Hydroponic Spirituality -

Anthony Casperson 2020-03-24

Followers of Jesus who deal with depression, anxiety, sorrow, and the like are often told, "Just hang on. Eventually, God will raise you up out of The Depths of Darkness. When that day in the fresh air and sunshine comes, it'll be a glorious day where you can return to growing spiritually

with God." But what if the reason why some find themselves in that watery realm is because God led them there? Can spiritual growth occur in a place that seems unnatural to the common understanding of bearing fruit? Hydroponic Spirituality seeks to answer these and similar questions in order to discover how to thrive spiritually even in

the darkest of realms.

Franciscan Spirituality and Mission in New Spain, 1524-1599 - Steven E. Turley
2016-04-15

Franciscans in sixteenth-century New Spain were deeply ambivalent about their mission work. Fray Juan de Zumárraga, the first archbishop of Mexico, begged the king to find someone else to do his job so that he could go home. Fray Juan de Ribas, one of the original twelve 'apostles of Mexico' and a founding pillar of the church in New Spain, later fled with eleven other friars into the wilderness to escape the demands of building that church. Fray Jerónimo de Mendieta, having returned from an important preaching tour in New Spain, wrote to his superior that he did not want to enlist again, and that the only way he would return to

the mission field was if God dragged him by the hair. This discontent was widespread, grew stronger with time, and carried important consequences for the friars' interactions with indigenous peoples, their Catholic co-laborers, and colonial society at large. This book examines that discontent and seeks to explain why the exhilaration of joining such a 'glorious' enterprise so often gave way to grinding discontent. The core argument is that, despite St. Francis's own longing to do mission work, his followers in New Spain found that effective evangelization in a frontier context was fundamentally incompatible with their core spirituality. Bringing together two streams of historiography that have rarely overlapped - spirituality and missions - this book marks a strong contribution to the history of spirituality in both Latin America and Europe, as well as to the growing fields of transatlantic and world history. *Spiritual Casualties* - Tom Schuessler 2022-09-13

It is easy to have faith when all is going well. It is easy to trust God when you have a great job, a great marriage, good health and sound finances. It is very easy to lift your hands and sing God's praises when life is beautiful. It can, however, be quite difficult to trust God when severe trials enter your life. It can make it hard to sing his praises when waves of adversity bring you to the brink of despair. It can seem especially bad when those around you seem to be enjoying life and have things going their way, especially when you see unbelievers with happy homes, good health, and great careers. It is when severe trials come and our faith is tested to the breaking point that we must remember that "... we know in all things that God works for the good of those who love him, who are called according to his purpose". (Rom 8.28) There is a hidden realm in which spiritual warfare is being waged by the forces of evil in the heavenly realms (Ephesians 6.12). This book lays out an

explanation of spiritual warfare and gives Biblical evidence showing that even people of God can suffer long and painful trials. It also gives reasons for hope, both now and in eternity to come. The author also issues a call to the Body of Christ to come to the aid of hurting Christians and offers suggestions on who can be part of the healing and how to approach the subject. If you are hurting, you are invited you to journey through this book to find healing and hope from God's word. If you are a Christian with a heart for those who are hurting, you are also invited to journey through this book and try to discern what ministry God may have for you.

Semantics and Psychology of Spirituality - Heinz Streib
2015-10-16

This book examines what people mean when they say they are “spiritual”. It looks at the semantics of “spirituality”, the visibility of reasons for “spiritual” preference in biographies, in psychological dispositions, in cultural differences between Germany and the US, and in gender differences. It also examines the kind of biographical consequences that are associated with “spirituality”. The book reports the results of an online-questionnaire filled out by 773 respondents in Germany and 1113 in the US, personal interviews with a selected group of more than 100 persons, and an experiment. Based on the data collected, it reports results that are relevant for a number of scientific and practical disciplines. It makes a contribution to the semantics of everyday religious language and to the cross-cultural study

of religion and to many related fields as well, because “spirituality” is evaluated in relation to personality, mysticism, well-being, religious styles, generativity, attachment, biography and atheism. The book draws attention to the - new and ever changing - ways in which people give names to their ultimate concern and symbolize their experiences of transcendence.

and relationships in a loveless world is by armoring yourself with knowledge. This includes knowledge over the way things currently are. You've went to psychic readers, you've cast spells, you put yourself out there, did the vision boards, the crystal meditations, and other love rituals presented to you, but you still find you're desperately wishing the person of your dreams was here already. You grow cynical as if it will never happen and that you just have to accept the fact that perhaps it's not in the cards. Dating is a battlefield, be prepared to get dirty. Kevin Hunter is best known for his endless array of spiritually based books. In *Love Party of One*, he answers some of the practical issues that readers posed regarding their personal conflicts in the current dating market. This is a non-denominational book with some light spiritual slang for anyone struggling as a single person in a loveless world. This is regardless of age, background, or whether you are straight, bi, gay, male, or female. The

dating market is an equal opportunity killer and no soul is exempt from the challenges they face when it comes to love. Some of the topics discussed surround technological dating, falling in love with someone you've never met, codependency, exes, communicating, compromise, sex, marriage, monogamy vs. adultery, ageism, and more! What Readers Have Said: "As much as the author's personality seems to be the work of Picasso, I read the intro and first chapter of *Love Party of One*". I was glued to it, because I really can relate. The things Kevin Hunter touches on in this book are right-on." - A Reader "Loved this book. This line really stood out to me: "Desiring a love partner is not co-dependent...to equate a basic human need with desperation is absurd." - A Reader "An amazing read. Realistic. The book touches upon confusions, thoughts, and emotions in one's journey to the find the one. Also relevant were a focus on couples issues

after they are together. Issues such as infidelity and monogamy which is so significant in today's age. It was good to see the author reinstate the old school belief that true love is about that commitment." - A Reader "Quite a bit of my dating struggles in my own consciousness I found to be already written down in this book. Love Party of One really vibes with me. Loved it. Thank you." - A Reader "I have been reading this book and can't put it down! It's soooo good!!! Fantastic work Kevin Hunter! He should be a teacher in a school or college, or a counselor! This stuff he wrote in 'Love Party of One' is right to the point and on the mark! Damn he's good! His Archangel team guided him to a best seller in my opinion! I'm just about to start chapter 8 and each chapter is like, "Damn, he's so right! He is good! Great job with this! What a gifted Angel and Wise One he is. A true Warrior for sharing the right stuff! Thank you!" - A Reader

materialistic science satisfies the ache of the human heart for meaning or significance. We have experienced wonderful progress through the advances of science. Unfortunately, our achievements in many respects have become our atrocities. Since the Enlightenment, mechanistic science has insisted that it is only through reason that we can objectively prove anything, thereby excluding all subjective experience. This is the predominant paradigm by which capitalism and materialism prevail. Modern society has almost completely adopted this model. Because of this near total embrace, the environment of the human habitat is becoming more and more threatened. Through this model we infer that infinite growth can fit into a finite world. The ego is catered to as a consequence, but our spirit grows ever more impoverished. What use is verification by the human eye if the subjective experience of sight is excluded? Science explains but

tells us nothing of experience. We need a spirit of transcendence, something that lies beyond matter, to explain the human construct. This is where spirituality enters. Religion, for its own ends, has politicized spirituality and co-opted for power and control. Individually, spirituality calls us to reclaim the birthright of Gods divinity alive within each of us. True spirituality calls us to look to the power within. True spirituality belongs to each individual. We must adopt a new paradigm, decontaminate ourselves from organized religion, and see our own individual divinity.

while still flirting around the law of attraction (LOA) for manifesting abundance in life. Why just flirt with LOA, when we can fully understand the modern concept of spirituality—to not only manifest abundance, peace, prosperity but ways to fully sustain its benefits for a lifetime? The old, outdated idea about spirituality was merely our fears for spirituality, but now it's time to explore it safely with the now available first-ever instruction book on spirituality. Firstly, we have to understand what it is all about; then understand why it is important in our lives, and then we can experience the beauty of spirituality without having to sacrifice anything in the materialistic world outside. The balance is the key; real spirituality never makes us sacrifice anything rather it teaches us how to become our best version in both outer abundant life and a richer, blessed emotional life. The book is an initiative to bring to light the hidden, unexplored aspects of spirituality, so vital

in our daily lives, the absence of which has created the love-deprived world that we are! This The Art of Spirituality series is my life purpose to bridge the gap between science and spirituality and bring the nectar of harmony, love, peace and bliss for every one of us.

Metaphysical Divine Wisdom on Universal, Physical, Spiritual and Soul Love - Kevin Hunter 2019-07-04

The point of all existence in the end is connected to love, whether that is love for another person, self-love, or universal and spiritual love. One of the main reasons all souls are here is to learn the nature of love. Love is to understand that even the most heinous person in your eyes has love built deep down in the core of their soul. When you are in Heaven you truly understand what Universal love feels like. Love is the most powerful vibration that exists throughout all of time and space. Displaying hatred doesn't take much effort, but to show love requires a complete soul do

over in order to get back to that space your soul was born with. Love will always cost you something, whether that's time or energy. Love will cost you pride when you need to let go of something that someone else did and extend the olive branch. Universal, Physical, Spiritual and Soul Love examines one of the most powerful vibrations that exists and that is love. There are divinely guided discussions on what it means to display Universal love and spiritual love. There is a heavy emphasis on the connection nature between souls from the karmic to soul mates and twin flames, before devoting a good chunk on the practical, which is of great interest in the physical world. The mid-section of this acts as a dating and relationship guide to finding a quality mate in a world dominated by the darkness of ego. This is coupled with the challenges and benefits to finding and keeping love in a language that resides within the cold technology sphere. It would be awesome if every

single person on the planet was keenly aware of their innate psychic abilities built into their soul's DNA, because then Earth would be as close to Heaven as feasibly possible. There would be never-ending joy, peace, and love for every soul. Everyone would be operating from a higher vibration while moving mountains in the process. We see this kind of amazing uplifting joy in others when they're in a high vibrational state. Universal, Physical, Spiritual and Soul Love has the goal and intention of filling the reader with as much as love as possible with the hope that it can motivate one soul back into their soul's natural state of love. Some of the topics discussed in Universal, Physical, Spiritual and Soul Love include: It's All About Love, Creating the Life You Love, Self-Love and Self-Care, Karmic Soul Connections, Soul Mate Soul Connections, Twin Flame Soul Connections, The Benefits and Challenges of Technology Dating, Single and Longing for a Relationship, Love and Relationships, Love is
