafficking mass quantities of LSD, works for the CIA. Seymour is approached by CHASE, an eccentric, paranoid stranger in disguise who claims to be a former CIA operative and have the inside scoop on the CIA/LSD connection. Chase insists that Seymour has only scratched the surface. The two forge a most uncommon alliance in a dangerous and mind-bending quest for the truth behind quite possibly the most bizarre chapter of the CIA's history. While most Americans were watching *Leave it to Beaver* and listening to *The Everly Brothers*, an eclectic group of CIA operatives were spiking each other's coffees with LSD, throwing decadent parties and hiring prostitutes to slip unsuspecting johns drug-laced drinks in order to observe every stoned and kinky moment from behind two-way mirrors. And this was only when they weren't dreaming up the next far reaching "official" application for this new, all-powerful, mind blowing drug - a drug that would ironically fuel the counter-culture over a decade later. Coincidence? Maybe not.

LSD, My Problem Child - Albert Hofmann 2005

The Maestro Myth - Norman Lebrecht 2001
Nearly ten years after its original publication, *The Maestro Myth* continues to enthrall readers with its insightful look into the lives and careers of the world's most celebrated conductors. Now updated and including two new chapters, this volume portrays the politics and inflated economics surrounding the podiums of today's international classical music scene, and the obstacles faced by blacks, women, and gays. From Richard Strauss to Herbert von Karajan to Leonard Bernstein to Simon Rattle, *The Maestro Myth* examines the world of classical music and the mounting crisis in a profession where genuine talent grows ever scarcer. It is a must-have resource for music aficionados as well as anyone interested in the behind-the-scenes lives of these music masters. Book jacket.

Real Men Don't Rehearse - Justin Locke 2012
"Real Men Don't Rehearse" is a laugh-out-loud inside look at the usually hidden and secret world of professional orchestras. It is filled with dozens of humorous tales of musician antics and concert meltdowns. This is not just for musicians! With over a thousand copies sold, it has proven to be an enormous hit with general readers ages teen and up. Now in its fifth printing (a self-publishing miracle), the title and cover design make it top seller in bookstores, as everyone has a hard-to-shop-for relative with an interest in music. "Real Men Don't Rehearse" was written by Justin Locke, who spent 18 seasons as a professional freelance double bassist in Boston. He played with the Boston Symphony and the Boston Pops, as well as for ballets, operas, and Broadway shows. He is also well known in the symphonic world as the author of "Peter VS. the Wolf" and "The Phantom of the Orchestra," which are internationally acclaimed programs for orchestra family concerts. This book has been reviewed and excerpted in many international magazines, and is a book no musical library should be without.

Composing for the Cinema - Ennio Morricone
2013-10-10

With nearly 400 scores to his credit, Ennio Morricone is one of the most prolific and influential film composers working today. In *Composing for the Cinema*, Morricone and musicologist Sergio Miceli present a series of lectures on the composition and analysis of film music. Adapted from several lectures and seminars, these lessons show how sound design can be analyzed and offer a variety of musical solutions to many different kinds of film. Drawing upon scores by himself and others, the composer also provides insight into his relationships with many of the directors with whom he has collaborated, including Sergio Leone, Giuseppe Tornatore, Franco Zeffirelli, Warren Beatty, Ridley Scott, Roland Joffé, the Taviani Brothers, and others. Delivered in a conversational mode that is both comprehensible and interesting, this groundbreaking work intertwines analysis with practical details of film music composition.
