The Poisonwood Bible Barbara Kingsolver 2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review *The Poisonwood Bible*, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleanna Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

The Strange Story Book Mrs. Andrew Lang 1925 The story of Wolfert Webber was said by Louis Stevenson to be one of the finest treasure-seeking stories in the world; and as Stevenson was a very good judge, I am going to tell it to you. Wolfert's ancestor, Cobus Webber, was one of the original settlers who came over from Holland and established themselves on the coast of what is now the State of New York. Like most of his countrymen, Cobus was a great gardener, and devoted himself especially to cabbages, and it was agreed on all sides that none so large or so sweet had ever been eaten by anybody. Webber's house was built after the Dutch pattern, and was large and comfortable. Birds built their nests under the eaves and filled the air with their singing, and a button-wood tree, which was nothing but a sapling when Cobus planted his first cabbage, had become a monster overshadowing half the garden in the days of his descendant Wolfert early in the eighteenth century. The button-wood tree was not the only thing that had grown during those years. The city known at first as 'New Amsterdam,' and later as 'New York,' had grown also, and surrounded the house of the Webbers. But if the family could no longer look from the windows at the beautiful woods and rivers of the countryside, as their forefathers had done, there was no reason to drive a cart about from one village to another to see who wanted cabbages, for now the housewives came to Wolfert to choose their own, which saved a great deal of trouble. Yet, though Wolfert sold all the cabbages he could raise, he did not become rich as fast as he wished, and at length he began to wonder if he was becoming rich at all. Food was dearer than when he was a boy, and other people besides himself had taken to cabbage-growing. His daughter was nearly a woman, and would want a portion if she married. Was there no way by which he could make the money that would be so badly needed by and by?

The Sleepwalkers Christopher Clark 2012-09-27 The pacy, sensitive and formidably argued history of the causes of the First World War, from acclaimed historian and author Christopher Clark SUNDAY TIMES and INDEPENDENT BOOKS OF THE YEAR 2012 The moments that it took Gavrilo Princip to step forward to the stalled car and shoot dead Franz Ferdinand and his wife were perhaps the most fateful of the modern era. An act of terrorism of staggering efficiency, it fulfilled its every aim: it would liberate Bosnia from Habsburg rule and it created a powerful new Serbia, but it also brought down four great empires, killed millions of men and destroyed a civilization. What made a seemingly prosperous and complacent Europe so vulnerable to the impact of this assassination? In The Sleepwalkers Christopher Clark retells the story of the outbreak of the First World War and its causes. Above all, it shows how the failure to understand the seriousness of the chaotic, near genocidal fighting in the Balkans would drag Europe into catastrophe. Reviews: 'Formidable ... one of the most impressive and stimulating studies of the period ever published' Max Hastings, Sunday Times 'Easily the best book ever written on the subject ... A work of rare beauty that combines meticulous research with sensitive analysis and elegant prose. The enormous weight of its quality inspires amazement and awe ... Academics should take note: Good history can still be a good story' Washington Post 'A lovingly researched work of the highest scholarship. It is hard to believe we will ever see a better narrative of what was perhaps the biggest collective blunder in the history of international relations' Niall Ferguson '[Reading The Sleepwalkers], it is as if a light had been turned on a half-darkened stage of shadowy characters cursing among themselves without reason ... [Clark] demolishes the standard view ... The brilliance of Clark's far-reaching history is that we are able to discern how the past was genuinely prologue ... In conception, steely scholarship and piercing insights, his book is a masterpiece' Harold Evans, New York Times Book Review 'Impeccably researched, provocatively argued and elegantly written ... a model of scholarship' Sunday Times Books of the Year 'Superb ... effectively consigns the old historical consensus to the bin ... It's not often that one has the privilege of reading a book that reforges our understanding of one of the seminal events of world history' Mail Online 'A monumental new volume ... Revelatory, even revolutionary ... Clark has done a masterful job explaining the inexplicable' Boston Globe 'Superb ... One of the great mysteries of history is how Europe's great powers could have stumbled into World War I ... This is the single best book I have read on this important topic' Fareed Zakaria 'A meticulously researched, superbly organized, and handsomely written account Military History Clark is a masterly historian ... His account vividly reconstructs key decision points while deftly sketching the context driving them ... A magisterial work' Wall Street Journal About the author: Christopher Clark is Professor of Modern History at the University of Cambridge and a Fellow of St Catharine's College. He is the author of The Politics of Conversion, Kaiser Wilhelm II and Iron Kingdom. Widely praised around the world, Iron Kingdom became a major bestseller. He has been awarded the Officer's Cross of the Order of Merit of the Federal Republic of Germany.

Between the Acts Virginia Woolf 2022-11-13 *Between the Acts* is the final novel by Virginia Woolf, published in 1941 shortly after her suicide. This is a book laden with hidden meaning and allusion. It describes the mounting, performance, and audience of a festival play (hence the title) in a small English village just before the outbreak of the Second World War. Much of it looks forward to the war, with veiled allusions to connection with the continent by flight, swallows representing aircraft, and plunging into darkness. The pageant is a play within a play, representing a rather cynical view of English history. Woolf links together many different threads and ideas - a particularly interesting technique being the use of rhyme words to suggest hidden meanings. Relationships between the characters and aspects of their personalities are explored. The English village bonds throughout the play through their differences and similarities.

Staying with the Trouble Donna J. Haraway 2016-08-19 In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—*Staying with the Trouble* further cements Haraway's reputation as one of the most daring and original thinkers of our time.

O Pioneers! Willa Cather 2023-07-16 Willa Cather's *O Pioneers!* was first published in June of 1913 by Houghton Mifflin to high praise. Cather was immensely proud of the work and considered it her first "true" novel, having discovered her own form and subject. Told in five parts, *O Pioneers!* follows the Bergsons, a family of Swedish-American immigrants farming the prairie of Nebraska at the turn of the 20th century. After the death of her father, heroine Alexandra Bergson inherits the family farm, using her insight to transform it from a precarious enterprise to a prosperous one over the following decade. As the Nebraskan farming community grows and her older brothers build families and comfortable lives, Alexandra remains independent, attached only to the land, her youngest brother, Emil, and her neighbor, Marie Shabata. These three central characters navigate duty, familial pressures, tragedy, and uncertain romance. With its independent, entrepreneurial female main character, *O Pioneers!* can be read as a deeply feminist novel that nevertheless upholds American ideals of national destiny through pastoral settlement.

The Precariat Guy Standing 2021-07-15 This book presents the new Precariat - the rapidly growing number of people facing lives of insecurity, on zero hours contracts, moving in and out of jobs that give little meaning to their lives. The delivery driver who brings your packages, the uber driver who gets you to work, the security guard at the mall, the carer looking after our elderly...these are The Precariat. Guy Standing investigates this new and growing group, finding a frustrated and angry new underclass who are often ignored by politicians and economists. The rise of zero hours contracts, encouraged by fat cat corporations as risk-free employment, and by silicon valley as a way of outsourcing costs and responsibility, has been exacerbated by the COVID pandemic. At the same time, in its experience of lockdown, the western world is realizing the true value of these nurses, carers and key workers. The answer? The return of income security and meaningful work - the principles 20th century capitalism was built on. By making the fears and desires of the Precariat central to economic thinking, Standing shows how concepts like Basic Income are not just desirable but inevitable, and plots the way to a better future.

Dangerous Designs Parminder Bhachu 2005-10-05 In late-1990s Britain, the salwaar-kameez or 'Punjabi suit' emerged as a high-fashion garment. Popular both on the catwalk and on the street, it made front-page news when worn by Diana, Princess of Wales and by Cherie Booth, the wife of UK Prime Minister Tony Blair. In her ethnography of the local and global design economies established by Asian women fashion entrepreneurs, Parminder Bhachu focuses on the transformation of the salwaar-kameez from negatively coded 'ethnic clothing' to a global garment fashionable both on the margins and in the mainstream. Exploring the design and sewing businesses, shops and street fashions in which this revolution has taken place, she shows how the salwaar-kameez is today at the heart of new economic micro-markets which themselves represent complex, powerfully coded means of cultural dialogue and racial politics. The innovative designs of second-generation British Asian women are drawn from characteristically improvisational migrant cultural codes. Through their hybrid designs and creation of new aesthetics, these women cross cultural boundaries, battling with racism and redefining both Asian and British identities. At the same time, their border-crossing commercial entrepreneurship produces new diaspora economies which give them control over many economic, aesthetic, cultural and technological resources. In this way, the processes of global capitalism are gendered, racialized and localized through the interventions of diasporic women from the margins.

Desperately Seeking Self-Improvement Carl Cederström and André Spicer 2017-10-20 In these pages, the authors of the widely-acclaimed *The Wellness Syndrome* throw themselves headlong into the world of self-optimization, a burgeoning movement that seeks to transcend the limits placed on us by being merely human, whether the feebleness of our bodies or our mental incapacities. Cederström and Spicer, though willing guinea pigs in an extraordinary (and sometimes downright dangerous) range of techniques and technologies, had hitherto undertaken little by way of self-improvement. They had rarely seen the inside of a gym, let alone utilized apps that deliver electric shocks in pursuit of improved concentration. But, in the course of a year spent researching this book, they wore head-bands designed to optimize meditation, attempted to boost their memory through learning associative techniques (and failed to be admitted to MENSA), trained for weightlifting competitions, wrote what they (still) hope might

become a bestselling Scandinavian detective story, enrolled in motivational seminars and tantra sex workshops, attended new-age retreats and man-camps, underwent plastic surgery, and experimented with vibrators and productivity drugs. André even addressed a London subway car whilst (nearly) naked in an attempt to boost attention. Somewhat surprisingly, the two young professors survived this year of rigorous research. Further, they have drawn deeply on it to produce a hilarious and eye-opening book. Written in the form of two parallel diaries, *Desperately Seeking Self-Improvement* provides a biting analysis of the narcissism and individual competitiveness that increasingly pervades a culture in which social solutions are receding and individual self-improvement is the only option left.

Out of the Ordinary Michael Dillon/Lobzang Jivaka 2016-11-01 Now available for the first time—more than 50 years after it was written—is the memoir of Michael Dillon/Lobzang Jivaka (1915–62), the British doctor and Buddhist monastic novice chiefly known to scholars of sex, gender, and sexuality for his pioneering transition from female to male between 1939 and 1949, and for his groundbreaking 1946 book *Self: A Study in Ethics and Endocrinology*. Here at last is Dillon/Jivaka's extraordinary life story told in his own words. *Out of the Ordinary* captures Dillon/Jivaka's various journeys—to Oxford, into medicine, across the world by ship—within the major narratives of his gender and religious journeys. Moving chronologically, Dillon/Jivaka begins with his childhood in Folkestone, England, where he was raised by his spinster aunts, and tells of his days at Oxford immersed in theology, classics, and rowing. He recounts his hormonal transition while working as an auto mechanic and fire watcher during World War II and his surgical transition under Sir Harold Gillies while Dillon himself attended medical school. He details his worldwide travel as a ship's surgeon in the British Merchant Navy with extensive commentary on his interactions with colonial and postcolonial subjects, followed by his "outing" by the British press while he was serving aboard *The City of Bath*. *Out of the Ordinary* is not only a salient record of an early sex transition but also a unique account of religious conversion in the mid-twentieth century. Dillon/Jivaka chronicles his gradual shift from Anglican Christianity to the esoteric spiritual systems of George Gurdjieff and Peter Ouspensky to Theravada and finally Mahayana Buddhism. He concludes his memoir with the contested circumstances of his Buddhist monastic ordination in India and Tibet. Ultimately, while Dillon/Jivaka died before becoming a monk, his novice ordination was significant: It made him the first white European man to be ordained in the Tibetan Buddhist tradition. *Out of the Ordinary* is a landmark publication that sets free a distinct voice from the history of the transgender movement.
