Well, This Is Exhausting - Sophia Benoit 2021-07-13

"Like so many women, Benoit spent her formative years struggling to do the 'right' thing--to make others comfortable, to take minimal and calculated risks, to live up to society's expectations--only to realize that there was so little payoff to this tiresome balancing act. Now, in [this book], she shares her journey from aspiring good girl to proud feminist, and addresses the constantly shifting goalposts of what exactly it

means to be 'good' in today's world. [Includes] topics as varied and laugh-out-loud funny as how to be the life of the party (even when you have crippling anxiety), navigating the disappointments of the dating world, and why no one should judge you for having an encyclopedic knowledge of reality TV stars"--

A Generation of Sociopaths - Bruce Cannon Gibney 2018-03-06

In his "remarkable" (Men's Journal) and "controversial" (Fortune) book--written in a "wry, amusing style" (The Guardian)--Bruce Cannon Gibney shows how America was hijacked by the Boomers, a generation whose reckless self-indulgence degraded the foundations of American prosperity. In A Generation of Sociopaths, Gibney examines the disastrous policies of the most powerful generation in modern history, showing how the Boomers ruthlessly enriched themselves at the expense of future generations. Acting without empathy, prudence, or respect for facts--acting, in other words, as sociopaths--the Boomers turned American dynamism into stagnation, inequality, and bipartisan fiasco. The Boomers have set a time bomb for the 2030s, when damage to Social Security, public finances, and the environment will become catastrophic and possibly irreversible--and when, not coincidentally, Boomers will be dying off. Gibney argues that younger generations have a fleeting window to hold the Boomers accountable and begin restoring America.

Juicy Living, Juicy Aging - Loretta Laroche 2009-08-01

For the last 20 years, Loretta LaRoche has been delighting readers, audiences, and PBS television viewers with her wacky and wise insights about life, love, and the insanity of the modern world. Now, in her most deeply personal book yet, Loretta addresses the most exciting challenge that we all face—one that she now finds herself facing every day: How do we age well? And can humor, dignity, honesty, wisdom, and other virtues ease the path? Our society is youth obsessed: Beauty products, special exercises, designer vitamins, plastic surgery, and certain medications are promoted as "the" ways to enhance life. While these formulas may have some merit, they're not enough to prepare us to have a rich, authentic life filled with passion and juiciness. Why do we wait until we're almost dead before we focus on how to age well? Every school system in the country should be preparing us for the inevitable process of aging and how to do it well. Our parents, our schools, and the media should all be teaching us that aging is a process that begins at birth . . . not something to be feared and avoided. Those who continue to be hardy and live long and healthy lives understand that the real path to vitality requires connection, playfulness, flexibility, grace, tenacity, resiliency, curiosity, learning, and good humor. With her trademark humor and practical wisdom, Loretta tackles how to live a long, healthy, juicy life—using herself and many of her friends and mentors as metaphors. Filled with practical advice, lifestyle skills, wisdom, and spirituality, Kick Up Your Heels . . . is a mental health spa that will inspire you and your family to live with joy, harmony, and peace while you still have the time!

Bachelor Nation - Amy Kaufman 2018-03-06

A New York Times Bestseller The first definitive, unauthorized, behind-the-scenes cultural history of the Bachelor franchise, America's favorite guilty pleasure. For sixteen years and thirty-six seasons, the Bachelor franchise has been a mainstay in American TV viewers' lives. Since it premiered in 2002, the show's popularity and relevance have only grown—more than eight million viewers tuned in to see the conclusion of the most recent season of The Bachelor. Los Angeles Times journalist Amy Kaufman is a

proud member of Bachelor Nation and has a long history with the franchise—ABC even banned her from attending show events after her coverage of the program got a little too real for its liking. She has interviewed dozens of producers, contestants, and celebrity fans to give readers never-before-told details of the show's inner workings: what it's like to be trapped in the mansion "bubble"; dark, juicy tales of producer manipulation; and revelations about the alcohol-fueled debauchery that occurs long before the Fantasy Suite. Kaufman also explores what our fascination means, culturally: what the show says about the way we view so-called ideal suitors; our subconscious yearning for fairy-tale romance; and how this enduring television show has shaped society's feelings about love, marriage, and feminism by appealing to a marriage plot that's as old as the best of Jane Austen.

Under One Roof - Ali Hazelwood 2022-05-03

From the New York Times and Sunday Times bestselling author of *The Love Hypothesis* comes a new steamy, STEMinist novella... A scientist should never cohabit with her annoyingly hot nemesis - it leads to combustion. Mara, Sadie, and Hannah are friends first, scientists always. Though their fields of study might take them to different corners of the world, they can all agree on this universal truth: when it comes to love and science, opposites attract and rivals make you burn... As an environmental engineer, Mara knows all about the delicate nature of ecosystems. They require balance. And leaving the thermostat alone. And not stealing someone else's food. And other rules Liam, her detestable big-oil lawyer of a roommate, knows nothing about. Okay, sure, technically she's the interloper. Liam was already entrenched in his aunt's house like some glowering grumpy giant when Mara moved in, with his big muscles and kissable mouth just sitting there on the couch tempting respectable scientists to the dark side...but Helena was her mentor and Mara's not about to move out and give up her inheritance without a fight. The problem is, living with someone means getting to know them. And the more Mara finds out about Liam, the harder it is to loathe him...and the easier it is to love him. To read Sadie and Hannah's stories look for the novellas *Stuck with You* and *Below Zero*. Ali Hazelwood's latest novel, *Love on the Brain* is out now.
