Shedding a Little Light on Relationships - Dancing Star 2000

Light in the Mirror - Barry Vissell 1995

Love Now, Here's How - Phyllis B. Light 2004

Love Is a Story - Robert J. Sternberg 1999-06-03

In this groundbreaking work, Robert Sternberg opens the book of love and shows you how to discover your own story--and how to read your relationships in a whole new light. What draws us so strongly to some people and repels us from others? What makes some relationships work so smoothly and others burst into flames? Sternberg gives us new answers to these questions by showing that the kind of relationship we create depends on the kind of love stories we carry inside us. Drawing on extensive research and fascinating examples of real couples, Sternberg identifies 26 types of love story--including the fantasy story, the business

story, the collector story, the horror story, and many others--each with its distinctive advantages and pitfalls, and many of which are clashingly incompatible. These are the largely unconscious preconceptions that guide our romantic choices, and it is only by becoming aware of the kind of story we have about love that we gain the freedom to create more fulfilling and lasting relationships. As long as we remain oblivious to the role our stories play, we are likely to repeat the same mistakes again and again. But the enlivening good news this book brings us is that though our stories drive us, we can revise them and learn to choose partners whose stories are more compatible with our own. Quizzes in each chapter help you to see which stories you identify with most strongly and which apply to your partner. Are you a traveler, a gardener, a teacher, or something else entirely? Love is a Story shows you how to find out.

Perfect Love, Imperfect Relationships - John Welwood 2005-12-27

While most of us have moments of loving freely and openly, it is often hard to sustain this where it matters most—in our intimate relationships. Why if love is so great and powerful are human relationships so challenging and difficult? If love is the source of happiness and joy, why is it so hard to open to it fully and let it govern our lives? In this book, John Welwood addresses these questions and shows us how to overcome

the most fundamental obstacle that keeps us from experiencing love's full flowering in our lives. *Perfect Love, Imperfect Relationships* begins by showing how all our relational problems arise out of a universal, core wounding around love that affects not only our personal relationships but the quality of life in our world as a whole. This wounding shows up as a pervasive mood of unlove—a deep sense that we are not intrinsically lovable just as we are. And this shuts down our capacity to trust, so that even though we may hunger for love, we have difficulty opening to it and letting it circulate freely through us. This book takes the reader on a powerful journey of healing and transformation that involves learning to embrace our humanness and appreciate the imperfections of our relationships as trail-markers along the path to great love. It sets forth a process for releasing deep-seated grievances we hold against others for not loving us better and against ourselves for not being better loved. And it shows how our longing to be loved can magnetize the great love that will free us from looking to others to find ourselves. Written with penetrating realism and a fresh, lyrical style that honors the subtlety and richness of our relationship to love itself, this revolutionary book offers profound and practical guidance for healing our lives as well as our embattled world.

Relationships: from Darkness to Light - Lindsay Rebec Vaiphei Brady 2019-01-29

When confronting relationship problems, we often turn to friends or expensive counselors for advice when we'd be much better served by simply opening our Bibles. Lindsay Rebec Vaiphei Brady draws on her career as a minister and her knowledge of the Bible to reveal important truths about how men and women can get along in this treatise. The stakes are high as failed relationships can hurt children and an individual's personal relationship with the Lord. It's time to take back

what was lost from Adam and Eve so we can govern and rule by the power of God. The author, who was born and raised in a Christian home but was confused until God touched her and taught her that clarity is not about Christianity but about having a personal relationship with Him, explores topics such as the true foundations of life, choosing the right partner, understanding the secret of Satan, the rewards of the faithful, and more. Whether you are a Christian or a non-Christian, you can make a difference by choosing the right way. Discover hope and the path to victory with the lessons in *Relationships: From Darkness to Light*.

Light on Relationships - Hart Defouw 2000-10-01

The sages of ancient India developed the astrological practice of Jyotisha as a karma-measuring apparatus to indicate where your karmas will permit ideals to be shared between you and those with whom you relate. Jyotisha can help restructure relationship dynamics by providing perspectives on when and how your relationships and their difficulties are likely to arise and dissipate. Light on Relationships is currently the only book that makes relationship analysis accessible to the modern student of Indian astrology. If you want to learn how to use this system

for chart comparison, this book gives you the complete details. The authors cover the techniques of synastry and explore all the facets of what makes a relationship work--or not--including personal karma and goals, family influences, the Ayurvedic constitution or dosha of each individual, and how these elements are revealed. In an entertaining and informative way, the authors explain how the individual chart will reveal your inborn ability to relate. They explain the traditional ten Porutthams, which evaluate a couple's sukha (external and internal happiness), and explore superstitious concepts, such as Vishna Kanya (literally, "poison maiden"), or Kuja Dosha ("The Blemish of Mars"). Included are details on determining the most auspicious times for a wedding. This approach to synastry has been developed over years of experimentation. The authors blend the principles of synastry with other techniques culled from Jyotisha's classical canon. Some of the less conventional techniques presented come from ancient oral traditions never before incorporated into the classical works. Other methods come from the authors' mentors; and some have been developed from processes validated over many years of their experience. The authors build on some of the best principles of the astrological traditions of both West and East, hoping to bring the two camps closer together.

More Precious than Light - Margarete van den Brink 2021-04-28

Relationships are built through dialogue - through exploring heartfelt questions that lead to liberating personal insights. This book shows how such dialogue can transform relationships and build community. However, true meeting and healing conversations take effort. Encounter involves light and dark. Relationships bring out sympathy and antipathy. In an age of digital communications and internet-based encounters - when alienation and loneliness are very real issues - this new edition of Margarete van den Brink's classic work is more vital than ever. The process of inner development - leading ultimately to the unification of the human self with its higher, spiritual being - involves a transformation in our everyday selves. In this act of initiation, the art of conversation plays a central role. The words which people speak to each other contain a force that can work in an invigorating and life-enhancing way. This

force - which can be more precious than light itself - is the highest creative principle, the Word referred to in the Gospel of St John, which created everything that exists. Informed by the insights of anthroposophy, *More Precious than Light* indicates the path towards the spirit and the lost power of the Word, transforming relationships and building community. True encounter can only be fostered through making real connections with our fellow human beings.
