**Toward a New Poetics** - Serge Gavronsky  
1994-12-01

A quiet revolution is taking place in avant-garde French poetry and prose. In this collection of twelve interviews with some of France's most important poets and writers, Serge Gavronsky introduces American readers to these exciting new developments. As Gavronsky explains, a neolyricism is now replacing the formalism of the 1960s, '70s, and '80s. In his substantial introduction, Gavronsky notes how the ideological definition of writing (écriture) has given way to more open forms of writing. Human experiences of the most ordinary kinds are finding a place in the text. These interviews offer a view of the poets' and writers' creative processes and range over such topics as current literary theory, the impact of American poetry in France, and the place of feminism in contemporary French writing. Each interview is
