Steven thinks he is just your average gamer but with a bleak future. He has been thrust into a new school and faced with bullies from "hells gate gang". He does not feel things can get much worse. Turning to his online world he seeks out friendship in the network world of GamZ ON, a hot new game. Steven is not disappointed. The other gamers he meets, soon form a strong team that stick together to achieve great things in the GamZ ON world. Not only do they face the challenges together online, but they also use their wits and team strengths to face the bullies too. Thrust into situations that are not what the team would wish for, like camping and bushwalking, the gamers cannot believe they will survive the boredom. Little do they suspect that an incredible adventures and wonder, awaits them. They find something that cannot be explained, it is clearly not of this world. This is truly and amazing FIND! They are launched head long into a series of experiences and battles that do not seem to be game like, but real! How could this be happening, is it real? There are ominous signs that this new experience is indeed something with real consequences. What have they just experienced? Only one-thing now matters, they must experience it again and; as soon as possible. They all agree, they must keep what they have experienced a secret. A meeting of the team is soon planned to push this thing to the limits. Steven suspects there may be more to what they have been through than anyone fully understands. Perhaps some alien force is at work? Perhaps there is a link to what they experienced and GamZ ON? Could there be alien forces at work? What seems like the experience of a lifetime may have led Steven and the team into something bigger than they could all dream of. There is an ominous feeling of growing and gaining momentum. Perhaps they are only at the foot of a very great challenge, with implications for the whole of humanity.

Student-Focused Learning - Darrel W. Staat 2020-06-15

Learning methods for the twenty-first century will include those which are student-centered, learning-focused, and digitally enhanced. Teaching will become learning management; the lecturer will become a learning guide, and students will become learning inventors. This book provides chapters describing a number of methods to be used in higher education in the twenty-first century. Some methods have been in existence for a period of time; others are literally at the front edge of development. Trying them out, piloting them, and experimenting with them for the benefit of the student is well worth the effort. It is best to be as prepared as possible for future changes rather than waiting to see what is going to happen. Those who try and are successful will be the leaders in learning management of the near future. In the digital world, being at the leading edge has definite advantages. No matter which method is used, it should focus on the student as learner with the faculty member as a learning guide. To survive in the twenty-first century, students will need to become continuous learners, developing with changes at an exponential velocity. Educators need to keep this critical concept in mind.

The Charisma Myth - Olivia Fox Cabane 2013-03-26

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

Online Dating Secrets - Adam Pearson 2017-07-13

Why You Should Read This BookI remember it like it was yesterday. My

life was so boring and so pathetic. Until November 2012, I was a complete failure with women. I could not talk to women, approach women, or even message a woman. I was scared petrified. I'll give you a real life example: There was this girl. I knew her in real life. A friend of a friend had given me some information about a job, in the same market as she worked in, and she had recently lost her job, (a different friend told me), so I added her on Facebook after like an hour of contemplating, then typed a message, deleted it, and this went on for about 3 hours, and it was 10 lines. If that was completely innocent, just imagine how useless I would have been, if I had tried online dating back then... One day I read an article in a magazine about a guy who had slept with over a hundreds of women in less than two years!!! This article wasn't saying much about dating tips or secret technique, but I was fascinated and suddenly willing to face the fact that I need to learn something new to successfully date hot women. I asked myself one simple question that changed my way of thinking about dating & relationships... If we can learn how to start a business, how to repair a car or how to speak a new language, can we learn how to date, flirt, love and have success with women? What Do You Think? Of Course We Can... I'm pretty sure that with the help of a good teacher with good dating tips from a good dating guide, sky is the limit, no matter how you look, no matter your age, no matter your size, etc. This is why, five years ago, I took my credit card and bought all the Internet Dating Relationship Guides that were available on the market at that time... and it cost me \$247 exactly... nothing less... I still remember the bill on my credit card... If on one side I can tell you that it cost me a lot of money... on the other side I can also tell you that I learn a lot from it... Some of these dating books were just awesome, while some others were just a suite of words from experts who seem to know nothing about how to date women, or seem to live in a kind of imaginary world with imaginary women, where nobody else lived. I would even say that most of what's being taught in some "experts' dating advice books" isn't working at all... The bad thing is that all those bad experts are just fooling men into thinking that this "popular understanding" of how to relate with women actually works. They're somewhere trying to make you believe that if you keep using their online dating techniques (techniques they've probably never tried), that one day it will all work out... but believe me, it won't. For sure, now I know what works and what doesn't... Men who have success with women and have the opportunity to date beautiful hot young women are much happier in life than all others that can't. Success makes them proud and more confident in all aspects of their life. This is why you can't afford to ignore this book. There are a lot of advantages of being successful when dating women, but the biggest advantage is that it has a direct effect on all other aspects of your life. Just imagine the strong effect your new hot girlfriend can have on your friends, family, employer or associates... Believe me, the day you walk hands in hands with a dream girl, you feel more confident, and it completely changes the way others see you. You are suddenly seen as someone who deserves respect. Even your boss will be more likely to offer you a promotion, a bonus or a pay raise... It's time! So regardless of where you live on this Earth, just as long as you can get on the internet, I will show you the **Online Dating Secrets** to get Hot Girls!

How to Get a Girlfriend Dating Online - Robert Belland 2011-02-01

The goal of this book is simple: to guide ANY guy through the process of picking out the BEST women to chat with, exactly what to say to them, and how to inspire these women to feel enough attraction and comfort to meet in person. What can YOU do slightly differently than the last 50 guys who tried emailing her that same day? Be different (in a fun way) without seeming desperate, needy, or creepy. This book explains and explores the common mistakes men are making dating online AND explains, step-by-step, EXACTLY what to say in order to stand out and get dates. This book outlines the FOUR FOUNDATIONS of successful (online) dating: Attraction, Rapport, Leading, and Escalation. - **ATTRACTION** is about tension and her emotional response to you. - **RAPPORT** is about intimacy and her emotional connection with you. - **LEADING** is about challenging your fears and taking action while communicating sincerity through your actions. - **ESCALATION** is about consistently increasing the intensity of your relationship via attraction and rapport so that it goes where ever you want it to go. **WHAT YOU'LL DISCOVER IN THIS BOOK:** - Exactly to say in your first email so that she's MOST likely to respond to you. - 8 tragic but typical mistakes you should NEVER make when first chatting with her online. - 5 ways she's indicating she's "ready" to meet you (but you might be missing). - 10 things you SHOULD be doing to make or break your online profile. - 10 detailed examples of men's profiles, and what's good and bad about them. - Learn which types of photos make women click your profile, and

which make her run for the hills! - MANY examples of the types of emails other men will be sending her so that YOU can learn how to avoid sounding like "just another creep." - How to be DIRECT in such a way that will invite her to desire you more. - 7 amazing openers that you can use anytime that I've tested and used to meet many amazing women online, and why they work so well. - Etc, etc, etc... Getting the girl online isn't rocket science. It's not black magic. It's not surprising or wierd. BUT it's almost universally misunderstood. What makes a girl reject the last 99 guys but respond to you? It's simple. Being different, being playful, and being attractive. The core teachings of my books. As a matter of fact it's EASIER to be different than the last 99 guys simply because the last 99 guys are all saying the exact same things and all making the exact same mistakes. I wrote this book to help the average guy, like you and me, stand out from the online dating crowd in order to catch the girl we REALLY want, and ultimately deserve. She WANTS you to find her and attract her... now read this book and learn the fastest path to your first date!
