Friendship And Love

How To Express Attraction Toward Another Person

(ROMANTIC FRIENDSHIP) -

Abdul Rasheed Sajid

2021-03-03

Romance or Romantic love is an emotional feeling of love for, or a strong attraction towards another person, and the courtship behaviors undertaken by an individual to express those overall feelings and resultant

emotions. Although the emotions and sensations of romantic love are widely associated with sexual attraction, romantic feelings can exist without expectation of physical consummation and be subsequently expressed. In certain cases, romance could even be just passed down as a normal friendship. Historically, the term romance originates with the medieval ideal of chivalry as set out in the literature of Chivalric romance. *Readings for Social Psychology* - Martin F. Kaplan 1972

"This volume provides an authoritative synthesis of a dynamic, influential area of psychological research. Leading investigators address all aspects of dual-process theories: their core

assumptions, conceptual foundations, and applications to a wide range of social phenomena. In 38 chapters, the volume addresses the pivotal role of automatic and controlled processes in attitudes and evaluation; social perception; thinking and reasoning; self-regulation; and the interplay of affect, cognition, and motivation. Current empirical and methodological developments are described. Critiques of the duality approach are explored and important questions for future research identified"--
