

Relationship Therapy With Same Sex Couples

Lgbtq Divorce and Relationship Dissolution

- Abbie E. Goldberg 2018-12-12

What unique challenges face LGBTQ individuals in relationships or who are separating or divorcing, especially now that same-sex couples may marry? What issues might complicate the ending of relationships when children, multiple partners, or multiple parents are present? How do gender, gender transition, ethnicity, immigration status, economic status, geography, and other characteristics shape the experiences of divorcing or separating LGBTQ people?

Finally, how can therapists and lawyers most effectively assist LGBTQ people whose relationships and families are dissolving? LGBTQ

Divorce and Relationship Dissolution:

Psychological and Legal Perspectives and Implications for Practice brings together social science and legal perspectives to examine the timely topic of relationship dissolution and divorce among sexual and gender minorities.

The first edited book to tackle this topic in an informed, comprehensive, and interdisciplinary matter, this volume gathers and expands current knowledge on topics such as LGBTQ people's relationship and dissolution patterns; the divorce and child custody rules and processes that now apply to many LGBTQ families; and the surrounding political and cultural environment in the United States. It will also address practical issues such as mediation with same-sex couples who are separating or divorcing, financial planning, and family therapy for sexual minority parents and their children in the context of divorce/dissolution. With chapters contributed by leading scholars and practitioners from law, political science, psychology, sociology, and other disciplines, LGBTQ Divorce and Relationship Dissolution will be an invaluable resource for academics, practitioners, policymakers, and LGBTQ people. It will also be of interest to students in psychology, counseling, law, and LGBTQ and gender studies.

Uncoupling Convention - Ann D'Ercole
2013-06-17

What does it mean to be member of a gay/lesbian couple or family? The contributors to *Uncoupling Convention: Psychoanalytic Approaches to Same-Sex Couples and Families* address this question by drawing on two cultural movements of the twentieth century: psychoanalysis and the gay/lesbian civil rights movement. Taken together, these traditions provide a framework for understanding, and providing psychotherapeutic assistance to, gay and lesbian patients who present with troubled relationships. The contributors to this volume espouse a clinical focus that supplants the heterosexual perspectives of traditional psychoanalysis with new narratives about family life. Drawing on cultural, feminist, gay/lesbian, and queer studies, they illustrate how concepts of gender and sexuality are routinely informed by unproven heterosexist assumptions - both conscious and unconscious. By examining the changing developmental needs and family dynamics of gay and lesbian families, the contributors broaden our very understanding of what a family is. They illustrate how contrasting cultural constructions of homosexuality and family life play out in same-sex couples. They delineate the multiple realities of gender subjectivity, both in children and in their gay parents. They ponder how technology is shaping reproductive experiences, as lesbians become part of the biomedical system. And they explore recurrent themes of feeling different and ashamed, including the shameful secrecy surrounding same-sex couples' financial matters. In uncoupling conventions, the contributors are effectively coupling post-Freudian psychoanalysis with the insights of queer theory and the critical edge of contemporary cultural

studies. The result is a framework for addressing the relational and family-related challenges of gay and lesbian patients that ranges far beyond traditional approaches and will benefit analytic, couples, and family therapists alike.

Creating Connection - Judith V. Jordan
2014-05-01

Relational-Cultural Therapy (RCT) is developed to accurately address the relational experiences of persons in de-valued cultural groups. As a model, it is ideal for work with couples: it

encourages active participation in relationships, fosters the well-being of everyone involved, and acknowledges that we grow through and toward relationships throughout the lifespan. Part and parcel with relationships is the knowledge that, whether intentionally or not, we fail each other, misunderstand each other, and hurt each other, causing an oftentimes enduring disconnect. This book helps readers understand the pain of disconnect and to use RCT to heal relationships in a variety of settings, including with heterosexual couples, lesbian and gay couples, and mixed race couples. Readers will note a blending of approaches (person-centered, narrative, systems, and feminist theory), all used to change the cultural conditions that can contribute to problems: unequal, sometimes abusive power arrangements, marginalization of groups, and rigid gender, race, and sexuality expectations. Readers will learn to help minimize economic and power disparities and encourage the growth of mutual empathy while looking at a variety of relational challenges, such as parenting, stepfamilies, sexuality, and illness. Polarities of "you vs. me" will be replaced with the healing concept of "us."

Narrative Therapy & Cognitive Behavioral Therapy In Same-Sex Couples Counseling - Alissa Solis 2015

"Narrative Therapy & Cognitive Behavioral Therapy in Same-Sex Couples Counseling By Alissa Solis Master of Arts in Counseling Saint Mary's College of California, 2015 Suzy Thomas, Ph. D, Chair Same-sex couples counseling is an emerging field in psychotherapy. Research has proven that there is a need for more competent therapists to counsel same-sex couples. This project introduces a one-day workshop for therapists in working with same-sex couples. The workshop, Narrative Therapy & Cognitive Behavioral Therapy In Same-Sex Couples Counseling, is designed for Marriage and Family Therapists in California, and will entail an eight-hour, one-day, three part workshop facilitated by a MFT with knowledge of same-sex couples counseling. This project is designed to provide

training for MFTs who are interested in gaining competence in counseling same-sex couples in order to learn and grow in this field."--Abstract, p. 1.

Social Services for Gay and Lesbian Couples - Lawrence A Kurdek 2012-11-12
Here is an essential resource filled with advice for providing social services to gay and lesbian

couples. Despite myths to the contrary, many gay men and lesbians form long-term couples relationships. Unfortunately, many professionals working in the area of social services lack training with regard to the special needs of gay/lesbian couples. *Social Services for Gay and Lesbian Couples* helps fill this gap by providing information on diverse aspects of gay and lesbian domestic partnerships for social services workers. The contributing authors highlight the unique characteristics of gay and lesbian couples relationships and provide valuable information on the special social services these couples may need. *Social Services for Gay and Lesbian Couples* includes the results of a survey that divulge basic, descriptive information on the nature of gay and lesbian couples. These in-depth statistics reveal couples' perspectives on relationship length, commitment, and quality, terms of address for partners, finances, relationship experience, discrimination, living situation, sex, first meetings, support and challenges for the relationship, children, legal arrangements, and concerns about HIV and AIDS. In addition to revealing specific information about gay and lesbian couples, *Social Services for Gay and Lesbian Couples* also explores the therapeutic implications of this knowledge for social service providers. Chapters discuss specific situations in gay and lesbian relationships about which social workers should be informed, such as the factors involved in the formation of lesbian identities and issues encountered by gay couples when one partner is HIV-infected and the other is not. Also addressed are the special needs of gay or lesbian couples who wish to be parents, complete with descriptions of innovative services and the names, addresses, and phone numbers of national organizations that provide resources for gay or lesbian parents.

Same-Sex Couples and Other Identities - Damian McCann 2021-12-30

This book provides a contemporary exploration of psychoanalytic theory and its application to therapy with lesbian, gay, bisexual, trans and queer relationships, challenging heteronormative practice and introducing new perspectives on working with gender and sexual diversity. In this wide-ranging collection, international contributors draw on key aspects of couple psychoanalytic theory and practice, whilst also expanding hetero and mononormative frames of reference to explore the nature of relating in open, closed and poly relationships. Developments in regard to gender and sexuality within the contexts of family and culture and an examination of same-sex parenting are also included, as are psychosexual considerations and the process of aging. A major focus of the book is the importance of the therapist's own gender and sexuality in the clinical encounter and how to manage adjustments in approach to counter the dominance of heteronormative thinking in practice. The first book of its kind to incorporate an in-depth examination of same sex, queer, bisexual, trans and queer relationships in regard to psychoanalytic thinking and practice, *Same-Sex Couples and Other Identities* is a vital resource for psychoanalytically informed psychotherapists, counsellors and practitioners working with a diverse range of clients.
