

How We Love Our Kids The Five Love Styles Of Parenting

[The Four Loves](#) - C. S. Lewis 2023-11-20

The Four Loves is a 1960 book by C. S. Lewis which explores the nature of love from a Christian and philosophical perspective through thought experiments. The book was based on a set of radio talks from 1958 which had been criticized in the U.S. at the time for their frankness about sex. C.S. Lewis examines storge or empathy love; philia, friendship love; eros, romantic love; and agape, or God love. Excerpt: "GOD is love," says St. John. When I first tried to write this book I thought that his maxim would provide me with a very plain highroad through the whole subject. I thought I should be able to say that human loves deserved to be called loves at all just in so far as they resembled that Love which is God."

Five Love Languages of Teenagers Dvd Pak for Parents - Gary Chapman 2003-06-01

Using this 6-session study, parents and student ministry leaders will learn that even teens understand and show love in different ways some prefer gifts, others physical affection, and still more respond to words of affirmation.

Elevating Child Care: A Guide to Respectful Parenting - Janet Lansbury 2014-05-01

Janet Lansbury's advice on respectful parenting is quoted and shared by millions of readers worldwide. Inspired by the pioneering parenting philosophy of her friend and mentor, Magda Gerber, Janet's influential voice encourages parents and child care professionals to perceive babies as unique, capable human beings with natural abilities to learn without being taught; to develop motor and cognitive skills; communicate; face age appropriate struggles; initiate and direct independent play for extended periods; and much more. Once we are able to view our children in this light, even the most common daily parenting experiences become stimulating opportunities to learn, discover, and to connect with our child. "Elevating Child Care" is a collection of 30 popular and widely read

articles from Janet's website that focus on some of the most common infant/toddler issues: eating, sleeping, diaper changes, communication, separation, focus and attention span, creativity, boundaries, and more. Eschewing the quick-fix 'tips and tricks' of popular parenting culture, Janet's insightful philosophy lays the foundation for a closer, more fulfilling parent/child relationship, and children who grow up to be authentic, confident, successful adults.

Creating Loving Attachments - Kim S. Golding 2012

Troubled children need special parenting to build attachments and heal from trauma. This book provides a parenting model that parents and carers can follow to incorporate love, play, acceptance, curiosity and empathy into their parenting. These elements are vital to a child's development and will help children to feel confident, secure and happy.

The Five Love Languages - Gary Chapman 2009-12-17

Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language-quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio

program called A Love Language Minute that can be heard on more than 150 radio stations as well as the weekly syndicated program Building Relationships with Gary Chapman, which can both be heard on fivelovelanguages.com. The Five Love Languages is a consistent New York Times bestseller - with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running!

Love and Logic Magic for Early Childhood - Jim Fay 2000

Let Jim Fay and Charles Fay, Ph.D., help you start your child off on the right foot. The tools in Love and Logic Magic for Early Childhood will give you the building blocks you need to create children who grow up to be responsible, successful teens and adults. And as a bonus you will enjoy every stage of your child's life and look forward to sharing a lifetime of joy with them.

A Perfect Pet for Peyton - Gary Chapman 2012-12-26

Gary Chapman and Rick Osborne help children learn about the importance of love in this wonderfully imaginative and classically illustrated children's hardcover book featuring four-color illustrations (with hidden details!) by Wilson Williams, Jr., and based on Gary's bestselling The 5 Love Languages. Each child in this entertaining and playful story learns that they have a primary love language that when "spoken" by others, makes them feel loved. As the five children in the story interact with Mr. Chapman and the unique animals at his special zoo/museum/theme park/birthday party palace, they come to understand their own love language! Readers, especially children ages 5-8, are sure to recognize their own love language as the story develops, and at the end of the book is a fun quiz that will help parents and children identify their own love language. The cast of child characters in this whimsical story include: Penny, Peyton's twin sister, who receives love best when others spend quality time with her. Mr. Chapman introduces Penny to Horace, a Ragdoll Cat who just wants to be with Penny. Jayla, one of Penny's close friends, is always saying nice things about people. Her love language is words of affirmation. Jayla's perfect pet pal is Pamela, an African Grey Parrot, who

repeats the nice things Jayla says about others. Kevin, one of Peyton's close friends, enjoys giving things to people. So does his special pet Chip, a Capuchin Monkey! Sofia loves to pet the animals, and to show her love for others with special hugs. Physical touch is Sofia's love language. Snuggles

Love, Money, and Parenting - Matthias Doepke 2020-11-03

Doepke and Zilibotti investigate how economic forces shape how parents raise their children. They show that in countries with increasing economic inequality, such as the United States, parents push harder to ensure their children have a path to security and success. Economics has transformed the hands-off parenting of the 1960s and '70s into a frantic, overscheduled activity. Growing inequality has also resulted in an increasing 'parenting gap' between richer and poorer families, raising the disturbing prospect of diminished social mobility and fewer opportunities for children from disadvantaged backgrounds. The authors discuss how investments in early childhood development and the design of education systems factor into the parenting equation, and how economics can help shape policies that will contribute to the ideal of equal opportunity for all. --From publisher description.

Raising a Secure Child - Kent Hoffman 2017-02-03

Today's parents are constantly pressured to be perfect. But in striving to do everything right, we risk missing what children really need for lifelong emotional security. Now the simple, powerful "Circle of Security" parenting strategies that Kent Hoffman, Glen Cooper, and Bert Powell have taught thousands of families are available in self-help form for the first time. You will learn: • How to balance nurturing and protectiveness with promoting your child's independence. • What emotional needs a toddler or older child may be expressing through difficult behavior. • How your own upbringing affects your parenting style--and what you can do about it. Filled with vivid stories and unique practical tools, this book puts the keys to healthy attachment within everyone's reach--self-understanding, flexibility, and the willingness to make and learn from mistakes. Self-assessment

checklists can be downloaded and printed for ease of use.

How We Love, Expanded Edition - Milan Yerkovich 2009-01-20

Did you know the last fight you had with your spouse began long before you even met? Are you tired of falling into frustrating relational patterns in your marriage? Do you and your spouse fight about the same things again and again? Relationship experts Milan and Kay Yerkovich explain why the ways you and your spouse relate to each other go back to before you even met. Drawing on the powerful tool of attachment theory, Milan and Kay explore how your childhood created an "intimacy imprint" that affects your marriage today. Their stories and practical ideas help you: • identify your personal love style • understand how your early life impacts you and your spouse • break free from painful patterns that keep you stuck • find healing for the source of conflict, not just the symptoms • create the close, nourishing relationship you dream about Revised throughout with all-new material and additional visual diagrams, this expanded edition of *How We Love* will bring vibrant life to your marriage. Are you ready for a new journey of love? Note: The revised and expanded *How We Love* Workbook is available separately.

Parenting Matters - National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including

feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Why Love Matters - Sue Gerhardt 2014-10-24
Why Love Matters explains why loving relationships are essential to brain development in the early years, and how these early interactions can have lasting consequences for future emotional and physical health. This second edition follows on from the success of the first, updating the scientific research, covering recent findings in genetics and the mind/body connection, and including a new chapter highlighting our growing understanding of the part also played by pregnancy in shaping a baby's future emotional and physical well-being. Sue Gerhardt focuses in particular on the wide-ranging effects of early stress on a baby or toddler's developing nervous system. When things go wrong with relationships in early life, the dependent child has to adapt; what we now know is that his or her brain adapts too. The brain's emotion and immune systems are particularly affected by early stress and can become less effective. This makes the child more vulnerable to a range of later difficulties such as depression, anti-social behaviour, addictions or anorexia, as well as physical illness. *Why Love Matters* is an accessible, lively, account of the latest findings in neuroscience, developmental psychology and neurobiology - research which matters to us all. It is an invaluable and hugely popular guide for parents and professionals alike.

How to Really Love Your Child - Ross Campbell 2015-04-01

You know you love your child. You attend school events, care for physical needs, and discipline when needed. But did you know that most children, even in loving households, doubt that they are genuinely and unconditionally loved? In Dr. Ross Campbell's groundbreaking book, he explains the emotional needs of a child and provides you with skills that will help your child feel truly loved and accepted. Using eye contact, affirmation, and spiritual nurturing, you'll learn to really love your child no matter what the

circumstances. The practical applications in *How to Really Love Your Child* have already helped over 2 million parents around the world show love to their children in a way that can be received and returned, again and again.

The 5 Love Languages of Children - Gary Chapman
2012-02-01

Does your child speak a different language? Sometimes they waver for your attention, and other times they ignore you completely. Sometimes they are filled with gratitude and affection, and other times they seem totally indifferent. Attitude. Behavior. Development. Everything depends on the love relationship between you and your child. When children feel

loved, they do their best. But how can you make sure your child feels loved? Since 1992, Dr. Gary Chapman's best-selling book *The 5 Love Languages* has helped millions of couples develop stronger, more fulfilling relationships by teaching them to speak each others' love language. Each child, too, expresses and receives love through one of five different communication styles. And your love language may be totally different from that of your child. While you are doing all you can to show your child love, he may be hearing it as something completely opposite. Discover your child's primary language and learn what you can do to effectively convey unconditional feelings of respect, affection, and commitment that will resonate in your child's emotions and behavior.

I Love You But You Always Put Me Last - Andrew G. Marshall
2013-09-12

How to balance being a loving partner with being a great parent From novels to non-fiction, there has never been more interest in parenting. It seems that somehow, modern parenting has become about always putting your child's needs first, however inconsequential and no matter what the cost. The price we are paying as parents is losing our identity, forgetting about our partner's needs and putting them last on our list of priorities. This is resulting in marriage breakdown and unhappy, insecure children with poor relationship role models. This practical self-help book is about putting your partner first, and not losing sight of your own needs when you become a parent. By focusing on your relationship and making your partner a priority, you will create a secure, caring environment in which to bring up your children. The result is a strong marriage, secure children and a happy family.
