**Sex Mood** - Martin S White 2022-11-21

Being successful with women has long held a deep mystique for most men. In today's society, men are often unfairly judged on their level of success with women. Why is one man successful while another isn't? There is almost always no apparent reason why one guy is more successful than another. A man should acquire all the knowledge and skills that will make the woman get addicted to him sexually and he should be healthy as to last long to satisfy their sexual desires . It seems reasonable to assume that the successful guy has something that the less successful guy does not. A natural aptitude with which to succeed? Maybe. What he will certainly have is a set of skills and a knowledge base that generates confidence. Confidence breeds success. The good news for you is that these skills and the necessary knowledge can be acquired. They can be learned by anyone who wants to be a success with women. You can help yourself to succeed by learning some simple skills of communication, interaction, preparation, and presentation. These coupled with other insights into the expectations of women, the way they

think, and the way they react to a variety of situations will enable you to confidently approach any woman and win her attention immediately

*Your Money Mood* - Susan McEuen 2015-03-25

This is not your typical money book. It is not about cutting up your credit cards, or finding the hottest stock, or how to get rich quick. As you turn page after page in "Your Money Mood" you will come to learn how to make managing your finances less intimidating and much more fun! Imagine having a deep knowing that money is truly your friend. It is this knowing and more that I so want to share with you! Most of the women I counsel would prefer to talk about food, exercise, children, relationships, cellulite... anything but money! Why is this? Why do some women abdicate their financial responsibilities while others exert rigid control? And why do some women seem to downright repel money? You probably won't find the real reasons in your conscious mind. Believe it or not, the driving factor behind the financial decisions you make is not necessarily how much you know about money. If I were to ask you to close your eyes and answer this question, "How do you feel when you talk about or even just think about spending money, saving money, investing money or not having enough money?" how would you respond? Which emotional responses have just been triggered inside of you...? These specific and habitual emotions form what I call Your Money Mood. First, you and I must determine your predominant Money Mood. (By the way, you may actually have more than one!) Then we will learn how your Money Mood has worked both for you and against you in relationship to money thus far. Here's the critical part - just as an emotional mood can be changed, so too can your Money Mood. In fact, you can not only change it, you can significantly improve it! You are in no way broken. "Your Money Mood" is not about fixing any aspect of who you uniquely are. It's about

recognizing your "opportunities for growth" while making the most of your emotional attributes!

The "hormone of desire," testosterone, acts on the brain to stimulate sexual interest, sensitivity to sexual stimulation, and orgasmic ability in both sexes. Questions answered and topics discussed include: Why and when do women make male hormones? Where do all our male hormones go? Behavior, life changes, and medical problems that affect our libido Medications that affect our libido Will creams, pills, lozenges, patches, or shots help? When you should see a psychiatrist, psychologist, or sex therapist How to discuss libido issues with your doctor How to reach your biologic sexual potential The "hormone of desire," testosterone, acts on the brain to stimulate sexual interest, sensitivity to sexual stimulation, and orgasmic ability in both sexes.
