Come As You Are: Revised and Updated Emily Nagoski 2021-03-02 A revised and updated edition of Emily Nagoski's game-changing New York Times bestseller *Come As You Are*, featuring new information and research on mindfulness, desire, and pleasure that will radically transform your sex life. For much of the 20th and 21st centuries, women's sexuality was an uncharted territory in science, studied far less frequently—and far less seriously—than its male counterpart. That is, until Emily Nagoski's *Come As You Are*, which used groundbreaking science and research to prove that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the parts are or how they're organized but how you feel about them. In the years since the book's initial publication, countless women have learned through Nagoski's accessible and informative guide that things like stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it—and that even if you don't always feel like it, you are already sexually whole by just being yourself. This revised and updated edition continues that mission with new information and advanced research, demystifying and decoding the science of sex so that everyone can create a better sex life and discover more pleasure than you ever thought possible.

Touchy Subject Lauren Bialystok 2022-12-23 A case for sex education that puts it in historical and philosophical context. In the United States, sex education is more than just an uncomfortable rite of passage: it's a political hobby horse that is increasingly out of touch with young people's needs. In Touchy Subject, philosopher Lauren Bialystok and historian Lisa M. F. Andersen unpack debates over sex education, explaining why it's worth fighting for, what points of consensus we can build upon, and what sort of sex education schools should pursue in the future. Andersen surveys the history of school-based sex education in the United States, describing the key question driving reform in each era. In turn, Bialystok analyzes the controversies over sex education to make sense of the arguments and offer advice about how to make educational choices today. Together, Bialystok and Andersen argue for a novel framework, Democratic Humanistic Sexuality Education, which exceeds the current conception of "comprehensive sex education" while making room for contextual variation. More than giving an honest run-down of the birds and the bees, sex education should respond to the features of young people's evolving worlds, especially the digital world, and the inequities that put some students at much higher risk of sexual harm than others. Throughout the book, the authors show how sex education has progressed and how the very concept of "progress" remains contestable.

Schooling Sexual Cultures Louisa Allen 2017-03-31 Moving beyond the traditional focus on curriculum and pedagogy, this volume explores hidden dimensions of sexuality education in schools and how sexual meanings are produced. Challenging the standard understandings of sexuality education, Allen discusses how students' knowledge of sexualities is often learnt outside the 'official' school curriculum in informal spaces such as the sports field, gym locker rooms and peer groups. By employing visual methods and analysing student photo-diaries, Allen's original book captures a sexual culture of schooling that allow readers to literally 'see through young people's eyes.' Introducing theoretical ideas in relation to queer theory and 'new' feminist new materialisms, this volume calls for a re-conceptualization of how sexuality comes into being at school, in order to take account of its material, spatial and embodied elements.

[De]constructing Identities in/through Sex Education Anna Zoë Steininger 2023-11-22 Bachelor Thesis from the year 2023 in the subject English Language and Literature Studies - Other, grade: 1,0, University of Cologne (Philosophische Fakultät), language: English, abstract: When the British comedy-drama series Sex Education debuted on Netflix in 2020 (with three further seasons following in 2020, 2021 and 2023), screenwriter Laurie Nunn's show was welcomed by critics and audiences alike as an innovative addition to the often rather formulaic canon of cinematic teen narratives. This paper will investigate on various levels what role the eponymous [Sex-]Education plays in the series. Education is part and parcel of Sex Education. While telling a story that focuses on the lives of students, parents and teachers of Moordale Secondary School, including [sex-]educational matters in the plot, the show clearly has its own didactics to eventually educate its spectators. On the one hand, conventional educational systems, and mechanisms of socialization such as school, therapy, family, and popular culture are part of the plot, which makes visible the kind of influence these might have on adolescent identity formation. On the other hand, common educational structures are taken and playfully converted. Also, well-known educational hierarchies are mentioned, are deconstructed, and finally re-emerge, their original order reversed. The spectator is presented with the question "Who educates who?". Normative, conventional forms of relation are often dissolved and new forms of companionship or even kinship are established. The series subjects its protagonists as well as its spectators to dichotomies such as direct/indirect education and conscious/unconscious education and it mirrors the different ways in which education can affect and [de-]construct identity. The series investigates the relation between power and knowledge, ultimately obtained through education, it negotiates questions regarding the place and the way in which people receive and share education and it reveals how ideologies are imparted and how they direct a certain discourse. For my analysis of how Sex Education/[Sex-]Education [de-]constructs identities, educational systems and institutions, uncommon educational structures and the development of the characters and their relations within the diegesis and on a metatextual level, the series' didactics will be considered. Recourses to conceptual works by Judith Butler, Kimberley Crenshaw, Donna Haraway, Louis Althusser, and Timothy Shary will be mobilized to conceptualize the manifold role education plays in this show.

Competing Masculinities in the British Netflix Series "Sex Education" Lea-Christin Klaas 2023-11-13 Seminar paper from the year 2020 in the subject Gender Studies, grade: 2,0, University of Dortmund (Institut für Anglistik und Amerikanistik), course: British Proseminar, language: English, abstract: This paper deals with the competing masculinities in the British Netflix series "Sex Education". Especially the characters Otis Milburn, Adam Groff and Eric Effiong are taken into consideration. Otis is the typical lovable goof, whereas Adam is more likely to fulfill the stereotype of being a "real man", because of his tendency of being violent. It turns out that Adam's aggression is caused by him being insecure. Eric is also especially interesting to look at, since he serves several contrary stereotypes. He is a black, homosexual young male that is raised as a second generation immigrant in a traditionally catholic household and is often confronted with homophobia and racism. Eric turns out to be a modern gentleman. Each character's typical behavior patterns will be described and clarified by examples and interpreted in the context of masculinities.

Risky Lessons Jessica Fields 2008-06-03 Curricula in U.S. public schools are often the focus of heated debate, and few subjects spark more controversy than sex education. While conservatives argue that sexual abstinence should be the only message, liberals counter that an approach that provides comprehensive instruction and helps young people avoid sexually transmitted diseases and pregnancy is necessary. Caught in the middle are the students and teachers whose everyday experiences of sex education are seldom as clear-cut as either side of the debate suggests. *Risky Lessons* brings readers inside three North Carolina middle schools to show how students and teachers support and subvert the official curriculum through their questions, choices, viewpoints, and reactions. Most important, the book highlights how sex education's formal and informal lessons reflect and reinforce gender, race, and class inequalities. Ultimately critical of both conservative and liberal approaches, Fields argues for curricula that promote social and sexual justice. Sex education's aim need not be limited to reducing the risk of adolescent pregnancies, disease, and sexual activity. Rather, its lessons should help young people to recognize and contend with sexual desires, power, and inequalities.

Teaching Gender? Tricia Szirom 2017-06-26 Originally published in 1988. This book provides a unique perspective on the creation of gender and the way in which sex education programs in schools contribute to this. Through a series of conversations with young people, a picture is developed of the way in which young women and young men view their own sexuality and that of the opposite sex. The book demonstrates that, in spite of the 'sexual revolution', young people's sexuality is still expressed within traditional gender constraints. The research reveals that, in spite of its 'radical' reputation, current sex education policy is consistent with the rest of the school curriculum: in failing to address the links between gender stereotypes and the social construction of sexuality, sex education implicitly and explicitly reinforces traditional attitudes to women's sexuality. The book provides a conceptual framework for the discussion of the construction of gender and the place of theories of sexuality within this: examples of young people's attitudes and practice; an historical perspective for and current analysis of the provision of sex education; and, most important, practical strategies for change.

You're Teaching My Child What? Miriam Grossman 2009-08-04 If you think sex education is still about the birds and the bees, think again. And it's not about science either. In her shocking exposé, *You're Teaching My Child What?*, Dr. Miriam Grossman rips back the curtain on sex education today, exposing a sordid truth. Today's sex ed programs aren't based on science; they're based on liberal lies and politically correct propaganda that promote the illusion that children (yes, children) can be sexually free without risk. As a psychiatrist and expert on sexual education, Dr. Grossman cites example after example of schools and organizations whitewashing—or omitting altogether—crucial information that doesn't fit in with their "PC" agenda. Instead, sex educators only tell teens the "facts of life" that promote acceptance, sexual exploration, and experimentation. What sex educators call an education, scientists would call a scam:

- Sex educators won't tell girls their bodies are biologically and chemically more susceptible to STDs; they will only say 3 million girls have a sexually transmitted infection
- Educators say it's natural for children to "explore" their sexuality from a young age and only they can decide when it's right to have sex—the real truth is neurobiologists say teen brains are not developed to fully reason and weigh consequences, especially in "the heat of the moment"
- Teens are told condoms, vaccines and yearly testing provide adequate protection, without being told that studies now show condoms are no match for herpes, HPV and gonorrhea

In *You're Teaching My Child What?*, Dr. Grossman reveals biological truths that you won't find in today's classrooms. *You're Teaching My Child What?* is critical reading for parents with

teens and instrumental in teaching children the truth about sex.

Sex-Education Maurice Alpheus Bigelow 2015-07-07 Excerpt from Sex-Education: A Series of Lectures Concerning Knowledge of Sex in Its Relation to Human Life Many of the lectures printed in this volume have formed the basis of a series given at Teachers College, Columbia University, during the summer sessions of 1914 and 1915, and during the academic year 1914-1915. Others were addressed to parents, to groups of men, to women's clubs, and to conferences on sex-education. In order to avoid extensive repetition, there has been some combination and rearrangement of lectures that originally were addressed to groups of people with widely different outlooks on the sexual problems. Several years ago the late Dr. Prince A. Morrow announced that a volume dealing with many of the timely topics of sex-education was to be prepared by the undersigned with the advice and criticism of a committee of the American Federation for Sex-Hygiene; but even before Dr. Morrow's death it became evident that this plan was impracticable. Three members (Morrow, Balliet, Bigelow) of the original committee collaborated in a report presented at the XV International Congress on Hygiene and Demography. Since that time the writer, working independently, has found it desirable to reorganize completely the original outline announced by Dr. Morrow.
