*Solar and Space Physics* - National Research Council 2014-09-25

In 2010, NASA and the National Science Foundation asked the National Research Council to assemble a committee of experts to develop an integrated national strategy that would guide agency investments in solar and space physics for the years 2013-2022. That strategy, the result of nearly 2 years of effort by the survey committee, which worked with more than 100 scientists and engineers on eight supporting study panels, is presented in the 2013 publication, *Solar and Space Physics: A Science for a Technological Society*. This booklet, designed to be accessible to a broader audience of policymakers and the interested public, summarizes the content of that report.

[Why Do Men Fall Asleep After Sex?](#) - Mark Leyner 2006-08-01

The Doctor Is In . . . Again! Did the mega-bestselling *Why Do Men Have Nipples?* exhaust your curiosity about stuff odd, icky, kinky, noxious, libidinous, or just plain embarrassing? No, you say? Well, good, because the doctor and his able-bodied buddy are in! Again! Mark Leyner and Billy Goldberg, M.D., now take on the differences between the sexes—those burning questions like *Why doesn't my husband ever listen?* or *Why does my wife ALWAYS have to pee?* And of course, *Why do men fall asleep after sex?*, plus plenty of others to keep you fully informed. Full of smart and funny answers to an onslaught of new questions, all in a do-ask-we'll-tell spirit that entertain and teaches you something at the same time, *Why Do Men Fall Asleep After Sex?* offers the real lowdown on everything everyone wants to know about all things anatomical, medical, sexual, nutritional, animal, and mineral, but would only ask a physician after a few too many, like: • *Why do you have a "bionic" sense of smell when you're pregnant?* • *Does peeing in the shower cure athlete's foot?* • *Is a dog's mouth clean?* • *Can you breastfeed with fake boobs?* • *Does thumb sucking cause buckteeth?* • *Do your eyebrows grow back if shaved?* Bigger, funnier, and better than ever, *Why Do Men Fall Asleep After Sex?* proves that in the battle of the sexes, as in most things, a little Q&A is a safe, effective, minimally invasive remedy. International migration, the movement of people across international boundaries to improve economic opportunity, has enormous implications for growth and welfare in both origin and destination countries. An important benefit to developing countries is the receipt of remittances or transfers from income earned by overseas emigrants. Official data show that development countries' remittance receipts totaled 160 billion in 2004, more than twice the size of official aid. This year's edition of *Global Economic Prospects* focuses on remittances and migration. The bulk of the book covers remittances.

**After Eunuchs** - Howard Chiang 2018-08-07

For much of Chinese history, the eunuch stood out as an exceptional figure at the margins of gender categories. Amid the disintegration of the Qing Empire, men and women in China began to understand their differences in the language of modern science. In *After Eunuchs*, Howard Chiang traces the genealogy of sexual knowledge from the demise of eunuchism to the emergence of transsexuality, showing the centrality of new epistemic structures to the formation of Chinese modernity. From anticastration discourses in the late Qing era to sex-reassignment surgeries in Taiwan in the 1950s and queer movements in the 1980s and 1990s, *After Eunuchs* explores the ways the introduction of Western biomedical sciences transformed normative meanings of gender, sexuality, and the body in China. Chiang investigates how competing definitions of sex circulated in science, medicine, vernacular culture, and the periodical press, bringing to light a rich and vibrant discourse of sex change in the first half of the twentieth century. He focuses on the stories of gender and sexual minorities as well as a large supporting cast of doctors, scientists, philosophers, educators, reformers, journalists, and tabloid writers, as they debated the questions of

political sovereignty, national belonging, cultural authenticity, scientific modernity, human difference, and the power and authority of truths about sex. Theoretically sophisticated and far-reaching, *After Eunuchs* is an innovative contribution to the history and philosophy of science and queer and Sinophone studies.

[As a Woman](#) - Paula Stone Williams 2021-06

"A moving and unforgettable memoir of a transgender pastor's journey from despair to joy as she transitioned from male to female and learned about gender inequity, at home and in the workplace-perfect for fans of *Redefining Realness* and *There Is Room for You*"--

[Studies in Development Strategy and Systemic Transformation](#) - K. Griffin 2000-05-15

*Studies in Development Strategy and Systemic Transformation* contains eleven essays by Keith Griffin on many of the contemporary leading issues in economic development. Topics covered include the role of culture in long-term economic growth, globalization and economic governance, human development, and the effects of the distribution of productive wealth on the pace of development. There are also discussions of alternative reform strategies in the transition economies and of an investment-led strategy of structural adjustment in Sub-Saharan Africa.

[Economic Reform in Vietnam](#) - Keith Griffin 2016-01-20

Vietnam, along with China, stands out as a rare success story among transition economies. This authoritative study of the reform process since 1989 pays particular attention to the way the macroeconomics framework can contribute to an environment that encourages human development and helps to reduce poverty. Thus there are chapters on macroeconomics reforms, international trade policies, the role of the state, rural development, education and health, environmental issues and poverty and gender inequality. Although areas of weakness are indicated, emphasis is placed on the success Vietnam has experienced compared to other transition economies. The lessons of both the successes and failures of the reform process for policymakers elsewhere are outlined.

Why Do Men Have Nipples? - Mark Leyner 2006

Hundreds of questions you'd only ask your doctor after your third martini! You know how it is... you're at a party, you've had a drink or two, and then someone introduces you to a friend. He's a doctor. And it seems like the perfect time to ask all those strange questions you've always wondered about, but never had the courage to ask: Can poppy seeds make you test positive for heroin? What are goosebumps? Why does asparagus make your wee smell? Why do old people get hairy ears? Is it possible to lose your contact lenses inside your head forever? Why do some people have an "outie" belly button and some people an "innie"? Does warm milk really help you sleep? Is it actually possible to get scared to death? This book gives the answer to these and many more questions - pretty much everything you've ever wanted to know - but never had enough Dutch courage to ask!

**Governing the Ungovernable** - Ishrat Husain 2018

Pakistan, since its independence in 1947, had to face tumultuous years for the first four decades. Despite the many challenges, both internal and external, the country was able to register a 6 per cent average annual growth rate during the first forty years of its existence. The country was ahead of India and Bangladesh in all economic and social indicators. Since 1990, the country has fallen behind its neighbouring countries and has had a decline in the growth rate. This book attempts to examine the reasons behind this slowdown, the volatile and inequitable growth of the last twenty-five years, and through a process of theoretical and empirical evidence argues that the most powerful explanatory hypothesis lies in the decay of institutions of governance. It also suggests a selective and incremental approach of restructuring some key public institutions that pertain to accountability, transparency, security, economic growth, and equity.

*Better Than I Ever Expected* - Joan Price 2005-12-13

*Better Than I Ever Expected* is a warm, witty, and honest book that contends with the challenges and

celebrates the delights of older-life sexuality. It asserts that women over sixty are at the top of their game when it comes to enjoying sex. Joan Price's woman-to-woman straight talk transcends the self-help style of other books in this field. Yes, there are challenges to sex after menopause and beyond, says Price, but there are also creative solutions. She is on a mission to let women her age and older know that they can, in fact, have the best sex of their lives. Price gets personal and stays positive, combining her own story with candid comments, tips, and sassy tales from sexually seasoned women. She acknowledges the gritty issues that older women confront in their sexual lives, noting that it's not easy, but it certainly isn't over. At age 61, Price is newly engaged to the man she's been looking for her whole life. Her discovery of how great "well-seasoned" sex can be was the inspiration for this book. Sidebars present candid and friendly sex tips; fitness, exercise, and lifestyle information; and women's erotic vignettes (both real-life experiences and fantasies).

Alternative Strategies for Economic Development - Keith Griffin 1999-06-30

The question of alternative strategies for economic development is the subject of great controversy and intense debate amongst practitioners and academics concerned with economic and social progress in the Third World. The core of this book is an analysis of the six most widely adopted strategies of development namely monetarism, the open economy, industrialisation, the green revolution or agriculture-led development, redistributive strategies of development and socialist strategies.
