*Ugly Love - Colleen Hoover*  
2014-08-05  
From Colleen Hoover, the #1

New York Times bestselling  
author of It Starts with Us and  
It Ends with Us, a heart-

wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

after a once-in-a-century flood moves through the Indian city of Chennai, choking the Adyar River with the titular mud, a Japanese woman contracted to an IT company as a language instructor finds herself caught up in a deluge of flashbacks and memories, reflecting on unspoken words and unlived lives and contemplating the muddy chaos of her own karma. Told in a magic realist stream-of-consciousness style evocative of the subtle, wry sense of humour found in the traditional Japanese narrative art of rakugo, *The Mud of a Century* explores the interrelated bonds between self and other, Japan and India, past and present, fact and fantasy, and material and spirit.

From Equality to Inequality - Csilla Dallos 2011-01-01

The egalitarian society once enjoyed by the Lanoh hunter-gatherers of Peninsular Malaysia is quickly changing. Throughout a year of ethnographic fieldwork among the Lanoh, Csilla Dallos studied and interpreted social change in order to better understand the processes leading to inequality and the concurrent development of social complexity within a community. From Equality to Inequality provides rich empirical data on the factors within a community that significantly affect the

development of inequality, including the effects of sedentism, integration, leadership competition, self-aggrandizement, marginalization, and feuding kinship groups. In this case study, Dallos argues that in order to understand emerging inequality, anthropologists and social scientists need to revisit current conceptions of politics in small-scale egalitarian societies. Offering a new model of developing social inequality that is congruent with the principles of complexity theory, From Equality to Inequality is a sterling example of how anthropological practice can further our general understanding of human behaviour.
