Secret Identity - Carolyn Keene 2008-12-16

Everyone knows about the online group BetterLife. But what starts out as a fun virtual reality site turns into a living nightmare for Bess's twelve-year-old sister and her friends when one of them becomes a target of cyberbullying! I create my own BetterLife profile to investigate how the program works and find

out who could be targeting the girl and why. But nothing online is what it seems -- everyone is hiding behind their virtual identities. It's almost impossible to track down who is behind anything! Is this a simple case of middle school girls being mean to each other, or could it be something scarier? It's up to my friends and me to do some cyberdigging and unmask the secret identities of the BetterLife bullies!

Love Online - Penelope Ward 2018-08-27

From New York Times bestselling author Penelope Ward, comes a new, sexy standalone novel. We met in the least likely of places. It started out innocently enough. I was "ScreenGod" and she was "Montana," but of course, those weren't our actual names, just the virtual cloaks we hid behind. Logging in at night and talking to her was my escape—my sanctuary. Her real name was Eden, I'd soon come to find out. From the first time we connected online, I found myself transfixed. She was an addiction. At first, we knew nothing about each other's real identities...and she was adamant that we keep things that way.

Anonymity had no effect on our unstoppable chemistry, though. If anything, it allowed us to open up even more in ways we may not have otherwise. Eden was funny, intelligent, gorgeous—everything I'd ever wanted in a woman. But I couldn't really have her. I had accepted things would have to stay the way they were—until the day I found a clue that led me straight to her. So I took a chance. And that was when our love story really began.

Online Dating Sucks, But You Should Do It Anyway - Ryan Lotsberg 2022-08-03

There's a reason that "date" is a four letter word. Online dating sucks! Ryan Lotsberg knows just how much online dating can suck. He did it for a decade before he found a girlfriend! The frustration among dating app users is palpable because everyone's learning about how technology fits into the dating world and how to use it to their advantage. People learn from their failures. Ten years of failure taught Lotsberg a lot about it! Readers will learn from Lotsberg's failures in *Online Dating Sucks, But You Should Do It Anyway*. This book contains the story of how he met his girlfriend and of their process of getting to know each other before entering their relationship. It also contains many of Lotsberg's awkward, embarrassing, and frustrating online

dating stories. Lotsberg uses his experiences to share the challenges that people trying to find relationships using dating apps face. The book is about what it takes to find a partner online, and it's about how to not f*ck things up like Lotsberg did on many occasions. It's part comedy, part tragedy, and part self-help. This book was written from the perspective of a man that struggled to find a relationship for over a decade. It's a raw and deeply personal description of the self-doubt that can become instilled in someone due to online dating culture, and it contains insights on how to deal with the constant rejection and frustration. Lotsberg wrote about the impact that this can have on self-confidence. Despite his struggles, Lotsberg was eventually able to find a relationship. He shares how he was able to withstand all the challenges and maintain hope that he would eventually find a girlfriend in this book. It's a must read for dating app users!
