

Culture Health And Sexuality

Creating a Learning School - David Middlewood 2005-05-19

'Improving the quality of learning and teaching is the most important thing that school leaders do. This book contains much that will help the reader in that enterprise. It reflects the fact that much of what we know about effective, high-quality schools is already 'out there' in schools across the country. The book mines that gold. It is full of good sense, a treasure chest of helpful ideas which have the credibility of being grounded in case-study material, and in the experience of the authors, two of whom are practising headteachers. The book sets out the principles underpinning the Learning School, but offers also a strong pragmatic focus and is organized so that it can be dipped into and something worthwhile easily found. It sets out practical and specific steps to creating the Learning School and will support change and improvement in the professional practices involved in making a school a stimulating learning environment for adults as well as students' - Dr Martin J Coles, Assistant Director, National College for School Leadership [C]learly set out, passionately and well-written, covering much material, full of interesting insights, as one might expect from two head teachers and an acknowledged expert in the field... Lots of interesting thoughts and ideas, written in an accessible style. I would certainly recommend this book to my students' - ESCalate The schools of the 21st century cannot continue to apply the techniques of the 20th century. 'New Learning' dispenses with outdated preoccupations with tests, targets, and leadership from above, and focuses on independence of learning and structural flexibility within schools. The authors give a complete overview of how schools can adapt to meet changing needs. They look at the teacher as learner, learning outside the classroom, and the nature of leadership in learning schools, and provide practical solutions to the problems of staffing, resourcing and assessment. This book is an invaluable resource for all mid-to-upper level managers in schools, anyone aspiring to these positions, or anyone who takes a longterm view of the future of educational practice.

Sexual and Reproductive Health Issues Among Minority Ethnic Groups in South-East Asia and South-West China - 2011

Cultural Differences and the Practice of Sexual Medicine - 2020

The aim of this book is twofold: to promote an awareness of cultural differences in connection with sexual medicine among health care providers, and to demonstrate how such differences are relevant to the care and treatment of patients with sexual issues. Individual sexuality represents the cumulative effects of biological, psychological, and cultural influences. Yet much of the study of sexuality--including issues ranging from sexual identity to sexual response--has been conducted through a Western lens. Although a substantial body of work in anthropology has taken up the study of human sexuality from a cross-cultural perspective, two points are notable. First, this work seldom crosses the desks of medical and psychological health practitioners, and second, the relevance of specific cultural differences is rarely apparent to the typical sexual health practitioner. To address this situation, this book adopts a global perspective, focusing on how cultural practices and values can impact health care, treatment, and outcomes. In this regard, it covers three broad domains: Sexual Identity and Orientation; Sexual Response and Dysfunction; and Sexual Diversity. Each chapter consists of two parts: a general description of the relevant issues, and a discussion of how these issues can be relevant to clinical practice. The book offers a valuable, practical tool for specialists in sexual medicine and sexual psychology, for sexual healthcare givers, and for sexological researchers who want to better serve their patients by developing an awareness of and sensitivity to cultural differences, and by providing a framework for dealing with issues of sexuality and sexual health that takes cultural values into consideration, while adhering to best practices in patient care.

Culture, Society and Sexuality - Richard Guy Parker 2007

This work offers an introduction to the central debates in sexuality research. Among the issues examined

are the social and cultural dimensions of sex, human sexuality and sex research.

Cultural Differences and the Practice of Sexual Medicine - David L. Rowland 2020-01-27

The aim of this book is twofold: to promote an awareness of cultural differences in connection with sexual medicine among health care providers, and to demonstrate how such differences are relevant to the care and treatment of patients with sexual issues. Individual sexuality represents the cumulative effects of biological, psychological, and cultural influences. Yet much of the study of sexuality—including issues ranging from sexual identity to sexual response—has been conducted through a Western lens. Although a substantial body of work in anthropology has taken up the study of human sexuality from a cross-cultural perspective, two points are notable. First, this work seldom crosses the desks of medical and psychological health practitioners, and second, the relevance of specific cultural differences is rarely apparent to the typical sexual health practitioner. To address this situation, this book adopts a global perspective, focusing on how cultural practices and values can impact health care, treatment, and outcomes. In this regard, it covers three broad domains: Sexual Identity and Orientation; Sexual Response and Dysfunction; and Sexual Diversity. Each chapter consists of two parts: a general description of the relevant issues, and a discussion of how these issues can be relevant to clinical practice. The book offers a valuable, practical tool for specialists in sexual medicine and sexual psychology, for sexual healthcare givers, and for sexological researchers who want to better serve their patients by developing an awareness of and sensitivity to cultural differences, and by providing a framework for dealing with issues of sexuality and sexual health that takes cultural values into consideration, while adhering to best practices in patient care.

Technologies of Sexuality, Identity and Sexual Health - Lenore Manderson 2012

Technologies of Sexuality, Identity and Sexual Health highlights the complex ways in which sexuality is expressed and enacted through local ideologies, global identities and material cultures, and their influence on people's sexual health and well-being. Its impetus is the renewed interest in technology and the 'social life of things,' including pharmaceuticals, expanded sexual and related surgery, the growing exploitation of markets for sexual and contraceptive products, and the impact of these on sexual and health practices and outcomes. Organised loosely into three parts, the opening chapters concentrate on female contraception, its availability, and the varied cultural significance attached to the ability to control its use, exploring the politics of reproductive health and birth control, and the ties between technology and power. The middle section turns its attention to men, and the impact of traditional and contemporary concerns about masculinity, and the social and sexual roles of men. The final chapters look at the commonalities across cultural borders and sexual gendered identities - how products and procedures travel, not only through the formal channels of globalisation, but also informally, carried by individuals across cultural and social boundaries through sexual, social and commercial interactions. The volume brings together anthropologists, sociologists and cultural studies scholars, both senior and emerging, from around the globe. Offering an important and topical contribution to the developing global literature on sexuality, sexual identity, culture and health, it is of interest to researchers and advanced students in these areas.

Sexuality, Intimacy and Counselling - 2013

Youth, Sexuality and Sexual Citizenship - Peter Aggleton 2018-10-23

Sexual citizenship is a powerful concept associated with debates about recognition and exclusion, agency, respect and accountability. For young people in general and for gender and sexually diverse youth in particular, these debates are entangled with broader imaginings of social transitions: from 'child' to 'adult' and from 'unreasonable subject' to one 'who can consent'. This international and interdisciplinary collection identifies and locates struggles for recognition and inclusion in particular contexts and at particular moments in time, recognising that sexual and gender diverse young people are neither entirely

vulnerable nor self-reliant. Focusing on the numerous domains in which debates about youth, sexuality and citizenship are enacted and contested, *Youth, Sexuality and Sexual Citizenship* explores young people's experiences in diverse but linked settings: in the family, at school and in college, in employment, in social media and through engagement with health services. Bookended by reflections from Jeffrey Weeks and Susan Talburt, the book's empirically grounded chapters also engage with the key debates outlined in its scholarly introduction. This innovative book is of interest to students and scholars of gender and sexuality, health and sex education, and youth studies, from a range of disciplinary and professional backgrounds, including sociology, education, nursing, social work and youth work.

Mobility, Sexuality and AIDS - Felicity Thomas 2009-10-16

Mobility, Sexuality and AIDS recognises the complex relationships between individual circumstances, different forms of migration and the different ways in which communities and states respond. It will be invaluable for students and academics of migration, development studies, anthropology, sociology, geography and public health.

The Routledge Handbook of Male Sex Work, Culture, and Society - John Geoffrey Scott 2021-03-20

Panoramic and provocative in its scope, this handbook is the definitive guide to contemporary issues associated with male sex work and a must read for those who study masculinities, male sexuality, sexual health, and sexual cultures. This groundbreaking volume will have a powerful impact on our understanding of this challenging, elusive subject. While the internet has brought the previously hidden worlds of male sex work more starkly into public view, academic research has often remained locked into descriptions of male sex workers and their clients as perverse. Drawing from a variety of regions, the chapters provide insights into the historical, popular cultural, social, and economic aspects of sex work, as well as demographic patterns, health outcomes, and policy issues. This approach shifts thought on male sex work from a hidden "social problem" to a publicly acknowledged "social phenomenon." The book challenges myths and reconceptualizes male sex work as a discrete field. Importantly, it provides a vehicle for the voices of male sex workers and new and established scholars. This richly detailed, humane, and innovative collection retrieves male sex work from silence and invisibility on the one hand and its association with scandal and stigma on the other. The findings within have profound implications for how governments approach public health and regulation of the sex industry and for how society can make sense of the complexities of human sexualities. A compelling scholarly read and a major contribution to a commercial sector that is often neglected in policy debates on sex work, this handbook will be of great interest to scholars of criminology, sociology, gender studies, and cultural studies and all those interested in male sex work.

Sex and Sexualities in Contemporary Indonesia - Linda Rae Bennett 2014-12-05

Winner of the 2015 Ruth Benedict Prize for Outstanding Edited Volume *Sex, sexuality and sexual relationships* are hotly debated in Indonesia, triggering complex and often passionate responses. This innovative volume explores these issues in a variety of ways. It highlights historical and newer forms of sexual diversity, as well as the social responses they provoke. It critiques differing representations of sexuality, pointing to the multiplicity of discourses within which sexuality and 'the sexual' are understood in modern-day Indonesia. Placing sexuality centre-stage and locating it within the specific historical context of the Reformasi era, this landmark volume explores understandings and practices across a wide variety of sites, focusing in on a diverse group of Indonesian actors, and the contested meanings that sexuality carries. Beginning with a substantive introduction and concluding with a scholarly reflection on key issues, the volume is framed around the four themes of sexual politics, health, diversity and representations. It seeks both to present new empirical findings as well as to add to existing theoretical analysis. This work fills an important gap in our understanding of the evolution and contemporary dynamics of Indonesian sexualities. It will be of interest to scholars and academics from disciplines including gender and sexuality studies, global health, sexual and reproductive health, anthropology, sociology and Asian studies.

Culture, Health and Sexuality - Peter Aggleton 2015-04-24

The last twenty years have seen a growth in multi-disciplinary work in the area of sexuality, culture and health. What was once a set of specialist concerns has been steadily mainstreamed. Alongside this, a broader interest has developed in 'social' and 'cultural' factors relating to sexuality and sexual health, from family planning and STI management to gender and intimate partner violence and the technologisation of

sex. This book offers a research-based overview of key topics relevant to social and cultural perspectives on sexuality and sexual health. Beginning with an extended introduction and divided into six sections, it looks at culture, sex and gender, sexual diversity, sex work, migration and sexual violence. Each section opens with an editorial discussion which places the theme, and the chapters that follow, in a contemporary context. Six additional substantive chapters can be accessed online at www.routledge.com/cw/aggleton. Including cutting-edge conceptual and empirical material from around the world, this is a key resource for students in, and across, a variety of academic disciplines in the social and health sciences. It is especially suitable for readers from sexuality studies, gender studies, development studies, anthropology and sociology as well as those with public health and social work backgrounds.

Sexuality, Health and Human Rights - Sonia Corrêa 2008-08-18

This new work surveys how rapid changes taking place at the start of the twenty-first century in social, cultural, political and economic domains impact on sexuality, health and human rights. The relationships between men, women and children are changing quickly, as are traditional family structures and gender norms. What were once viewed as private matters have become public, and an array of new social movements - transgender, intersex, sex worker, people living with HIV - have come into the open. The book is split into three sections: Global 'Sex' Wars - discusses the notion of sexualities, its political landscapes internationally, and the return of religious fervour and extremism Epistemological Challenges and Research Agendas - examines modern 'scientific' understandings of sexuality, its history and the way in which AIDS has drawn attention to sexuality The Promises and Limits of Sexual Rights - discusses human rights approaches to sexuality, their strengths and limitations and new ways of imagining erotic justice Offering a unique framework for understanding this new world, set in the context of the major theoretical debates of recent decades, this book will be of interest to professionals, advocates and policy researchers and is suitable for a wide range of courses covering areas such as gender studies, human sexuality, public health and social policy.

Investigating Young People's Sexual Cultures - Feona Attwood 2023-04-14

This book examines ways of developing research on young people's sexual cultures in the context of a media-saturated and technology-focused contemporary culture, an area of study that remains relatively unexplored despite heightened concern about young people, sex and culture. Unlike the widespread sensationalist reporting about the 'pornification' of young people's lives and the policy documents which have emerged on 'sexualization', the book foregrounds the need for a critical approach which recognizes the complexity of culture and is able to unpack what is at stake in the construction of particular views and practices. It emphasizes how concerns about 'harm' and 'risk', however well-intentioned, can work against young people's interests and argues that education will only be effective if it engages with young people and is based on a commitment to young people's rights and to the broader notion of sexual rights. Drawing together key researchers in the area the book examines health policy, sex and relationships education, sex abuse therapy, television production, sport, internet use, and the production and consumption of commercial goods and media. This book will be of interest to the many academics and groups who are concerned with young people's sexual cultures and their place within society. This book was originally published as a special issue of *Sex Education*.

Sexual Cultures in Europe - Franz Eder 1999

Providing an overview of the key themes in the history of European sexual cultures, this text covers issues such as religion & sexuality, sexual education, sexual disease, same-sex relationships, pornography, failed fertility & abortion.

Managing Reproductive Life - Soraya Tremayne 2001

In 1999, the Institute of Social and Cultural Anthropology at the University of Oxford held a workshop on the social dynamics of human reproduction. This volume contains 12 papers from scholars in Britain and the U.S. that were originally presented at that workshop. Topics include, for example, motherhood among young prostitutes in Thailand, the meaning of children in Hong Kong, and the reproductive health of refugees. Annotation copyrighted by Book News, Inc., Portland, OR

Digital Media, Friendship and Cultures of Care - Paul Byron 2020-11-29

This book explores how digital media can extend care practices among friends and peers, researching

young people's negotiations of sexual health, mental health, gender/sexuality, and dating apps, and highlighting the need for a multifocal approach that centres young people's expertise. Taking an "everyday practice" approach to digital and social media, *Digital Media, Friendship and Cultures of Care* emphasises that digital media are not novel but integrated into daily life. The book introduces the concept of "digital cultures of care" as a new framework through which to consider digital practices of friendship and peer support, and how these play out across a range of platforms and networks. Challenging common public and academic concerns about peer and friendship influences on young people, these terms are unpacked and reconsidered through attention to digital media, drawing on qualitative research findings to argue that digital and social media have created important new opportunities for emotional support, particularly for young people and LGBTQ+ people who are often excluded from formal healthcare and social support. This book and its comprehensive focus on friendship will be of interest to a range of readers, including academics, students, health promoters, educators, policymakers, and advocacy groups for either young people, LGBTQ+ communities, or digital citizenship. Academics most interested in this book will be

working in digital media studies, health sociology, critical public health, health communication, sexualities, cultural studies, sex education, and gender studies.

Viral Frictions - Elizabeth J. Pfeiffer 2022-06-17

Introduction -- Uneven Anthropological and Epidemiological Stories in Historical HIV Context -- HIV and Legacies of Racism, Political Violence, and Ethnic Conflict -- Stigma and the Cultural Politics of Uncertainty -- Economic Inequalities, Social Change, and the Politics of Gender and Sexuality -- (Re)Imagining Stigma at the Intersection of HIV and Mental Health Statuses -- HIV and the (Re)Making of Moral Personhood -- Conclusion.

Sexuality and Health in Vietnam - Peter Aggleton 2010

Embodying culture : perspectives on transformations of gender, health and sexuality in the complex society
