Making Toleration - Scott Sowerby 2013-03-01

Though James II is often depicted as a Catholic despot who imposed his faith, Scott Sowerby reveals a king ahead of his time who pressed for religious toleration at the expense of his throne. The Glorious Revolution was in fact a conservative counter-revolution against the movement for enlightened reform that James himself encouraged and sustained.

The New Logic of Sexual Violence in Enlightenment France - Mary McAlpin 2023-11-08

This book argues that rape as we know it was invented in the eighteenth century, examining texts as diverse as medical treatises, socio-political essays, and popular novels to demonstrate how cultural assumptions of gendered sexual desire erased rape by making a woman's non-consent a logical impossibility. The Enlightenment promotion of human sexuality as natural and desirable required a secularized narrative for how sexual violence against women functioned. Novel biomedical and historical theories about the "natural" sex act worked to erase the concept of heterosexual rape. McAlpin intervenes in a far-ranging assortment of scholarly disciplines to survey and demonstrate how rape was rationalized: the history of medicine, the history of sexuality, the development of the modern self, the social contractarian tradition, the global eighteenth century, and the libertine tradition in the eighteenth-century novel. This intervention will be essential reading to students and scholars in gender studies, literature, cultural studies, visual studies, and the history of sexuality.

Consent, Stealthing and Desire-Based

Contracting in the Criminal Law - Brianna Chesser 2021-12-24

Consent, Stealthing and Desire-Based Contracting in the Criminal Law examines the inconsistencies in the definitions of consent in sexual encounters by examining emerging sex crimes alongside changing community values and the changing legal definitions of consent in sexual offending, focusing on common law and civil law countries. This book distinguishes itself through the use of empirically validated research strategies and an in-depth analysis of current legislative regimes. It argues that desire and pleasure are largely ignored by legal consent definitions, despite its importance in sexuality more broadly. Using two case studies of emerging forms of sexual offending, the criminalisation of sadomasochistic sexual practices and the offence of 'stealthing', it examines how the law is both a blunt and under-utilised instrument in the policing of people's sexual relationships. The presence or absence of consent can change a lawful sexual act between two people into a serious crime with potentially devastating consequences to both survivor and offender. Yet there remains no consistent definition of consent applied within and between legal jurisdictions across the world. A comparative analysis reveals parallels between common law countries and civil law countries. The book also provides a brief history of the use of term consent in relation to sexual offending and examines definitional and sociological requirements of conceptual consent across history. Covering jurisdictions in the US, UK, and Australia, providing an innovative resource on issues relating to consent presented in an accessible way, this book will appeal to students and researchers of criminal justice, criminal law, criminology, sociology and gender studies.

Intimacy and Celebrity in Eighteenth-Century Literary Culture - Emrys D. Jones 2018-06-19

This book provides an expansive view of celebrity's intimate dimensions. In the process, it offers a timely reassessment of how notions of private and public were negotiated by writers, readers, actors and audiences in the early to mid-eighteenth century. The essays assembled here explore the lives of a wide range of figures: actors and actresses, but also politicians, churchmen, authors and rogues; some who

courted celebrity openly and others who seemed to achieve it almost inadvertently. At a time when the topic of celebrity's origins is attracting unprecedented scholarly attention, this collection is an important, pioneering resource.

The Hangover - Jonathon Shears 2020

The Routledge Handbook of Translation

History - Christopher Rundle 2021-09-30

The Routledge Handbook of Translation History presents the first comprehensive, state-of-the-art overview of this multi-faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues, interdisciplinary approaches, and research themes. The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds, offering examples of the most innovative research while representing a wide range of approaches, themes, and cultural contexts. The Handbook is divided into four sections: the first looks at some key methodological and theoretical approaches; the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history; the third looks at translation history from the perspective of specific cultural and religious perspectives; and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years. This Handbook is an indispensable resource for students and researchers of translation and interpreting history, translation theory, and related areas.

Slavery and the British Country House -

Madge Dresser 2013

The British country house has long been regarded as the jewel in the nation's heritage crown. But the country house is also an expression of wealth and power, and as scholars reconsider the nation's colonial past, new questions are being posed about these great

houses and their links to Atlantic slavery. This book, authored by a range of academics and heritage professionals, grew out of a 2009 conference on 'Slavery and the British Country house: mapping the current research' organised by English Heritage in partnership with the University of the West of England, the National Trust and the Economic History Society. It asks what links might be established between the wealth derived from slavery and the British country house and what implications such links should have for the way such properties are represented to the public today. Lavishly illustrated and based on the latest scholarship, this wide-ranging and innovative volume provides in-depth examinations of individual houses, regional studies and critical reconsiderations of existing heritage sites, including two studies specially commissioned by English Heritage and one sponsored by the National Trust.

Rambles by Rivers - James Thorne 1847

The Routledge History of the Domestic Sphere in Europe - Joachim Eibach 2020-12-29

This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. The Routledge History of the Domestic Sphere in Europe contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures, of private life, and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices, and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper-level graduates, postgraduates and

experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth-century Europe. Urgent Care Medicine Secrets E-Book - Robert P. Olympia 2017-08-04

Planning for Crime Prevention - Ted Kitchen 2004-08-02

Crime and the fear of crime are issues high in public concern and on political agendas in most developed countries. This book takes these issues and relates them to the contribution that urban planners and participative planning processes can make in response to these problems. Its focus is thus on the extent to which crime opportunities can be prevented or reduced through the design, planning and management of the built environment. The perspective of the book is transatlantic and comparative, not only because ideas and inspiration in this and many other fields increasingly move between countries but also because there is a great deal of relevant theoretical material and practice in both the USA and the UK which has not previously been pulled together in this systemic manner.

Castration, Impotence, and Emasculation in the Long Eighteenth Century - Anne Leah Greenfield 2019-11-20

This essay collection examines one of the most fearsome, fascinating, and hotly-discussed topics of the long eighteenth century: masculinity compromised. During this timespan, there was hardly a literary or artistic genre that did not feature unmanning regularly and prominently: from harrowing tales of castrations in medical treatises, to emasculated husbands in stage comedies, to sympathetic and powerful eunuchs in prose fiction, to glorious operatic performances by castrati in Italy, to humorous depictions in caricature and satirical paintings, to fearsome descriptions of Eastern eunuchs in travel narratives, to foolish and impotent old men who became a mainstay in drama. Not only does this unprecedented study of unmanning (in all of its varied forms) illustrate the sheer prevalence of a trope that featured prominently across literary and artistic genres, but it also demonstrates the ways diminished masculinity reflected some of the most strongly-held anxieties, interests, and values of eighteenth-century Britons.

Interpreting Sexual Violence, 1660-1800 - Anne Leah Greenfield 2015-10-06

The essays in this collection explore representations of and responses to sexual violence over the course of the long eighteenth century. Contributors examine the underlying ideologies that spawned these representations, confronting the social, political, legal and aesthetic conditions of the day.

Emotion, Ritual and Power in Europe, 1200-1920 - Merridee L. Bailey 2017-02-25

This volume spans the fourteenth to nineteenth centuries, across Europe and its empires, and brings together historians, art historians, literary scholars and anthropologists to rethink medieval and early modern ritual. The study of rituals, when it is alert to the emotions which are woven into and through ritual activities, presents an opportunity to explore profoundly important questions about people's relationships with others, their relationships with the divine, with power dynamics and importantly, with their concept of their own identity. Each chapter in this volume showcases the different approaches, theories and methodologies that can be used to explore emotions in historical rituals, but they all share the goal of answering the question of how emotions act within ritual to inform balances of power in its many and varied forms. Chapter 5 of this book is available open access under a CC BY 4.0 license.
