The Fourth State of Matter - D'Arcy Arden 2021-05-31
Earth is dead. Humanity survives by selling the only resource available—themselves. 2689 has signed away his rights as a living being and become décor, living artwork that rich aliens use to decorate their homes. It's a stable existence but a boring one. Until one day his owner plays host to three unexpected guests. Large, loud, and more potent than anything 2689 has ever experienced, this trio of ship-dwellers from the wrong side of the universe awakens a desire he can't ignore. However, blissful days of sex and companionship with Brog, Desmodian, and Xavis come to an end when 2689 discovers a

plot that could land the trio in jail...or worse. 2689 will have to make a choice—stay silent and allow three innocent lives to be ruined or give up his stable life to protect the ones he loves.

Ecstasy in Darkness - Gena Showalter 2010-10-26
New York Times bestselling sensation Gena Showalter enthralls with a dark, tantalizing world of humans, otherworlders, powers beyond imagining, and a seductive vampire undone by his insatiable hunger for one woman. Growing up poor on New Chicago's meanest streets, Ava Sans had two options: be the predator or be the prey. No contest. Now, working for Alien Investigation and Removal, she's been

ordered to capture the biggest, baddest warrior of all—a vampire too beautiful to be real, with the ability to manipulate time. Once the leader of the entire vampire army, McKell has been deemed savage and unstable, spurned even by his own kind. To McKell, humans should be nothing more than sustenance. Yet the petite, golden-skinned Ava is a fascinating contradiction—vicious yet witty, strong yet vulnerable, lethal but fiercely loyal. Against his better judgment, McKell craves that loyalty, and much more. When the chase leads to seduction, McKell and Ava will race to discover the truth about his past. But the answers will come at a price, even for a woman who thought she had nothing left to lose...

Intruders - Budd Hopkins
2021-04-20

First published in 1987, when it spent four weeks on the New York Times Best Seller list, *Intruders* remains one of the most powerful and influential books ever written on the controversial subject of alien

abduction. Building on the evidence presented in his seminal 1981 work, *Missing Time*, Budd Hopkins here focuses on the remarkable case of "Kathie Davis," a young woman from rural Indianapolis whose life was changed forever after a shattering, face-to-face encounter one summer night with non-human entities. Little did Kathie know it, but her encounter that night was not by chance; she had not been in the wrong place at the wrong time. Like so many others before and since, Kathie had been selected by an intelligence that operates beyond the veil of our accepted reality. Its technology challenges our comprehension, its motives are murky. But its interactions with Kathie and others like her have provided consistent clues—even physical evidence—pointing to an agenda relating to evolution and survival ... but of whose species ... theirs, or ours? Such was the popularity of *Intruders* that it was later adapted for television as a CBS miniseries of the same name, starring Richard

Future Sex - Emily Witt
2017-01-03

Emily Witt is single and in her thirties. She has slept with most of her male friends. Most of her male friends have slept with most of her female friends. Sexual promiscuity is the norm. But up until a few years ago, she still envisioned her sexual experience achieving a sense of finality, 'like a monorail gliding to a stop at Epcot Center'. Like many people, she imagined herself disembarking, finding herself face-to-face with

another human being, 'and there we would remain in our permanent station in life: the future'. But, as we all know, things are more complicated than that. Love is rare and frequently unreciprocated. Sexual acquisitiveness is risky and can be hurtful. And generalizing about what women want or don't want or should want or should do seems to lead nowhere. Don't our temperaments, our hang-ups, and our histories define our lives as much as our gender? In *Future Sex*, Witt captures the experiences of going to bars alone, online dating, and hooking up with strangers. After moving to San Francisco, she decides to say yes to everything and to find her own path. From public health clinics to cafe conversations about 'coregasms', she observes the subcultures she encounters with a wry sense of humour, capturing them in all their strangeness, ridiculousness, and beauty. The result is an open-minded, honest account of the contemporary pursuit of

connection and pleasure, and an inspiring new model of female sexuality - open, forgiving, and unafraid.

The Book of Strange New Things - Michel Faber

2014-10-06

'I am with you always, even unto the end of the world . . .'
Peter Leigh is a missionary called to go on the journey of a lifetime. Leaving behind his beloved wife, Bea, he boards a flight for a remote and unfamiliar land, a place where the locals are hungry for the teachings of the Bible - his 'book of strange new things'. It is a quest that will challenge Peter's beliefs, his understanding of the limits of the human body and, most of all, his love for Bea. *The Book of Strange New Things* is a wildly original tale of adventure, faith and the ties that might hold two people together when they are worlds apart. This momentous novel, Faber's first since *The Crimson Petal and the White*, sees him at his expectation-defying best. **WINNER OF THE SALTIRE BOOK OF THE YEAR AWARD**

That sounds like too much fun, so she can't wait to get some action with a mirrored alien named Pat who is male AND female, and promises to be able to please anyone! If anything can get Amy's mind off someone trying to kill her, it's some fantastic alien sex! But will they take her in and protect her from the military and the other aliens?

Touched by an Alien - Gini

Koch 2010-04-06

Sci-fi action meets steamy paranormal romance in Gini Koch's Alien novels, as Katherine "Kitty" Katt faces off against aliens, conspiracies, and deadly secrets. •

"Futuristic high-jinks and gripping adventure." —RT Reviews Marketing manager Katherine "Kitty" Katt had just finished a day on jury duty. When she stepped out of the Pueblo Caliente courthouse, all she was thinking about was the work she had to get caught up on. Then her attention was caught by a fight between a couple that looked like it was about to turn ugly. But ugly didn't even begin to cover it when the "man" suddenly transformed into a huge, winged monster right out of a grade Z science fiction movie and went on a deadly killing spree. In hindsight, Kitty realized she probably should have panicked and run screaming the way everyone around her was doing. Instead she sprinted into action to take down the alien. In the middle of all the screeching and the

ensuing chaos, a hunk in an Armani suit suddenly appeared beside her, introduced himself as Jeff Martini with "the agency," and then insisted on leading her to a nearby limo to talk to his "boss." And that was how Kitty's new life among the aliens began... Touched by an Alien is the thrilling first installment of the Alien novels. *Mystic* - Cheryl Brooks 2019-01-29
