Netflix' Spain Jorge González del Pozo 2023-10-02 This edited collection analyzes the tensions, contradictions, contributions, and new horizons generated and/or imposed by Netflix within Spain's audiovisual culture. This book provides invaluable insight into how Netflix—first in its role as distributor and then as content creator—has changed the audiovisual landscape in Spain. It discusses how Netflix challenges the traditional method of categorizing film and television output by nationality while also examining how Spain is presented to other countries through the Netflix catalog and questioning what its chosen output—light comedies, mystery/thrillers, narco-fiction, and crime—means for Spain's national brand. With chapters addressing themes such as reproducibility, pan-Europeanism after Brexit, gender representation, identity, and globalization, this book explores how—under the influence of Netflix—Spain is transitioning from an importer of audiovisual content to a center of export. This book will appeal to students and scholars of Film and Media Studies, Hispanic and Iberian Studies, and Spanish with a specific interest in Spanish film, television, media, and culture, as well as global media industries.

Mind the Gap Karen Gurney 2020-03-05 'This book taught me so much about female desire. A must read!' Cherry Healey Did you know that there is an orgasm gap of around 30% between heterosexual couples when they have sex? In *Mind The Gap*, Dr Karen Gurney, a clinical psychologist and certified psychosexologist, explores not just this gap, but the gaps in our knowledge of so much of the most important new science around sex and desire. In this book, you will learn that nearly everything that you've been led to believe about female sexuality isn't actually true. And that, despite what you

might think, it is possible to simultaneously feel little to no spontaneous desire and have a happy and mutually satisfying sex life long term. Exploring the mismatch between ideas about sex in our society and what the science tells us, *Mind The Gap* also explains how this disconnect lies at the root of many of our sexual problems. Combining science with case studies, practical exercises and tips, this is a book for anyone who wants to better understand the mechanics of desire and futureproof their sex life, for life.

Doing It Hannah Witton 2017-04-06 Book of the Year at the Summer in the City Awards 2017 Sexting. Virginity. Consent. The Big O ... Let's face it, doing it can be tricky. I don't know anyone (including myself) who has sex all figured out. So I've written a book full of honest, hilarious (and sometimes awkward) anecdotes, confessions and revelations. And because none of us have all the answers, I've invited some friends and fellow YouTubers to talk about their sexuality, too. My book is for everyone, no matter what gender you identify as or who you fancy. We talk about doing it safely. Doing it joyfully. Doing it when you're ready. Not doing it. Basically, doing it the way you want, when you want. So. Let's do this ... ----- *Doing It* candidly and openly explores topics like masturbation, slut-shaming, pornography and consent, as well as how to maintain healthy relationships in a digital age.

Lady Bird Rob Stone 2022-11-17 Examining the ideas, philosophies and strategies that inform and enable a young woman's self-determination for a new century, this is a detailed, insightful study of Greta Gerwig's much-loved, influential and critically acclaimed film. Drawing on Transcendentalism, French feminist thought, Californian art and the work of iconic American essayist Joan Didion, Rob Stone approaches *Lady Bird* as a film about young women's self-determination in relation to other women and waves of feminist history. Structured to emulate the evolving conscience and emerging consciousness of the film's eponymous protagonist, this new volume in the Cinema and Youth Cultures series provides an incisive portrait of a particular American youth subculture struggling to assert its identity between the shock of 9/11 in 2001 and the global financial crisis of 2008. It also sensitively examines tensions between Gerwig and *Lady Bird*, and between *Lady Bird* being set in 2002 and made in 2017. Written by an expert on American independent cinema and the dynamics of World Cinema, this volume explores strategies of self-determination that ignite in the friction between mothers and daughters and culminate in considerations of how the film's form and aesthetics lead to reflections on its philosophy and politics. Situating *Lady Bird* in the genre of youth movies and feminist film practice and culture, this book is ideal for students and researchers looking

at wider dialogues and discourses about feminism, philosophy, gender, genre and American independent filmmaking.

Behavioral Finance: The Second Generation Meir Statman 2019-12-02 Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance’s notion of people’s wants as “rational” wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as “irrational”—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people’s normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People’s normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People’s normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

Group Therapy BB Easton 2022-02-01 From the Wall Street Journal bestselling author of 44 Chapters About 4 Men (inspiration for the Netflix Original Series Sex/Life) comes a fun, forbidden romantic comedy about an inexperienced psychologist and her ultra-famous client. I am thiiiiis close to finally becoming a full-fledged psychologist. PhD? Check. Prestigious postdoc position, providing therapy to entitled millionaires and C-list celebrities whose pumpkin spice lattes cost more than my Converse and make excellent projectiles during their reality TV-worthy tantrums? Check. Letter of recommendation from my velociraptor-like supervisor? That's going to take a miracle. Not only because my boss said I have to cure our most-prized client's writer's block in time for him to meet his insane deadline, but also because that client just so happens to be ... Thomas F*@%ing O'Reardon. Yeah, that Thomas O'Reardon. The wickedly brilliant, achingly beautiful, devastatingly British best-selling author whose psychological thrillers line my bookshelf at home and whose face I might or might not picture while I ... you get the point. Sitting in a confined space with him; inhaling the crisp, clean scent of his cologne; gazing into his broody blue eyes while trying to remember to nod and listen and come up with suggestions that don't involve taking our clothes off ... it's torture. So, when Thomas casually asks me out at the end of a therapy session, I'm forced to make an impossible choice: say yes and risk losing my dream job, or say no and risk losing my dream guy. In a panic, I blurt out a third option—the only solution I can think of that will allow me to see this man after hours without it being considered a career-ending ethics violation: Group therapy. The only problem? I've never actually done group therapy. And side problem: my other clients are ... a handful. But what's the worst that could happen? I mean, it's not like I'm going to lose all control of the group and let it devolve into a chaotic, bloodthirsty, topless fight club. Right? PLEASE NOTE: Group Therapy is intended for mature audiences who enjoy dark humor, adorably quirky characters, forbidden love, delicious tension, explicit adult content, and infuriatingly handsome British heroes. For a comprehensive CW (with spoilers), please visit the author's website. Enjoy!

Best. Movie. Year. Ever. Brian Raftery 2020-03-31 From a veteran culture writer and modern movie expert, a celebration and analysis of the movies of 1999—"a terrifically fun snapshot of American film culture on the brink of the Millennium....An absolute must for any movie-lover or pop-culture nut" (Gillian Flynn). In 1999, Hollywood as we know it exploded: Fight Club. The Matrix. Office Space. Election. The Blair Witch Project. The Sixth Sense. Being John Malkovich. Star Wars: The Phantom Menace. American Beauty. The Virgin Suicides. Boys Don't Cry. The Best Man. Three Kings. Magnolia. Those are just some of the landmark titles released in a dizzying movie year, one in which a group of daring filmmakers and performers pushed cinema to new limits—and took audiences along for the ride. Freed from the restraints of budget, technology, or even taste, they produced a slew of classics that took on every topic imaginable, from sex to violence to the end of the world. The result was a highly unruly, deeply influential set of films that would not only change filmmaking, but also give us our first glimpse of the coming twenty-first century. It was a watershed moment that also produced The Sopranos; Apple's AirPort; Wi-Fi; and Netflix's unlimited DVD rentals. "A spirited celebration of the year's movies" (Kirkus Reviews), Best. Movie. Year. Ever. is the story of not just how these movies were made, but how they re-made our own vision of the world. It features more than 130 new and exclusive interviews with such directors and actors as Reese Witherspoon, Edward Norton, Steven Soderbergh, Sofia Coppola, David Fincher, Nia Long, Matthew Broderick, Taye Diggs, M. Night Shyamalan, David O. Russell, James Van Der Beek, Kirsten Dunst, the Blair Witch kids, the Office Space dudes, the guy who played Jar-Jar Binks, and dozens more. It's "the complete portrait of what it was like to spend a year inside a movie theater at the best possible moment in time" (Chuck Klosterman).

Regretting Motherhood Orna Donath 2017-07-11 Women who opt not to be mothers are frequently warned that they will regret their decision later in life, yet we rarely talk about the possibility that the opposite might also be true—that women who have children might regret it. Drawing on years of research interviewing women from a variety of socioeconomic, educational, and professional backgrounds, sociologist Orna Donath treats regret as a feminist issue: as regret marks the road not taken, we need to consider whether alternative paths for women currently are blocked off. She asks that we pay attention to what is forbidden by rules governing motherhood, time, and emotion, including the cultural assumption that motherhood is a "natural" role for women—for the sake of all women, not just those who regret becoming mothers. If we are disturbed by the idea that a woman might regret becoming a mother, Donath says, our response should not be to silence and shame these women; rather, we need to ask honest and difficult questions about how society pushes women into motherhood and why those who reconsider it are still seen as a danger to the status quo. Groundbreaking, thoughtful, and provocative, this is an especially needed book in our current political climate, as women's reproductive rights continue to be at the forefront of national debates.

The Fires of Lust Katherine Harvey 2022-11-28 An illuminating exploration of the surprisingly familiar sex lives of ordinary medieval people. The medieval humoral system of medicine suggested that it was possible to die from having too much—or too little—sex, while the Roman Catholic Church taught that virginity was the ideal state. Holy men and women committed themselves to

lifelong abstinence in the name of religion. Everyone was forced to conform to restrictive rules about who they could have sex with, in what way, how often, and even when, and could be harshly punished for getting it wrong. Other experiences are more familiar. Like us, medieval people faced challenges in finding a suitable partner or trying to get pregnant (or trying not to). They also struggled with many of the same social issues, such as whether prostitution should be legalized. Above all, they shared our fondness for dirty jokes and erotic images. By exploring their sex lives, the book brings ordinary medieval people to life and reveals details of their most personal thoughts and experiences. Ultimately, it provides us with an important and intimate connection to the past.
