Identical - Ellen Hopkins

2008-08-26

Do twins begin in the womb? Or in a better place? Kaeleigh and Raeanne are identical down to the dimple. As daughters of a district-court judge father and a politician mother, they are an all-American family -- on the surface. Behind the facade each sister has her own dark secret, and that's where their differences begin. For Kaeleigh, she's the misplaced focus of Daddy's love, intended for a mother whose presence on the campaign trail means absence at home. All that Raeanne sees is Daddy playing a game of favorites -- and she is losing. If she has to lose, she will do it on her own terms, so she chooses drugs, alcohol, and

sex. Secrets like the ones the twins are harboring are not meant to be kept -- from each other or anyone else. Pretty soon it's obvious that neither sister can handle it alone, and one sister must step up to save the other, but the question is -- who?

death? In the dark underbelly of the mob, Tristan Caine has been an anomaly. As the only non-blooded member in the high circle of the Tenebrae Outfit, he is an enigma to all - his skills unparalleled, his morality questionable, and his motives unknown. He is lethal and he knows it. As does Morana Vitalio, the genius extraordinaire daughter of the rival family. What Caine does with weapons, Morana does with computers. When a twenty-year old mystery resurfaces, Morana infiltrates Caine's house, intent on killing him, unaware of a tie that binds them together. Hate, heat, and history clash together with unexpected sparks. But something bigger, something worse is happening in their world. And despite their animosity, only they can fight it down. The Predator is an enemies-to-lovers, dark, contemporary romance set in a fictional universe with mafia, passion and incredible storytelling.

Public Library Collections in the Balance - Jennifer Downey

2017-07-25

A fascinating and informative read for librarians, library staff, and MLIS students, this book offers practical information and professional guidelines to examine current issues in censorship and libraries while also enabling readers to consider their own opinions about intellectual freedom. This book addresses contemporary issues in censorship and intellectual freedom and can serve as an invaluable resource for librarians and other library staff and as an eye-opening read for MLIS students. It covers the waterfront of intricate and thorny issues regarding intellectual freedom, including determining strategies for patron privacy, deciding how to filter public computers, handling challenges to items in a collection, and recognizing and eliminating under-the-radar self-censorship during collection development and weeding. Readers will also gain an understanding of the perils of over-reliance on community

assessments and other evaluative tools and consider important concerns of public library employees, such as whether to restrict borrowing privileges of R-rated movies and M-rated video games to patrons of various ages, and the legalities that surround these questions. Each chapter blends instructive background narrative with practical advice, research findings, and relevant information about librarianship's professional guidelines, including the ALA's Library Bill of Rights and the Freedom to Read Statement. Vignettes, "what would you do?" examples, effective nonconfrontational techniques for conflict resolution, and lists of tips and traps help readers to think critically about their own biases and rehearse possible responses to controversial situations. Librarians, library staff, and MLIS students can use this book for personal professional development, as supplemental reading for MLIS courses or professional training workshops, or as a resource for

library policy-planning discussions.

He supports her waist while she pushes her arms back and raises her legs until she can grasp her ankles with her hands, as in the bow yoga position. Once she's in place, the grip of her thighs should be enough to support her. He can keep one arm wrapped around her waist for added support; the other is free to stimulate her breasts and clitoris. Thirty Day Boyfriend - Whitney G. 2017-10-16

I should've never agreed to this arrangement... Thirty days ago, my boss (Mr. Wolf of Wall Street), came to me with an offer I couldn't refuse: Sign my name on the dotted line and pretend to be his fiancée for one month. If I agreed, he would let me out of my employment contract with a "very generous" severance package. The rules were pretty simple: No intimate kissing, no actual sex. Just pretend to love each other for the press, even though I've secretly wanted to knock that sexy smirk off his face since the first day we met. I definitely didn't need to think twice about this. I signed my name and started counting down the seconds to when I would never have to deal with his special brand of ass-holery again. I only made it to one minute... We argued the entire four-hour flight to his hometown, failed to make a

convincing impression with the welcoming press, and right when I was about to knock that arrogant look off his face in real life? He purposely dropped his bath towel in front of me, distracting me with his nine-inch cock to "show me who the bigger person was" in our relationship. Then he gave me his trademark smirk once again and asked if I wanted to consummate our marriage. Tragically, this is only day one. We still have 29 more days to go...

Philosophy of Love, Sex, and Marriage - Raja Halwani

2010-05-26

How is love different from lust or infatuation? Do love and marriage really go together "like a horse and carriage"? Does sex have any necessary connection to either? And how important are love, sex, and marriage to a well-lived life? In this lively, lucid, and comprehensive textbook, Raja Halwani pursues the philosophical questions inherent in these three important aspects of human relationships, exploring the

nature, uses, and ethics of romantic love, sexuality, and marriage. The book is structured in three parts: Love begins by examining how romantic love differs from other types of love, such as friendship and parental love. It asks which properties of love are essential, whether people have a choice in whom they love, and whether lovers have moral obligations to one another that differ from those they owe to others Sex demonstrates the difficulty in defining sex and the sexual, and examines what constitutes good and bad sex in terms of pleasure, 'naturalness', and moral permissibility. It offers theoretical and applied ethical approaches to a wide range of sexual phenomena Marriage traces the history of the institution, and describes the various forms in which marriage exists and the reasons why people marry. It also surveys accounts of why people should or should not marry, and introduces the main arguments for and against gay marriage. Features include:

House of Leaves - Mark Z.

Danielewski 2000-03-07

“A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious.” —The New York Times Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have

anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that

their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.
