Women's Rights in the USA - Dorothy E. McBride 2016-02-05

Women's Rights in the USA is a rigorous examination of the intersection of gender roles

and public policy and the implications for feminist activists. The book places full information on state and federal statutes and court decisions in the context of the ebb and flow of debates that have engaged the public since the founding of the Republic. This fifth edition includes updates on all topics and expanded attention to same-sex marriage and lesbian issues, pay equity, conservative trends in courts, and women in elective politics. This text is a resource for the inquiry into women's rights politics and policies. It is a record of the changes in the major areas affecting gender roles and the status of women: constitutional law, political participation, reproduction, family law,

education, work and pay, work and family, sexuality and economic status. It is more than a recital of laws, statutes and court decisions. The chapters focus on the development of the changes in debates over these issues and how the debates produce laws and provide the environment for their administration and interpretation. It also highlights the role, and impact, of feminists in the debates.

Women and Race in Early Modern Texts -

Joyce Green MacDonald 2002-05-30

Joyce Green MacDonald discusses the links between women's racial, sexual, and civic identities in early modern texts. She examines the scarcity of African women in English plays of the sixteenth and seventeenth centuries, the racial identity of the women in the drama and also that of the women who watched and sometimes wrote the plays. The coverage also includes texts from the late fourteenth to the early eighteenth centuries, by, among others, Shakespeare, Jonson, Davenant, the Countess of

Pembroke, and Aphra Behn. MacDonald articulates many of her discussions of early modern women's races through a comparative method, using insights drawn from critical race theory, women's history, and contemporary disputes over canonicity, multiculturalism, and Afrocentrism. Seeing women as identified by their race and social standing as well as by their sex, this book will add depth and dimension to discussions of women's writing and of gender in Renaissance literature.

Women, Race & Class - Angela Y. Davis

2019-10-03

Ranging from the age of slavery to contemporary injustices, this groundbreaking history of race, gender and class inequality by the radical political activist Angela Davis offers an alternative view of female struggles for liberation. Tracing the intertwined histories of the abolitionist and women's suffrage movements, Davis examines the racism and class prejudice inherent in so much of white feminism,

and in doing so brings to light new pioneering heroines, from field slaves to mill workers, who fought back and refused to accept the lives into which they were born. Gender and the Civil Rights Movement - Peter J. Ling 2004

"The most interesting field for new research on the civil rights movement is in the area of gender. This book breaks new ground by moving beyond a discussion of the contributions of individual women and men and covers the gendered basis of internal civil rights politics." -- Steven Lawson, professor of history, Rutgers University, and author of Civil Rights Crossroads: Nation, Community, and the Black Freedom Struggle "These provocative, wide-

ranging analyses offer refreshing perspectives on the persistently troubling question of the role of gender in American racial politics and bring contemporary debates on the relationship between sex and race into much-needed historical perspective." -Allison Graham, author of Framing the South: Hollywood, Television, and Race During the Civil Rights Struggle and co-producer of the documentary film At the River I Stand This collection of nine essays analyzes the people, the protests, and the incidents of the civil rights movement through the lens of gender. More than just a study of women, the book examines the ways in which assigned sexual roles and values shaped the strategy, tactics, and ideology of the movement. The essays deal with topics ranging from the Montgomery bus boycott and Rhythm and Blues to gangsta rap and contemporary fiction, from the 1950s to the 1990s. Referring to groups such as the National Council of African American Men and events such as the Million Man March, the

authors address male gender identity as much as female, arguing that slave/master relations from before the Civil War continued to affect Black masculinity in the postwar battle for civil rights. Whereas feminism traditionally deals with issues of patriarchy and prescribed gender roles, this volume shows how race relations continue to complicate sex-based definitions within the civil rights movement.

Thinking about Women - Margaret L. Andersen
2000

* Contains a new section on language, gender, and popular culture (Ch. 3). * Includes new material on sexuality, including bisexuality and transgendered identities (Ch. 4). * Updates the discussion of sex, gender, and sexuality as central concepts (Ch. 2). * Provides a clearer discussion of the relationship between biology and culture (Ch. 2). * Incorporates new information on welfare reform, teen pregnancy, and poverty among women (Ch. 5). * Emphasizes more fully the influence of postmodernism and

the social construction of gender (Ch. 13). * Features new suggested readings, but retains the classics. * Integrates updated research throughout, including new graphics. * Maintains a strong and integrated focus on race, class, and gender throughout. * Includes the most current scholarship on gender. * Retains its clear and lively writing style, written specifically for an undergraduate audience. * Provides Discussion Questions/Projects for Thought at the end of each chapter.

Through the Prism of Difference - Maxine Baca Zinn 1997

The editors have gone beyond simply assembling a collection of readings by the leading scholars of sex and gender; they introduce a new way to conceptualize the interrelationships between gender relations and other systems of inequality and difference. The editors invoke the image of a prism, through which different groups are seen not as distinct, but in "a continuous spectrum". The prism approach illustrates the varied ways

that gender is constructed relationally, and thus experienced differently. Toward this end, the editors draw from the most recent studies of women and men -- especially studies of gender relations in the context of different sexual, racial/ethnic, social class, physical abilities, age, and national citizenship contexts. Though the majority of articles in the book focus on issues in U.S. gender relations, the editors have included numerous articles that focus on international and transnational factors. Together, the articles in this book shed critical, yet at times optimistic, light on the possibilities for change.

Sex, Race and Class - Selma James 1975

Women's Health, Politics, and Power -

Elizabeth Fee 2020-11-25

This collection of essays addresses the broadening array of issues on the agenda of the women's health movements of the 1980s and 1990s, just as a previous collection, "Women and Health: The Politics of Sex in Medicine",

gathered contributions from the earlier wave of the women's health movement in the 1970s. The papers in both volumes are selected from the "International Journal of Health Services", edited by Vicente Navarro. The essays in this volume were originally published in the 1980s and early 1990s. Together, they present a framework for understanding the struggles over women's health that have occurred in this time period, and provide specific analyses of women's health in relation to race/ethnicity and class, the work of health care, the health of women workers, international reproductive health, sexuality, AIDS, and public health policy.

Racism, Sexism, Power and Ideology - Colette Guillaumin 2002-11

Guillaumin tackles the links between the daily materiality of social relationships and mental conventions. Materiality and ideology (in the sense of 'perception of things') are two sides of the same coin: those who are objects in social relations are so in both thought and reality.

A Companion to Gender Studies - Philomena
Essed 2009-03-16

A Companion to Gender Studies presents a unified and comprehensive vision of its field, and its new directions. It is designed to demonstrate in action the rich interplay between gender and other markers of social position and (dis)privilege, such as race, class, ethnicity, and nationality. Presents a unified and comprehensive vision of gender studies, and its new directions, injecting a much-needed infusion of new ideas into the field; Organized thematically and written in a lucid and lively fashion, each chapter gives insightful consideration to the differing views on its topic, and also clarifies each contributor's own position; Features original contributions from an international panel of leading experts in the field, and is co-edited by the well-known and internationally respected David Theo Goldberg.

Sex, Race, and God - Susan Thistlethwaite
2009-04-01

"Sex, Race, and God is the impassioned manifesto of a white feminist's reckoning with the meaning of race-including her own whiteness-in doing theology. We should be discussing, and acting on many of Thistlethwaite's insights for quite some time. She has made a vital contribution to the feminist theological enterprise and to the critical relationship between black and white women in it." -Carter Heyward "Sex, Race, and God is a sincere attempt to listen to and learn from African-American women. . . a serious and largely successful effort to create a method that addresses differences rather than proposing wishful commonalities. Many women of color will find it promising a basis for dialogue." -The Women's Review of Books "This pivotal book illuminates a significant ongoing debate at the intersection of two fields: contemporary theology and feminist studies." -Choice "Thistlethwaite does what so few white feminists have done: genuinely interact with (and learn from) the
