The Changing Status of Women in West Bengal, 1970-2000 Jasodhara Bagchi 2005-01-24 This important and comprehensive volume vividly depicts the current status of women and girls in West Bengal. The analysis has been conducted in the framework of the socio-economic and politico-cultural ambience that has characterized the state in recent decades. The contributors highlight both areas of strength and vulnerability and clearly demonstrate that the status of women cannot be conceived as monolithic or static--it has many facets and is in a state of constant flux. The analysis of macro data is supported by revealing micro studies based on field surveys and an examination of cultural trends.

From Outrage to Courage Anne Firth Murray 2013 From half a million women who die in pregnancy and childbirth to one out of three women suffering domestic violence worldwide, from 90 million girls who do not go to school to HIV/AIDS spreading fastest among adolescent girls, women around the world face unique health challenges. In this searing cradle-to-grave review, Anne Firth Murray tackles health issues from sex selective abortion and unequal access to food and health care to the challenges faced by aging women. Murray makes clear that the issues are social, ethical, and political much more than they are medical, and she goes further to provide hope that positive change can happen.

Globalization and Third World Women Ligaya Lindio-McGovern 2016-04-22 Adopting the notion of 'third world' as a political as well as a geographical category, this volume analyzes marginalized women's experiences of globalization. It unravels the intersections of race, culture, ethnicity, nationality and class which have shaped the position of these women in the global political economy, their cultural and their national history. In addition to a thematically structured and highly informative investigation, the authors offer an exploration of the policy implications which are commonly neglected in mainstream literature. The result is a must have volume for sociological academics, social policy experts and professionals working within non-governmental organizations.

Codes of Misconduct Ashwini Tambe 2009 Across the nineteenth and twentieth centuries, legislators in Bombay passed a series of repetitive laws seeking to control prostitution. During the same time, Bombay's sex industry grew vast in scale. Ashwini Tambe explores why these remarkably similar laws failed to achieve their goal and questions the actual purpose of such lawmaking.

Gender and Sexuality in India Salla Sariola 2009-12-16 India has one of the highest numbers of HIV carriers in the world. HIV has remained associated with sex work, and large sums of money provided to fund public health interventions have come from global institutions such as UNAIDS, the World Bank and USAID. In the midst of these processes, however, sex workers and their everyday lives have been hidden behind the rhetorics of control and prevention. This book offers a detailed analysis of the experiences of sex workers in Chennai. Based on ethnographic fieldwork, it draws out themes of agency; notions of gender and sexuality; and the HIV prevention industry. While the women's experiences are closely knit into the medical discourse regarding sex workers, sex work emerges as a complicated knot of poverty, desire, women's oppression, love, co-option, and motherhood. The author examines how the sex workers actively negotiate the risks of their industry and suggests alternative discourses on women's sexuality, sexual behaviour and desire, arguing that unless the power imbalances affecting women are addressed, such policies and activities will have little impact. She brings attention to the problems of current policies, discourses and attitudes regarding HIV, sexuality and sex work, and shows how new policies could help to reduce vulnerabilities not only for sex workers, but perhaps for all women in India.

Sex at the Margins Laura María Agustín 2010-08-17 This groundbreaking book explodes several myths: that selling sex is completely different from any other kind of work; that migrants who sell sex are passive victims; and that the multitude of people out to save them are without self-interest. Laura Agustín makes a passionate case against these stereotypes, arguing that the label 'trafficked' does not accurately describe migrants' lives and that the 'rescue industry' disempowers them. Based on extensive research amongst migrants who sell sex and social helpers, Sex at the Margins provides a radically different analysis. Frequently, says Agustín, migrants make rational choices to travel and work in the sex industry. Although they are treated like a marginalised group they form part of the dynamic global economy. Both powerful and controversial,

this book is essential reading for all those who want to understand the increasingly important relationship between sex markets, migration and the desire for social justice.

Dangerous Sex, Invisible Labor Prabha Kotiswaran 2011-07-05 Popular representations of third-world sex workers as sex slaves and vectors of HIV have spawned abolitionist legal reforms that are harmful and ineffective, and public health initiatives that provide only marginal protection of sex workers' rights. In this book, Prabha Kotiswaran asks how we might understand sex workers' demands that they be treated as workers. She contemplates questions of redistribution through law within the sex industry by examining the political economies and legal ethnographies of two archetypical urban sex markets in India. Kotiswaran conducted in-depth fieldwork among sex workers in Sonagachi, Kolkata's largest red-light area, and Tirupati, a temple town in southern India. Providing new insights into the lives of these women--many of whom are demanding the respect and legal protection that other workers get--Kotiswaran builds a persuasive theoretical case for recognizing these women's sexual labor. Moving beyond standard feminist discourse on prostitution, she draws on a critical genealogy of materialist feminism for its sophisticated vocabulary of female reproductive and sexual labor, and uses a legal realist approach to show why criminalization cannot succeed amid the informal social networks and economic structures of sex markets. Based on this, Kotiswaran assesses the law's redistributive potential by analyzing the possible economic consequences of partial decriminalization, complete decriminalization, and legalization. She concludes with a theory of sex work from a postcolonial materialist feminist perspective.

Female Headed Households S. N. Tripathy 2005 The development of our country is intrinsically linked to the social, economic and political empowerment of our people especially women. Ensuring gender equality by removing gender discrimination mainly among the marginalised, unprotected FHHs are the key to real empowerment. Developing countries primarily through empowerment of women have achieved remarkable progress in terms of literacy, health and economic well being of families. Therefore, there is need to actively promote women's access to quality education, credit, health care, employment and social security. Moreover, protecting the right of women and girl child, enhancing their status by ending practices and customs which perpetuates gender discrimination and finally, formulating policy for safeguarding the interests of female and headed households (FHHs) is the need of the hour.

Sex Traffic Paola Monzini 2005-11 "The trafficking of women and girls for the purpose of prostitution is big business. It is one of the most lucrative industries in the world, particularly given the explosion of the sex industry since the 1990s. The collapse of the Soviet Union and the devastating impact of neoliberal economic policies in many parts of the world have resulted in significant numbers of women seeking income however they can." "This book draws on a wealth of new empirical data: case studies from several countries of origin, transit and destination; research produced by NGOs, police and criminal courts; interviews and field research with the women themselves. Monzini's primary aim is to identify the mechanisms of what has truly become a global market. Most important, she assesses recent attempts to control trafficking, and strategies for resistance and change."--BOOK JACKET.

International Approaches to Prostitution Gangoli, Geetanjali 2006-05-31 What is to be done about prostitution? Is it work or is it violence? Are women involved in prostitution offenders or victims? Is prostitution a private or a political issue? The answers to these questions vary depending on many factors, including where in the world you live. This book provides a valuable, detailed international comparison of the laws, policies and interventions in eight countries across Europe (England and Wales, France, Sweden and Moldova) and Asia (India, Pakistan, Thailand and Taiwan). The countries were chosen because of their contrasting social policy and legislative frameworks. Specific topics covered include national social and historical contexts in relation to prostitution; legal frameworks - with discussion of existing laws and policies and debates around legislation and decriminalisation; key issues faced - particularly relating to reasons for entering prostitution and analysis of policies and interventions. The case studies are brought to life by giving voice to the experiences of women involved in prostitution themselves together with the personal reflections of the authors. Aimed at a wide audience of students, academics, policy makers and practitioners, this book makes an important contribution to academic and policy debates in the fields of criminology, law, social policy, women's studies, sociology, politics and international relations.

Young Muslim Women in India Kabita Chakraborty 2015-12-14 This book, based on extensive, original research, details the changing lives of youth living in slum communities (bustees) in Kolkata (formerly Calcutta). Using young people's own photos, art and narratives, the book explores how Muslim girls and young women are contributing to, and impacted by, changing youth culture in India. We are invited into the risky world of mixed-sex dance taking place in clandestine spaces in the slums. We join young people on their journeys to find premarital romance and witness their strategic and savvy risk taking when participating in transgressive aspects of consumer culture. The book reveals how social changes in India, including greater education and employment opportunities, as well as powerful middle class Muslim reform discourses, are impacting youth the very local level. More than just fantasy we see that Bollywood is an important role model which young people consult. By carefully negotiating risks and performing multiple identities inspired by modernity, globalization and, most of all, Bollywood culture, young people actively participate in a changing India and disrupt dominant discourses about slum youth as poor victims who are excluded from social change.

The Fear that Stalks Lora Prabhu 2014-03-11 This book is an attempt to understand the causes, nature and consequences of gender-based violence in public spaces. It provides a framework that locates gender based violence within the politics and dynamics of public space, and helps us to understand the commonality between these diverse forms of violence, ranging from sexual harassment, sexual assault, moral policing, 'honour' killing, acid throwing, witch hunting, parading naked, tonsuring, rape and homicide. The writers unpack and examine the idea of a 'public' space: although by and large a notional space, they begin by identifying it as the geographical space between the home and the workplace and then, go beyond this to look at the violation faced by homeless women and girls who live on the streets, as well as those who work in public spaces in the unorganised sector. Published by Zubaan.

Modern Babylon? Heather Kate Montgomery 2001 Child prostitution became one of the key concerns of the international community in the 1990s. World congresses were held, international and national laws were changed and concern over "commercially sexually exploited children" rose dramatically. Rarely, however, were the children who worked as prostitutes consulted or questioned in this process, and the voices of these children brought into focus. This book is the first to address the children directly, to examine their daily lives, their motivations and their perceptions of what they do. Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution, this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community.
